GLOBAL DESIGN PARTNER.

We are a **global partner in international design** thanks to our superior ceramic solutions that are innovative in both style and technology. Our extensive range of porcelain surfaces for interiors, exteriors, and ceramic decorative tiles meets all the needs of designers and end users all over the world.

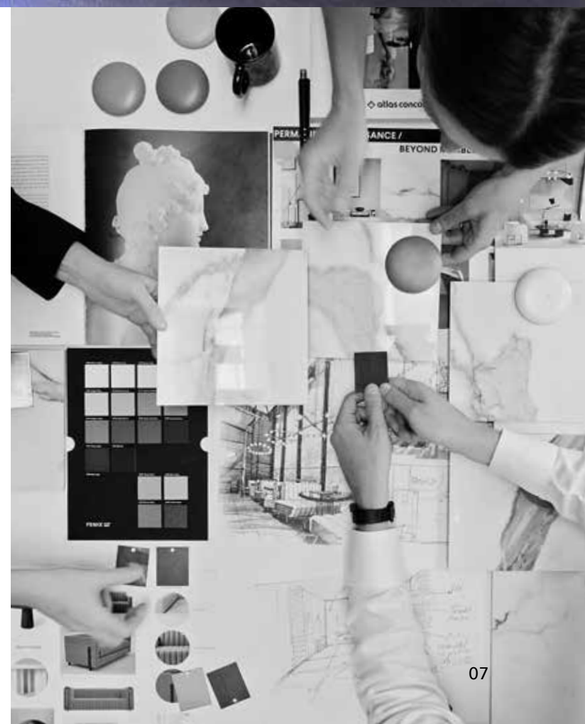
Siamo **partner globali della progettazione e del design internazionali**, grazie a soluzioni ceramiche di eccellenza, innovative per stile e tecnologia. La nostra ampia offerta di superfici in gres porcellanato per interni ed esterni e rivestimenti decorativi in ceramica risponde compiutamente alle esigenze di progettisti e utilizzatori finali ovunque nel mondo.

Nous sommes des partenaires globaux de la planification et de la conception internationales, grâce à d'excellentes solutions en céramique, innovantes dans leur style et leur technologie. Notre vaste gamme de surfaces en grès cérame pour l'intérieur et l'extérieur et de revêtements céramiques décoratifs répond aux besoins des concepteurs et des utilisateurs finaux dans le monde entier.

Somos socios globales en el diseño y la planificación internacional, gracias a excelentes soluciones cerámicas, innovadoras en estilo y tecnología. Nuestra amplia gama de superficies de gres porcelánico para interiores y exteriores y revestimientos cerámicos decorativos satisface plenamente las necesidades de diseñadores y usuarios finales en todo el mundo.

Wir sind anhand hochwertiger und aufgrund ihres Stil und ihrer Technologie innovativer Keramikprodukte globale Partner für die internationale Planung und das internationale Design. Unser breites Angebot an Feinsteinzeugoberflächen für den Innen- und Außenbereich sowie an dekorativen keramischen Bodenfliesen wird den Bedürfnissen von Planern und Endverbrauchern auf der ganzen Welt gerecht.

Мы глобальные партнеры в сфере проектирования и дизайна, потому что предлагаем превосходную плитку, инновационную по стилю и технологиям. Наш керамогранит для интерьера и улицы и декоративная настенная плитка в состоянии исчерпывающе удовлетворить любые требования проектировщиков и потребителей, в какой бы части света они ни находились.



TIME IS ON OUR SIDE.

Our company was founded in 1969, and **today, more than 50 years later**, we continue to passionately experience the authentic spirit of a history that continuously renews itself while remaining faithful to our core values, like innovation, technology, ethics and social and environmental sustainability.

La nostra azienda nasce nel 1969 e **oggi, dopo oltre 50 anni**, continuiamo a vivere con passione lo spirito più autentico di una storia che sa rinnovarsi di continuo, pur rimanendo fedele ai valori che ne hanno accompagnato il cammino, come l'innovazione, la tecnologia, l'etica e la sostenibilità sociale e ambientale.

Notre société a été fondée en 1969 et aujourd'hui, après plus de 50 ans, nous continuons à vivre avec passion l'esprit le plus authentique d'une histoire qui sait se renouveler sans cesse, tout en restant fidèle aux valeurs qui ont accompagné notre parcours, telles que l'innovation, la technologie, l'éthique et la durabilité sociale et environnementale.

Unser Unternehmen wurde 1969 gegründet und auch heute, nach mehr als 50 Jahren, verfolgen wir weiterhin mit Leidenschaft den authentischsten Geist einer Geschichte, die sich ständig erneuert und dabei den Werten treu bleibt, die sie auf ihrem Weg begleitet haben, wie Innovation, Technologie, Ethik sowie soziale und ökologische Nachhaltigkeit.

Nuestra empresa fue fundada en 1969 y hoy, después de más de 50 años, seguimos viviendo con pasión el espíritu más auténtico de una historia que sabe renovarse continuamente, manteniéndose fiel a los valores que han acompañado su camino, como la innovación, la tecnología, la ética y la sostenibilidad social y ambiental.

Наша компания была основана в 1969 году, и сегодня, спустя более 50 лет, мы с тем же энтузиазмом ищем новых достижений, оставаясь при этом верными нашим исконным ценностям, таким как инновации, технологии, этика, социальная ответственность, экологичность.

AUTHENTIC INSPIRATION.

To create a new collection, we seek out the most original sources of inspiration wherever they may be. The rarest stones and marbles, the most authentic woods, and the surfaces that best reflect a contemporary character are interpreted until an innovative material of **absolute excellence and quality** is achieved, fully conveying the meaning and style of **Made in Italy** throughout the world.

Per realizzare una nuova collezione, cerchiamo le ispirazioni più originali ovunque si trovino. Le pietre e i marmi più rari, il legno più autentico, le superfici che meglio identificano la contemporaneità sono interpretate fino a ottenere un materiale innovativo e di **assoluta eccellenza e qualità**, che rispecchi al 100% il significato e lo stile del **Made in Italy** nel mondo.

BACK TO INDEX

Pour créer une nouvelle collection, nous recherchons les inspirations les plus originales où qu'elles se trouvent. Les pierres et les marbres les plus rares, le bois le plus authentique, les surfaces qui identifient le mieux notre temps sont interprétés pour obtenir un matériau innovant d'une excellence et d'une qualité absolues, qui reflète à 100% le sens et le style du Made in Italy dans le monde.

Für den Entwurf einer neuen Kollektion suchen wir nach den originellsten Inspirationen, wo auch immer diese zu finden sind. Die seltensten Steine und Marmore, das echteste Holz und die die zeitgenössische Welt am besten verkörpernden Oberflächen werden für den Erhalt eines innovativen Materials von vollkommener Vortrefflichkeit und Qualität interpretiert, das zu 100% die Bedeutung und den Stil des Made in Italy weltweit widerspiegelt.

Para crear una nueva colección, buscamos las inspiraciones más originales dondequiera que estén. Las piedras y los mármoles más raros, la madera más auténtica, las superficies que mejor identifican lo contemporáneo se interpretan para obtener un material innovador y de absoluta excelencia y calidad, que refleje al 100% el significado y el estilo del Made in Italy en el mundo.

Чтобы создать новую коллекцию, мы ищем самые интересные источники вдохновения, где бы они ни находились. Редкие камни и сорта мрамора, традиционные породы древесины, современные индустриальные материалы переосмысливаются и прорабатываются нашими дизайнерами до тех пор, пока не получится тот материал, который на 100% воплотит столь высоко ценимый во всем мире итальянский стиль.

PERMANENT INNOVATION.

At Atlas Concorde the most advanced systems are complemented by an extensive expertise in ceramic tiles rich in experience and quality. **Process innovation is permanent** and oriented towards industrial efficiency, with consequent positive effects on the product and service, as demonstrated by the new logistics hub, which completes the fully automated and digitized production.

In Atlas Concorde l'impiantistica più avanzata è al servizio di un sapere ceramico forte e ricco di esperienza e qualità. **L'innovazione di processo è permanente** e orientata a un efficientamento industriale con effetti positivi sul prodotto e sul servizio, come dimostra il nuovo polo logistico, che completa una efficacia produttiva di eccellenza completamente automatizzata e digitalizzata.

Chez Atlas Concorde, les installations les plus avancées sont au service d'un savoir-faire céramique solide, riche en expérience et en qualité. L'innovation de processus est permanente et orientée vers l'efficacité industrielle avec des effets positifs sur le produit et le service, comme le démontre le nouveau centre logistique, qui complète un parcours de production d'excellence, entièrement automatisé et numérisé.

Bei Atlas Concorde steht die modernste Anlagentechnik im Dienst eines durch Erfahrung gestärkten und mittels Qualität bereicherten keramischen Know-hows. Die Prozessinnovation ist permanent und mit positiven Auswirkungen auf das Produkt und den Service auf die industrielle Effizienz ausgerichtet, wie der neue Logistik-Hub zeigt, der eine vollautomatisierte und digitalisierte Produktionseffizienz der Spitzenklasse vervollständigt.

En Atlas Concorde, la más avanzada ingeniería de plantas está al servicio de un fuerte conocimiento de la cerámica, rico en experiencia y calidad. La innovación de procesos es permanente y está orientada hacia la eficiencia industrial con efectos positivos en el producto y el servicio, como lo demuestra el nuevo centro logístico, que completa una eficiencia productiva de excelencia totalmente automatizada y digitalizada.

На полностью автоматизированных и оцифрованных заводах Atlas Concorde передовое производственное оборудование – на службе у глубоких знаний и опыта в области керамики. Здесь технологические инновации носят постоянный характер и направлены на совершенствование как самого процесса производства, так и выпускаемых изделий и обслуживания, о чем свидетельствует, например, новая логистическая платформа.

BACK TO INDEX

Notre responsabilité sociétale se traduit par des faits concrets, comme l'autonomie énergétique de l'usine de Fiorano Modenese, obtenue grâce à une centrale de cogénération au méthane et à la récupération des eaux et des déchets de traitement. Elle s'exprime également par l'attention portée à la sécurité et au bien-être des travailleurs, qui peuvent bénéficier de cours de formation et de services exclusifs, comme l'Asilo Concorde, un centre pédagogique qualifié ouvert aux enfants des salariés.

Unsere soziale Verantwortung drückt sich in konkreten Fakten aus, wie z.B. der Energieautonomie der Werkanlage in Fiorano Modenese, die auf einer mit Methan betriebenen Kraft-Wärme-Kopplungsanlage und der Aufbereitung von Wasser und Verarbeitungsabfällen beruht. Sie drückt sich auch durch Aufmerksamkeit auf die Sicherheit und das Wohlbefinden der Mitarbeiter aus. Diese können Schulungen und exklusive Dienstleistungen in Anspruch nehmen, wie zum Beispiel das Asilo Concorde, eine qualifizierte pädagogische Struktur, die den Kindern aller Mitarbeiter offen steht.

Nuestra responsabilidad social se expresa en hechos concretos, como la autonomía energética de la planta de Fiorano Modenese, obtenida gracias a una planta de cogeneración de metano y a la recuperación de agua y procesamiento de residuos de elaboración. También se expresa en la atención prestada a la seguridad y el bienestar de los trabajadores, que pueden realizar cursos y hacer uso de servicios exclusivos, como la guardería infantil Asilo Concorde, una estructura pedagógica cualificada abierta a los hijos de los empleados.

Наша социальная ответственность проявляется в конкретных фактах. Благодаря работающей на метане когенерационной установке завод в Фьорано-Моденезе достиг энергетической независимости. Кроме того, оснащен современной системой повторного использования отработанной воды и отходов производства. Не меньше внимания уделяется благополучию работников. Для них организуется непрерывное обучение по вопросам безопасности и повышения профессиональных навыков. А чтобы помочь им с организацией семейной жизни, мы открыли для их детей детский Asilo Concorde.

WE CARE.

Our social responsibility is expressed in concrete facts, like the energy autonomy of the plant in Fiorano Modenese, achieved thanks to a methane cogeneration system and the recovery of water and waste. It's also evident in our attention to the safety and welfare of our workers, who enjoy exclusive training courses and services such as the **Asilo Concorde**, a qualified nursery school available for the children of employees.

La nostra responsabilità sociale si esprime in fatti concreti, come l'autonomia energetica dello stabilimento di Fiorano Modenese, ottenuta grazie a un impianto di cogenerazione a metano e al recupero delle acque e degli scarti di lavorazione. Si esprime anche con l'attenzione alla sicurezza e al benessere dei lavoratori, che possono avvalersi di percorsi di formazione e servizi esclusivi, come **l'Asilo Concorde**, una struttura pedagogica qualificata e aperta ai figli dei dipendenti.

THE WORLD IS OUR HOME.

Atlas Concorde is a **multinational company** with two production plants in Italy, one in the United States, and one in Russia, as well as showrooms and commercial branches on five continents. Management is solidly rooted in Italy, with headquarters in Fiorano Modenese, in the heart of the world's most important ceramic tile district.

Atlas Concorde è una **realtà multinazionale** con due stabilimenti produttivi in Italia, uno negli Stati Uniti e uno in Russia, oltre a showroom e filiali commerciali nei cinque continenti. La governance è saldamente italiana, con quartier generale a Fiorano Modenese, nel cuore del distretto ceramico più importante al mondo.

Atlas Concorde est une réalité multinationale avec deux sites de production en Italie, un aux États-Unis et un autre en Russie, ainsi que des salles d'exposition et des succursales de vente sur les cinq continents. La gouvernance est résolument italienne, avec son quartier général à Fiorano Modenese, au cœur du plus important district céramique du monde.

Atlas Concorde es una empresa multinacional con dos plantas de producción en Italia, una en Estados Unidos y otra en Rusia, así como salas de exposición y sucursales de venta en los cinco continentes. Su gobernanza es firmemente italiana, con sede en Fiorano Modenese, en el corazón del distrito cerámico más importante del mundo.

Atlas Concorde ist ein multinationales Unternehmen mit zwei Produktionsstätten in Italien, eine in den Vereinigten Staaten und eine in Russland sowie Ausstellungsräumen und Verkaufsniederlassungen auf fünf Kontinenten. Die Unternehmensführung ruht fest in italienischer Hand, mit Hauptsitz in Fiorano Modenese, im Herzen des wichtigsten Keramikbezirks der Welt.

Atlas Concorde – международная реалия. Располагает двумя заводами в Италии, одним в Соединенных Штатах и одним в России, а также шоу-румами, представительствами и филиалами на всех 5-ти континентах. Штаб-квартира компании находится в Италии, в Фьорано-Моденезе, т.е. в самом сердце крупнейшего в мире керамического района.

OUR SHOWROOMS.

Atlas Concorde has embarked on a **strategy of visibility and physical presence** in the main international design hotspots by opening showrooms and commercial locations that can support the best architects, interior designers, and customers in their work thanks to specialized consulting for each project.

Atlas Concorde ha intrapreso una **strategia di visibilità e presenza** nei principali hotspot internazionali della progettazione, con l'apertura di showroom e sedi commerciali in grado di supportare al meglio architetti, interior designer e clienti nel loro lavoro, grazie a una consulenza specializzata per ogni progetto.

Atlas Concorde a mis en place une stratégie de visibilité et de participation dans les principaux points chauds du design international, avec l'ouverture de showrooms et de bureaux commerciaux capables d'accompagner les architectes, les décorateurs d'intérieur et les clients dans leur travail, grâce à un conseil spécialisé pour chaque projet.

Atlas Concorde verfolgt anhand der Eröffnung von Showrooms und Handelsbüros, die in der Lage sind, mittels einer spezialisierten Beratung für jedes Projekt Architekten, Innenarchitekten und Kunden bei ihrer Arbeit zu unterstützen, eine Strategie der Sichtbarkeit und Präsenz an den wichtigsten internationalen Hotspots der Planung.

Atlas Concorde ha emprendido una estrategia de visibilidad y presencia en los principales puntos neurálgicos del diseño internacional, con la apertura de salas de exposición y oficinas comerciales capaces de apoyar a arquitectos, diseñadores de interiores y clientes en su trabajo, gracias a una asesoría especializada para cada proyecto.

Чтобы установить более тесные отношения со своими партнерами, компания Atlas Concorde разработала стратегию по открытию монобрендовых точек продажи в крупнейших мировых центрах архитектуры и дизайна. В открывшихся шоу-румах к услугам архитекторов, дизайнеров и клиентов широкий ассортимент выставленных коллекций и консультации наших специалистов по применению изделий в различных проектах.

AT THE CENTER OF DESIGN.

The new flagship store in Milan, in the key district of Brera, confirms our desire for a **lasting presence in the world of international design**. Designed by Lissoni & Partners, the showroom is an art gallery where ceramic surfaces are displayed in all their beauty, aesthetic, and technological excellence, an ideal setting for the work and meetings of architects, interior designers, and end users.

Il nuovo flagship store di Milano, nel centralissimo quartiere di Brera, conferma la volontà di una **presenza stabile nel mondo del design internazionale**. Progettata da Lissoni & Partners, la sala mostra si pone come una galleria d'arte dove le superfici ceramiche sono esposte in tutta la loro bellezza ed eccellenza estetica e tecnologica, in un contesto ideale per il lavoro e l'incontro di architetti, interior designer e utenti finali.

Le nouveau magasin phare de Milan, dans le quartier central de Brera, confirme la volonté d'une présence stable dans le monde du design international. Conçu par Lissoni & Partners, le showroom se présente comme une galerie d'art où les surfaces céramiques sont exposées dans toute leur beauté et leur excellence esthétique et technologique, dans un contexte idéal pour que les architectes, les décorateurs d'intérieur et les utilisateurs finaux puissent œuvrer et se rencontrer.

Der neue Flagship-Store in Mailand, im zentralen Stadtteil Brera, beweist das Streben nach einer stabilen Präsenz im Bereich des internationalen Designs. Der von Lissoni & Partners entworfene Showroom fungiert als Kunstgalerie, in der die Keramikoberflächen in einem idealen Rahmen für die Arbeit und Begegnung von Architekten, Innenarchitekten und Endverbrauchern in ihrer ganzen Schönheit und ästhetischen sowie technologischen Vortrefflichkeit ausgestellt werden.

La nueva tienda insignia de Milán, en el céntrico barrio de Brera, confirma el deseo de una presencia estable en el mundo del diseño internacional. Diseñada por Lissoni & Partners, la sala de exposición se presenta como una galería de arte donde las superficies cerámicas están expuestas en su máximo esplendor y excelencia estética y tecnológica, en un contexto ideal para el trabajo y el encuentro de arquitectos, diseñadores de interiores y usuarios finales.

Новый флагманский магазин в Милане, в сердце квартала Брера, подтверждает наше стремление к стабильному присутствию на международной арене дизайна. Шоу-рум, спроектированный студией Lissoni & Partners, похож на художественную галерею, в которой плитка выставлена во всем своем эстетическом и техническом великолепии. Обстановка здесь идеальна для встреч и совместной работы архитекторов, дизайнеров, конечных потребителей.

ATLAS CONCORDE STUDIO MILANO
by Lissoni & Partners

PROJECTS
WORLDWIDE.

The best confirmation of the high regard for our ceramic and porcelain surfaces are the **hundreds of prestigious projects** that architects, interior designers, contractors, and users from around the world complete and enrich with Atlas Concorde materials every year.

La migliore conferma dell'apprezzamento delle nostre superfici ceramiche e in gres porcellanato sono le **centinaia di prestigiose realizzazioni** che ogni anno gli architetti, gli interior designer, i contractor e gli utilizzatori di tutto il mondo completano e arricchiscono con i materiali Atlas Concorde.

La meilleure confirmation de l'appréciation de nos surfaces en céramique et en grès cérame sont les centaines de projets prestigieux que chaque année les architectes, les décorateurs d'intérieur, les entrepreneurs et les utilisateurs du monde entier complètent et enrichissent avec les matériaux d'Atlas Concorde.

Die beste Bestätigung für die Wertschätzung unserer Keramik- und Feinsteinzeugoberflächen sind hunderte prestigeträchtige Projekte, die jedes Jahr von Architekten, Innenarchitekten, Bauunternehmern und Anwendern aus der ganzen Welt mit Materialien von Atlas Concorde vervollständigt und bereichert werden.

La mejor confirmación de la valorización de nuestras superficies de cerámica y gres porcelánico son cientos de prestigiosas creaciones que cada año los arquitectos, diseñadores de interiores, contratistas y usuarios de todo el mundo completan y enriquecen con materiales Atlas Concorde.

Лучшим подтверждением того, насколько высоко ценятся керамогранитные и настенные плитки Atlas Concorde, служат сотни проектов, реализованных с их использованием архитекторами, проектировщиками, интерьерными дизайнерами, строителями, потребителями в самых разных частях света.

WELCOME
TO OUR WORLD.

The headquarters in Fiorano Modenese is a **prestigious multifunctional property** where it is pleasant to work and do business. It consists of the office building, a showroom divided into three large exhibition spaces with workshop areas and conference rooms. Situated in a centuries-old park stands the 19th-century Casino Vicini villa along with other welcoming spaces, ideal for business meetings and socializing.

Il quartier generale di Fiorano Modenese è **una prestigiosa sede multifunzionale**, dove è piacevole lavorare e fare business. Si compone della palazzina uffici, una showroom articolata in tre ampie aree espositive, con zone workshop e sale congressi. Immersi in un parco secolare, sorgono la villa ottocentesca di Casino Vicini e altri accoglienti spazi, ideali per gli incontri di lavoro e la socialità.

Le siège de Fiorano Modenese est un lieu multifonctionnel de grand standing, où le travail et les affaires se déroulent dans une ambiance agréable, composée d'un bâtiment destiné aux bureaux, d'une salle d'exposition divisée en trois grands espaces de présentation, avec des zones d'ateliers et des salles de conférence. Immergée dans un parc centenaire, on trouve une villa du XIXe siècle, le Casino Vicini, et d'autres espaces accueillants, idéaux pour les réunions d'affaires et les rencontres sociales.

Der Hauptsitz in Fiorano Modenese ist ein prestigeträchtiger Mehrzweckstandort, an dem es sich angenehm arbeiten und Geschäfte machen lässt. Er besteht aus dem Bürogebäude, einem Ausstellungsraum, der in 3 große Ausstellungsbereiche unterteilt ist, und umfasst Werkstattbereiche sowie Konferenzräume. Inmitten eines jahrhundertealten Parks befinden sich die Villa von Casino Vicini aus dem neunzehnten Jahrhundert und andere einladende Räume, die ideal für Geschäftstreffen und gesellige Zusammenkünfte geeignet sind.

La sede de Fiorano Modenese es una prestigiosa sede multifuncional, donde es agradable trabajar y hacer negocios. Consiste en el edificio de oficinas, una sala de exposición dividida en tres grandes áreas de exhibición, con áreas de talleres y salas de conferencias. Rodeada por un parque centenario, se encuentra la villa del siglo XIX de Casino Vicini y otros acogedores espacios, ideales para reuniones de negocios y socialización.

Штаб-квартира в Фьорано-Моденезе является мультифункциональным местом. Состоит из офисного здания и шоу-рума, который включает три выставочные площадки с зонами для семинаров и конференц-залами. Здесь же в старинном парке располагается живописная вилла Casino Vicini XVIII века с комфортными пространствами для работы и отдыха.

3D WALL & DECOR
CANONE INVERSO

The Atlas Concorde decor collection

by Piero Lissoni

"The four compositions of the Canone Inverso collection are the variants of a model, a scheme that is composed and recomposed to create a harmonious relationship that like in a musical score is formed by the assembly of different notes, or rather the forms that make it up".

"Le quattro composizioni della collezione Canone Inverso sono le varianti di un modello, uno schema che viene composto e ricomposto per dare vita a un rapporto armonico che, come in una partitura musicale, è formato dall'assemblaggio delle diverse note, ovvero dalle forme che lo costituiscono."

Each decoration goes perfectly with the collection it is made from.

Canone Inverso reflects a combination of fluidity and materiality. It interprets the vision that Atlas Concorde had given Piero Lissoni: create decorative elements for wall and floor tiles. The collection offers designers the possibility of combining each module/mosaic with Atlas Concorde floor and wall tiles.

Canone Inverso riflette una combinazione di fluidità e matericità e si fa interprete del pensiero progettuale che Atlas Concorde ha condiviso con Piero Lissoni: ideare elementi decorativi, mosaici, tagli, per rivestimenti murali e da pavimento. La collezione offre ai progettisti la possibilità di abbinare ciascun modulo/mosaico ai rivestimenti per pavimento e per pareti di Atlas Concorde.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls.The glossy polished surface finish, surprisingly brilliant and bright, features slight irregularities. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / La finitura Lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo, e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls.The glossy polished surface finish, surprisingly brilliant and bright, features slight irregularities. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / La finitura Lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo, e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

PRISM

With Prism, Atlas Concorde colors **the world of the resin effect with 13 soft tones**. The color palette, selected for Atlas Concorde by the Lissoni & Partners studio led by Piero Lissoni, makes it possible to design refined, bright environments combining shapes and colors in an innovative fusion that reflects the latest trends in contemporary design.

Con Prism, Atlas Concorde colora **il mondo dell'effetto resina con tredici tonalità morbide.** La palette cromatica, selezionata per Atlas Concorde dallo studio Lissoni&Partners guidato da Piero Lissoni, consente di progettare ambienti ricercati e luminosi, combinando forme e colori in una sintesi innovativa che interpreta al meglio le tendenze più attuali del design contemporaneo.

CONCRETE & RESIN LOOK

A COLOR CONCEPT
BY PIERO LISSONI

We based the concept on the effect of light through a prism. These colors are what we imagined would be the result of prism light transformed into a rainbow. We then worked on this refracted light to try to reproduce it on the tile surface, a palette modified to become domestic colors or architectural colors.

Abbiamo provato a ragionare sull'effetto della luce attraverso un prisma, questi colori sono quello che ci siamo immaginati possa essere il risultato di una luce prismatica che si trasforma in un arcobaleno. Siamo poi intervenuti su questa rifrazione luminosa per cercare di portarla sulle superfici, una spezzettatura cromatica modificata per diventare colori domestici o colori dell'architettura.

MATTE / GRIP

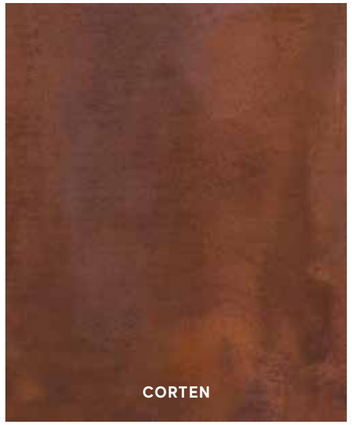
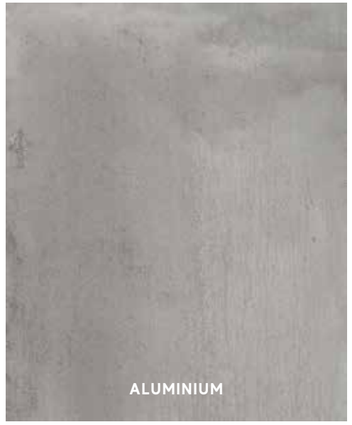
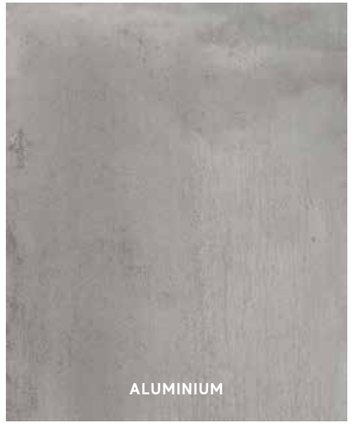
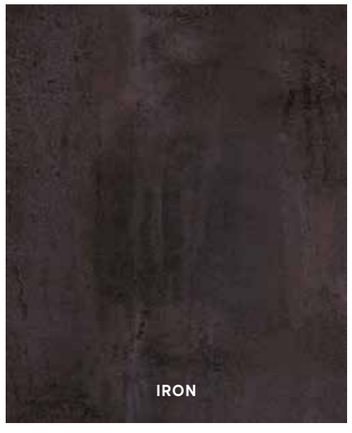
POLISHED

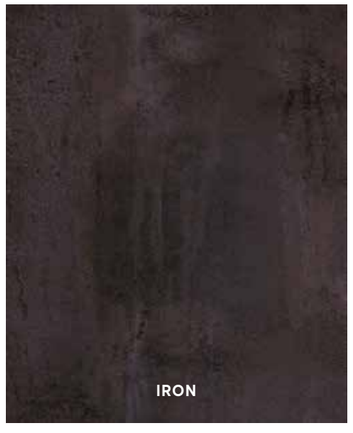
OUTDOOR PAVING ≠ 20 mm











The semi-glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required. The surface's shine and great ease of cleaning are the result of in-depth studies and technical research aimed at ensuring its durability over time. If the product is in direct contact with the outdoors, moisture and dirt absorption devices must be used to prevent scratching. / La finitura lappata semilucida e indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. La lucentezza e l'elevata facilita di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto e a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidita e dello sporco per prevenire la formazione di graffi.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls. The polished glossy surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. - If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / La finitura lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo , e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. - Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls. The polished glossy surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / La finitura lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo, e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

Royal Calacatta, Absolute Brown

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls. The polished glossy surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / La finitura lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo, e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

MARVEL
SHINE

Marvel Shine pays homage to the white marble of Italian artistic tradition, exploring new surfaces that are unique in their purity, color, and brightness. To further expand the range, **Atlas Concorde sought out the assistance of SAVEMA**, a long-time leader in the marble industry, which offered their experience for the selection of the purest and most precious white marbles to be used as a source of inspiration for this collection.

Marvel Shine rende omaggio al marmo bianco della tradizione artistica italiana, esplorando nuove superfici, uniche per purezza, colore e luminosità. Per ampliare la gamma Marvel, **Atlas Concorde si è avvalsa della collaborazione di SAVEMA**, storica azienda leader nel settore dei marmi, che ha messo a disposizione tutta la sua esperienza per la scelta di marmi bianchi tra i più puri e pregiati, utilizzati come fonte di ispirazione primaria per questa collezione.

Polished and silk finishes are recommended for low-stress residential or commercial floors where anti-slip performance is not required. The polished glossy surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble. The surface's shine and superior ease of cleaning are the result of in-depth studies and extensive technical research aimed at ensuring its durability over time. If the product is in direct contact with the outside, use moisture and dirt absorption devices to prevent scratches. / Le finiture lappata e silk sono indicate per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La lucentezza e l'elevata facilità di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi.

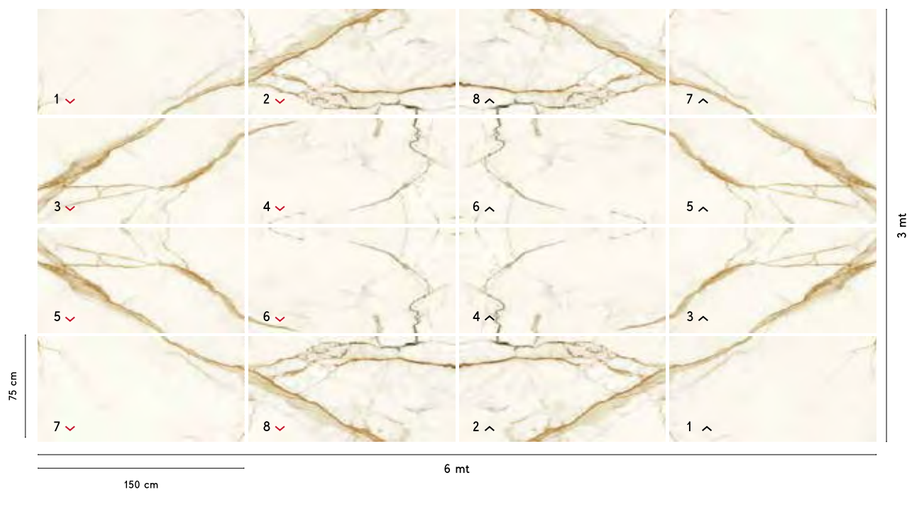
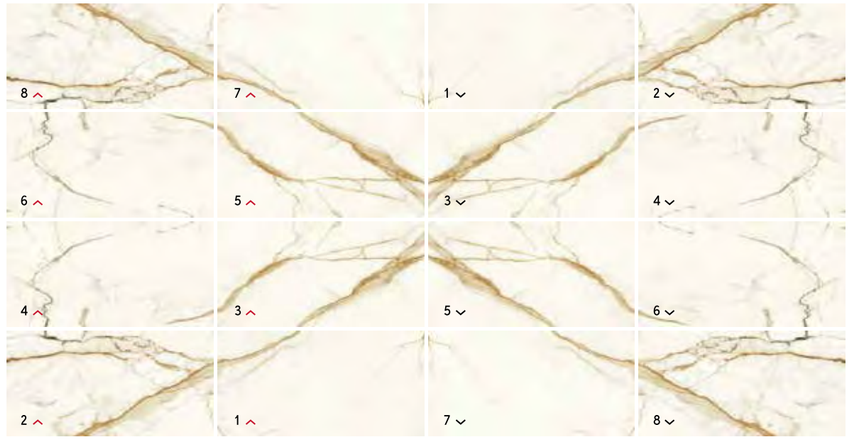
MACCHIA APERTA

A4PI Marvel Calacatta Imperiale 75x150 Lappato Macchia Aperta - 75x150 - 29½"x59"



Layout 1



Layout 2

Layout 3

Layout 4

The collection allows creating an open vein measuring 6 m x 3 m (16 75x150 slabs) ideal for large rooms where you can enhance the entire interior design. The junction between the graphics that make up the open vein is not geometrically perfect but imitates the natural irregularity of the open veins of natural marble products. The code "polished open vein" corresponds to a pallet composed of 16 tiles in the 75x150 cm (8+8) format that make up the entire open vein. A number is printed on the edge of each tile (see laying diagram). / La collezione permette di creare una macchia aperta di dimensioni 6m x 3m (16 facce di 75x150) ideale per ambienti ampi nei quali poter valorizzare l'intera composizione. La giunzione tra le grafiche che compongono la macchia aperta non è geometricamente perfetta ma imita la naturale irregolarità delle macchie aperte dei prodotti in marmo naturale. Il codice "lappato macchia aperta" corrisponde ad un pallet composto da 16 piastrelle in formato 75cmx150cm (8+8) che compongono l'intera macchia aperta. Sulla costa di ciascuna piastrella è stampato il numero corrispondente (vedi schema di posa). / La collection permet de créer une tache ouverte de 6m x 3m (16 faces de 75x150) idéale pour les grandes pièces où l'on peut mettre en valeur l'ensemble de la composition. La jonction entre les graphismes qui composent la tache ouverte n'est pas géométriquement parfaite mais imite l'irrégularité naturelle des taches ouvertes des produits en marbre naturel. Le code "lappato macchia aperta" (tache ouverte rodée) correspond à une palette composée de 16 carreaux au format 75cmx150cm (8+8) qui constituent la totalité de la tache ouverte. Le numéro correspondant est imprimé sur le bord de chaque carreau (voir schéma de pose). / Die Kollektion erlaubt die Bildung einer Spiegeloptik mit den Abmessungen 6 m x 3 m (16 verschiedenen Oberflächen 75 x 150). Ideal in weitläufigen Räumen, in denen die Komposition optimal zur Geltung gebracht werden kann. Der Anschluss zwischen den einzelnen Grafikbildern, die den Spiegeleffekt bilden, ist geometrisch nicht perfekt, sondern empfindet die natürliche Unregelmäßigkeit der mit Naturmarmor erzielten Spiegeloptik nach. Die Artikelbezeichnung „geläppt gespiegelt" entspricht einer Palette mit 16 Fliesen im Format 75 cm x 150 cm (8+8), die das gesamte, gespiegelte Motiv bilden. Jede Fliese ist an der Seite nummeriert (siehe Verlegeplan). / La colección permite crear una mancha abierta de 6m x 3m (16 caras de 75x150) ideal para ambientes amplios donde se puede realzar toda la composición. La unión entre los gráficos que componen la mancha abierta no es geométricamente perfecta, sino que imita la natural irregularidad de las manchas abiertas de los productos de mármol natural. El código «lapeado mancha abierta» corresponde a una paleta compuesta de 16 baldosas de formato 75cmx150cm (8+8) que componen toda la mancha abierta. El número correspondiente está impreso en el borde de cada baldosa (ver diagrama de colocación). / Коллекция позволяет создавать облицовку с симметричным зеркальным рисунком 6 м x 3 м (16 плит 75x150). Данная композиция максимально раскрывает свой потенциал в больших помещениях. Стык между плитами, которые образуют симметричный рисунок, не является геометрически совершенным, а имитирует естественную неровность аналогичных рисунков, составляемых из плит природного мрамора. Код «лаппатированный с симметричным зеркальным рисунком» соответствует поддону, состоящему из 16 плит формата 75 см x 150 см (8+8), из которых складывается данный симметричный рисунок. На торце каждой из плит напечатан соответствующий номер (см. схему укладки).

120x278 cm slabs cut into modules that recompose the open vein. This makes it possible to lay them even on curved surfaces. Each slab is cut into 16 numbered modules measuring 15x139 cm. To recreate the open vein, follow the sequence of pieces indicated in the laying patterns inside the packaging. Each slab is placed in 4 boxes, each of which contains 4 modules, for a total of 16 modules, corresponding to a surface of 3.3 mq. / Lastre 120cmx278cm tagliate in moduli che ricompongono la macchia aperta. Consentono la posa anche su superfici curve. Ogni lastra viene tagliata in 16 moduli numerati, di dimensione 15cmx139cm: per ricreare la macchia aperta seguire la sequenza dei pezzi indicata negli schemi di posa all'interno dell'imballo. Ogni lastra viene collocata in 4 scatole, ciascuna delle quali contiene 4 moduli, per un totale di 16 moduli, corrispondenti ad una superficie di 3,3mq. / Dalles de 120 cm x 278 cm découpées en modules qui recomposent la tache ouverte. Elles permettent la pose même sur des surfaces courbes. Chaque dalle est découpée en 16 modules numérotés, mesurant 15 cm x 139 cm: pour recréer la tache ouverte, suivez la séquence de pièces indiquée dans les schémas de pose à l'intérieur de l'emballage. Chaque dalle est placée dans 4 boîtes contenant chacune 4 modules, pour un total de 16 modules, correspondant à une surface de 3,3 mètres carrés. / Platten 120 cm x 278 cm, zu Modulen geschnitten, die das gespiegelte Motiv bilden. Die Verlegung ist auch auf gewölbten Oberflächen möglich. Jede Platte wird in 16 nummerierte Module mit Abmessungen 15 cm x 139 cm geschnitten: Um die Spiegeloptik zu erzielen, die auf den der Verpackung beiliegenden Verlegeplänen angegebene Reihenfolge beachten. Jede Platte wird in 4 Schachteln mit je 4 Modulen verpackt. Die insgesamt 16 Module entsprechen einer Oberfläche von 3,3 qm. / Placas 120cmx278cm cortadas en módulos que recomponen la mancha abierta. También permiten la colocación en superficies curvas. Cada losa se corta en 16 módulos numerados que miden 15cmx139cm: para recrear la mancha abierta, se sigue la secuencia de las piezas indicadas en los esquemas de colocación dentro del embalaje. Cada losa se coloca en 4 cajas, cada una de estas contiene 4 módulos por un total de 16 módulos, lo que corresponde a un área de 3,3 metros cuadrados. / Плиты 120 см x278 см разрезаны на модули, которые впоследствии складываются в симметричный зеркальный рисунок. Также возможна укладка на изогнутые поверхности. Каждая плита разрезается на 16 пронумерованных модулей размером 15 см x 139 см: чтобы заново сложить исходный симметричный рисунок, необходимо соблюдать последовательность, указанную на схемах укладки внутри упаковки. Каждая плита помещается в 4 коробки по 4 модуля; всего – 16 модулей, соответствующих площади 3,3 кв.м.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls. The polished glossy surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. - If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. / La finitura lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo , e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. - Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.

Résistance et longévité / Widerstandsfähigkeit und lebensdauer / Resistencia y durabilidad / Стойкость и долговечность

Easy to maintain / Facile da manutenere / Entretien facile / Leicht zu warten / Fácil de mantener / Простота ухода

Porcelain tiles do not require any special maintenance. / Il gres porcellanato non richiede manutenzioni particolari. / Le grès cérame n'exige aucun entretien particulier. / Feinsteinzeug erfordert keine besonderen Wartungsarbeiten. / El gres porcelánico no requiere particulares operaciones de mantenimiento. / Керамогранит не нуждается в особом уходе.

UV Resistant / Resistente ai raggi UV / Résistant aux rayons uv / UV-Strahlenfest / Resistente a los rayos UV / Стойкость к уф-излучению

Porcelain tiles maintain their colors even when exposed to continuous, direct sunlight or in contact with atmospheric agents or smog. / Il gres porcellanato rimane inalterato nei suoi colori anche se esposto alla luce diretta e continua del sole o a contatto con agenti atmosferici o smog. / Les coloris du grès cérame restent inaltérés même s'il est exposé à la lumière directe et continue du soleil ou au contact du smog et des agents atmosphériques. / Die Farben des Feinsteinzeugs bleiben unverändert erhalten, auch wenn es direktem und ständigem Sonnenlicht, der Witterung oder Smog ausgesetzt ist. / El gres porcelánico no se altera con el paso del tiempo, tampoco cambia su color cuando está expuesto a la luz directa y continua del sol o cuando entra en contacto con agentes climatológicos o contaminación. / Керамогранит не выцветает даже при постоянном воздействии солнечного света, атмосферных факторов, смога.

Scratch resistant / Résistant aux rayures / Kratzfestigkeit / Resistente a las rayas / Стойкость к царапинам

Porcelain tiles do not splinter, break or get damaged. / Il gres porcellanato non si scheggia, non si rompe e non si danneggia. / Le grès cérame ne subit ni ébréchures, ni cassures, ni dommages. / Feinsteinzeug splittert nicht, es zerbricht nicht und erleidet keine Beschädigungen. / El gres porcelánico no se desportilla, no se rompe y no se estropea. / Керамогранит не раскалывается, не ломается, не повреждается.

Easy to clean / Facile da pulire / Facile à nettoyer / Leicht zu reinigen / De fácil limpieza / Легкость чистки

Porcelain tiles are easy to clean. / Il gres porcellanato si pulisce facilmente. / Le grès cérame se nettoie facilement. / Feinsteinzeug kann leicht gereinigt werden. / El gres porcelánico se limpia fácilmente. / Керамогранит легко очищается.

Stain resistant / Resistente alle macchie / résistant aux taches / Fleckenfestigkeit / Resistente a las manchas / Стойкость к пятнам

Porcelain tiles are waterproof, no liquid can damage the surface. / Il gres porcellanato è impermeabile e nessun tipo di liquido può danneggiarne la superficie. / Le grès cérame est imperméable et aucun type de liquide ne peut endommager sa surface. / Feinsteinzeug ist wasserundurchlässig und Flüssigkeiten jeglicher Art können seine Oberfläche nicht beschädigen. / El gres porcelánico es impermeable y ningún tipo de líquido puede estropear la superficie. / Керамогранит непроницаем, и никакая жидкость не может повредить его поверхность.

Resistant to chemicals / Resistente agli agenti chimici / Résistant aux agents chimiques / Beständigkeit gegen chemikalien / Resistente a los agentes químicos / Стойкость к химическим веществам

Porcelain tiles do not stain and resist the most aggressive chemical agents. / Il gres porcellanato non si macchia e resiste agli agenti chimici più aggressivi. / Le grès cérame ne se tache pas et résiste aux agents chimiques les plus agressifs. / Feinsteinzeug ist fleckenfest und beständig gegen die aggresivsten Chemikalien. / El gres porcelánico no se mancha y es resistente a los agentes químicos más agresivos. / Даже самые агрессивные химикаты не повреждают керамогранит и не оставляют на нем пятен.

Resistant to acids / Resistente agli acidi / résistant aux acides / Beständigkeit gegen säuren / Resistente a los ácidos / Стойкость к кислотам

Porcelain tiles are resistant to acids found in food and cleaning products. / Il gres porcellanato resiste agli acidi di uso alimentare e domestico. / Le grès cérame résiste aux acides d'usage alimentaire et domestique. / Feinsteinzeug ist beständig gegen Säuren, die in Nahrungsmitteln oder im Haushalt verwendet werden. / El gres porcelánico es resistente a los ácidos de uso alimenticio y doméstico. / Керамогранит устойчив к кислотам, входящим в состав пищевых продуктов и средств бытовой химии.

Resistant to thermal shock / Resistente agli shock termici / résistant aux écarts thermiques / Beständigkeit gegen thermoschocks / Resistente a los choques térmicos / Стойкость к перепадам температур

A porcelain tile floor will not change as a result of sharp temperature fluctuations. / Un pavimento in gres porcellanato non si altera a causa di sbalzi termici. / Un sol en grès cérame ne subit aucune altération suite aux écarts thermiques. / Ein Feinsteinzeug-Fußboden wird von Temperaturschwankungen nicht beeinträchtigt. / El pavimento de gres porcelánico no cambia a causa de cambios bruscos de temperatura. / Напольные покрытия из керамогранита не разрушаются при перепадах температуры.

Waterproof / Resistente all'acqua / Résistant à l'eau / Wasserfestigkeit / Resistente al agua / Стойкость к воде

Porcelain tiles are completely non-porous and therefore are not damaged by water or humidity. / Il gres porcellanato è completamente non poroso e non teme l'acqua e l'umidità. / Le grès cérame est absolument non poreux et ne craint ni l'eau ni l'humidité. / Feinsteinzeug ist absolut porös und fürchtet weder Wasser noch Feuchtigkeit. / El gres porcelánico no es poroso, no le penetra el agua y es resistente a la humedad. / Керамогранит - абсолютно непористый материал, поэтому не боится воды и влаги.

Frost resistant / Resistente al ghiaccio / Résistant au gel /Frostbeständigkeit / Resistente a las heladas / Стойкость к морозам

Porcelain tiles are frost resistant and therefore are not damaged by low temperatures. / Il gres porcellanato è ingelivo e resiste alle temperature più basse. / Le grès cérame est ingélif et résiste aux températures les plus basses. / Feinsteinzeug ist frostbeständig und widersteht den niedrigsten Temperaturen. / El gres porcelánico es resistente a las heladas y a las bajas temperaturas. / Керамогранит способен противостоять морозам и низким температурам.

Santé / Gesundheit / Salud / Здоровье

Zero allergens / Zero allergeni / Zéro allergène / Null allergene / Cero alérgenos / Ноль аллергенов

Porcelain tiles are inhospitable for mites, bacteria, fungi, molds, and other irritants. / Il gres porcellanato è inospitale per acari, batteri, funghi, muffe e altre sostanze irritanti. / Le grès cérame est inhospitalier vis-à-vis des acariens, bactéries, champignons, moisissures et autres substances irritantes. / Feinsteinzeug ist ungastlich für Milben, Bakterien, Pilze, Schimmel und andere Reizstoffe. / El gres porcelánico es inhóspito para los ácaros, bacterias, hongos, mohos y otras sustancias irritantes. / На поверхности керамогранита не накапливаются клещи, бактерии, грибки, плесень и другие болезнетворные микроорганизмы.

Zero VOCs / Zero VOC / Zéro cov / Null VOC / Cero VOC / Ноль летучих органических соединений

Porcelain tiles are intrinsically inorganic and do not emit volatile organic compounds (VOCs). / Le piastrelle in gres porcellanato sono intrinsecamente inorganiche e non emettono composti organici volatili. / Les carreaux en grès cérame sont intrinsèquement inorganiques et ne libèrent aucun composé organique volatil. / Feinsteinzeugfliesen sind von Natur aus anorganisch und setzen keine flüchtigen organischen Verbindungen frei. / Las baldosas de gres porcelánico son intrínsecamente inorgánicas y no emiten compuestos orgánicos volátiles. / Керамогранит является неорганическим материалом и не выделяет летучих органических соединений.

Zero formaldehyde / Zero formaldeide / Zéro formaldéhyde / Null formaldehyd / Cero formaldehído / Ноль формальдегида

Porcelain tiles do not contain formaldehyde. / Il gres porcellanato non contiene formaldeide. / Le grès cérame ne contient pas de formaldéhyde. / Feinsteinzeug ist formaldehydfrei. / El gres porcelánico non contiene formaldehído. / Керамогранит не содержит формальдегид.

Zero PVC / Zero PVC / Zéro pvc / Null PVC / Cero PVC / Ноль пвх

Porcelain tiles contain no PVC, plastics or petroleum derivatives. / Il gres porcellanato è privo di PVC, plastiche o derivati del petrolio. / Le grès cérame est privé de PVC, de matières plastiques et de dérivés du pétrole. / Feinsteinzeug ist frei von PVC, Kunststoffen oder Petroliumderivaten. / El gres porcelánico no contiene PVC, plástico o sustancias que derivan del petróleo. / Керамогранит не содержит ПВХ, пластиковых материалов, нефтепродуктов.

Prevent bacterial growth / Previene la crescita batterica / Il prévient la croissance bactérienne / Vorbeugung gegen das wachstum von bakterien / Previene la proliferación de bacterias / Предотвращение развития бактерий

Porcelain tiles are completely hygienic and inhospitable for bacteria, mites, molds, and fungi. / Il gres porcellanato è assolutamente Il igienico e inospitale per i batteri, acari, muffe e funghi. / Le grès cérame est absolument hygiénique et inhospitalier vis-à-vis des bactéries, acariens, moisissures et champignons. / Feinsteinzeug ist absolut hygienisch und ungastlich für Bakterien, Milben, Schimmel und Pilze. / El gres porcelánico es totalmente higiénico e inhóspito para las bacterias, ácaros, mohos y hongos. / Керамогранит абсолютно гигиеничен и препятствует развитию бактерий, клещей, плесени, грибка.

Sécurité / Sicherheit / Seguridad / Безопасность

Non-slip / Antiscivolo / Antiglisse / Rutschfestigkeit / Antideslizante / Препятствование скольжению

Porcelain tile surfaces can be made with an abrasive surface grit that can increase traction and reduce the risk of slipping. / Le superfici in gres porcellanato possono essere realizzate con una graniglia abrasiva superficiale in grado di aumentare la trazione e ridurre i rischi di scivolamento. / Les surfaces en grès cérame peuvent être réalisées avec un fond superficiel abrasif en mesure d'augmenter la traction et réduire le risque de glissade. / Die Oberflächen des Feinsteinzeugs können mit die Reibung erhöhenden Splitten bereichert werden, welche die Trittsicherheit verbessern und die Gefahr von Ausrutschern mindern. / Las superficies de gres porcelánico se fabrican con una granalla abrasiva superficial en grado de aumentar la tracción y reducir los riesgos de deslizamiento. / На поверхность керамогранитной плитки в процессе изготовления может наноситься специальная абразивная крошка, которая увеличивает сцепление и снижает риск скольжения.

Fire resistant / Resistente al fuoco / Résistant au feu / Feuerfestigkeit / Resistente al fuego / Огнестойкость

Porcelain tiles are not flammable, reduce the spread of flames, do not burn, and do not emit toxic fumes. / Le piastrelle in gres porcellanato non sono infiammabili, riducono la propagazione della fiamma, non bruciano e non emettono fumi tossici. / Les carreaux en grès cérame sont ininflammables, ils réduisent la propagation de la flamme, ne brûlent pas et de libèrent aucune fumée toxique. / Feinsteinzfliesen sind nicht entflammbar, sie mindern die Flammenausbreitung, brennen nicht und setzen keinen toxischen Rauch frei. / Las baldosas de gres porcelánico no son inflamables, reducen la propagación de las llamas, son resistentes al fuego y no emiten humos tóxicos. / Керамогранитная плитка не воспламеняется, ограничивает распространение огня, не горит, не выделяет токсичного дыма.

Heat resistant / Resistente al calore / Résistant à la chaleur / Wärmebeständigkeit / Resistente al calor / Термостойкость

Porcelain tiles do not change shape at high temperatures. / Il gres porcellanato non si altera alle alte temperature. / Le grès ne subit aucune altération aux températures élevées. / Feinsteinzeug wird von hohen Temperaturen nicht verändert. / El gres porcelánico no se altera con las altas temperaturas. / Керамогранит не повреждается под действием высоких температур.

Environnement / Umwelt / Ambiente / Окружающая среда

Energy efficiency / Efficienza energetica / Efficacité énergétique / Energieeffizienz / Eficiencia energética / Энергоэффективность

The high thermal inertia of porcelain tiles moderates the changes in temperature of the rooms, favoring energy savings. / L'elevata inerzia termica del gres porcellanato modera gli sbalzi di temperatura degli ambienti, favorendo il risparmio energetico. / La haute inertie thermique du grès cérame modère les écarts de température à l'intérieur des pièces, en favorisant ainsi les économies d'énergie. / Die hohe Wärmeträgheit des Feinsteinzeugs reduziert starke Temperaturschwankungen in den Räumen und ermöglicht demzufolge eine Energieeinsparung. / La elevada inercia térmica del gres porcelánico modera los cambios de temperatura de los ambientes, favoreciendo el ahorro energético. / Высокая тепловая инерция керамогранита сглаживает колебания температуры в помещениях, что позволяет значительно экономить энергию.

Ecological / Ecologico / Écologique / Ökologisch / Ecológico / Экологичность

Porcelain tiles have a low environmental impact at all stages of their production, from the raw materials to disposal and recycling. / Il gres porcellanato ha un basso impatto ambientale in tutte le fasi del suo processo industriale, dalle materie prime fino allo smaltimento e al riciclo. / Le grès cérame a un faible impact sur l'environnement durant toutes les phases de son processus industriel, à partir des matières premières jusqu'à l'élimination et au recyclage. / In allen Phasen seines Herstellungsprozesses verursacht das Feinsteinzeug eine geringfügige Umweltbelastung, angefangen beim Abbau der Rohstoffe bis zur Entsorgung und zum Recykling. / El gres porcelánico tiene un bajo impacto ambiental en todas las fases de su proceso industrial, dese las materias primas hasta la eliminación y el reciclaje. / Керамогранит имеет низкое воздействие на окружающую среду на всем протяжении жизненного цикла: от добычи сырья до переработки и утилизации.

Recycling and re-use / Riciclo e riutilizzo / Recyclage et réutilisation / Recykling und wiederverwertung / Reciclaje y reutilización / Переработка и утилизация

Porcelain tiles are made with recycled materials, last a long time, and can be re-used because they retain their original appearance. / Il gres porcellanato è realizzato con materiali di riciclo, dura a lungo e mantenendo l'aspetto originario può essere riciclato. / Le grès cérame est fabriqué avec des matériaux de recyclage, il dure longtemps en maintenant son aspect d'origine et il est recyclable. / Feinsteinzeug wird aus Recycling-Material hergestellt, hat eine lange Lebensdauer, erhält sein ursprüngliches Aussehen und kann recycelt werden. / El gres porcelánico está fabricado con materiales de reciclado, es duradero al paso del tiempo y se puede reciclar manteniendo el aspecto original. / Керамогранит изготавливается из переработанных материалов, долговечен, сохраняет во времени свои первоначальные характеристики и поддается переработке.

Ideal for floor heating systems / Ideale per sistemi di riscaldamento a pavimento / Idéal pour les systèmes de chauffage au sol / Ideal für fussbodenheizsysteme / Indicado para los sistemas de calefacción por suelo radiante / Идеальное решение для теплого пола

Porcelain tiles can be effectively combined with floor heating systems. / Il gres porcellanato può essere abbinato in modo efficace a sistemi di riscaldamento a pavimento. / Le grès cérame peut être associé de manière efficace à des systèmes de chauffage au sol. / Feinsteinzeug ist optimal leistungsfähig in Verbindung mit Fußbodenheizsystemen. / El gres porcelánico se puede utilizar eficazmente con sistemas de calefacción por suelo radiante. / Керамогранит отлично подходит для облицовки полов с подогревом.

WALL TILES ADDITIONAL BENEFITS / PROPRIETÀ CERAMICA DA RIVESTIMENTO / PROPRIÉTÉS DE LA CÉRAMIQUE POUR REVÊTEMENTS / EIGENSCHAFTEN DER WANDFLIESEN / CARACTERÍSTICAS Y BENEFICIOS DE LA CERÁMICA PARA REVESTIMIENTO / СВОЙСТВА КЕРАМИЧЕСКОЙ ПЛИТКИ

While porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability, the light weight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs. / Mentre il gres porcellanato è ideale per l'uso a pavimento, per la sua durezza e l'estrema resistenza, le caratteristiche di leggerezza e lavorabilità del rivestimento in pasta bianca lo rendono ideale per l'uso a parete: i tagli e i fori saranno eseguiti facilmente e velocemente, riducendo i tempi e i costi di posa. / Tandis que le grès cérame est idéal pour l'usage au sol en raison de sa dureté et de son extrême résistance, les caractéristiques de légèreté et d'usinabilité des carreaux en pâte blanche en font l'idéal pour l'usage mural : les découpes et les perçages s'effectuent facilement et rapidement, en réduisant les temps et les coûts de la pose. / Während das Feinsteinzeug dank seiner Härte und extremen Widerstandsfähigkeit ideal für die Fußbodenverlegung ist, machen die Leichtheit und die Verarbeitungsfreundlichkeit der weißscherbigen Wandbeläge diese ideal für Wandverlegungen: Schnitte und Bohrungen werden leicht und schnell ausgeführt, wodurch die Verlegungszeiten und -kosten sich verringern. / Si bien el gres porcelánico es indicado para su uso en pavimentos, por su dureza y máxima resistencia, el revestimiento de pasta blanca es indicado para su uso en paredes por sus propiedades de ligereza y facilidad de trabajo: se consigue una mejor facilidad y rapidez de cortes y perforación, reduciendo los tiempos y costes de colocación. / Если керамогранит, в силу своей твердости и стойкости, особенно рекомендован для полов, то такие характеристики, как небольшой вес и высокая обрабатываемость, делают плитку из белой глины идеальной для монтажа на стену: легкость и быстрота резки и сверления снижают затраты времени и денег на укладку.

Ease of installation / Facilità di lavorazione / Facilité de travail / Verarbeitungsfreundlichkeit / Fácil de trabajar / Легкость обработки

Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles. / Tagli, fori, bisellature sono facili da realizzare e rendono più veloce la posa dei rivestimenti in pasta bianca /. Les découpes, les perçages et les biseautages sont faciles à réaliser et rendent plus rapide la pose des carrelages en pâte blanche. / Schnitte, Bohrungen, Abkantungen sind leicht zu verwirklichen, daher können weißscherbige Keramikbeläge überall schneller verlegt werden. / Cortes, perforaciones y biselados se realizan fácilmente y la instalación de los revestimientos de pasta blanca se hace con rapidez. / Легкость резки, сверления, скашивания граней ускоряет процесс укладки настенной плитки из белой глины.

Extremely easy to clean / Estrema facilità di pulizia / Nettoyage extrêmement facile / Extrem einfache Reinigung / Máxima facilidad de limpieza / Предельная простота ухода

White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent / I rivestimenti ceramici in pasta bianca si puliscono con un semplice passaggio di acqua calda o detergente neutro. / Les carrelages céramiques en pâte blanche se nettoient simplement avec de l'eau chaude ou avec un détergent neutre. / Die weißscherbigen Keramikbeläge werden einfach durch Abwischen mit warmem Wasser oder einem neutralen Putzmittel gereinigt. / Los revestimientos cerámicos de pasta blanca se limpian pasando un trapo húmedo con agua caliente o detergente neutro. / Настенная плитка из белой глины очищается теплой водой или нейтральным моющим средством.

Green Project

Sustainability / Sostenibilità

In the environmental and economic sciences, sustainability is defined as the condition of development capable of ensuring the satisfaction of the needs of the present generation without compromising the ability of future generations to realize their own.Several international certifications guarantee that the Atlas Concorde products meet the criteria of sustainable construction, attesting to their low impact on the ecosystem, compliance with declared standards and attention to comfort.

Nelle scienze ambientali ed economiche, la sostenibilità è definita come condizione di uno sviluppo in grado di assicurare il soddisfacimento dei bisogni della generazione presente senza compromettere la possibilità delle generazioni future di realizzare i propri. Diverse certificazioni internazionali garantiscono che i prodotti Atlas Concorde rispondono ai criteri del costruire sostenibile, attestandone il basso impatto sull'ecosistema, la conformità agli standard dichiarati e l'attenzione al comfort abitativo.

Certifications / Certificazioni

ISO 9001

In 1995 Atlas Concorde obtained ISO 9001 quality certification for its products. It is an international recognition referring to the company's entire quality system, from the receipt of raw materials to their transformation, from the distribution of the product to their placement on the market.

Sin dal 1995 Atlas Concorde ha ottenuto per i propri prodotti la certificazione di qualità ISO 9001. Si tratta di un riconoscimento internazionale riferito all'intero sistema di qualità aziendale, dall'ingresso delle materie prime alla loro trasformazione, dalla distribuzione del prodotto alla sua immissione sul mercato.

LEED V4

All Atlas Concorde porcelain floor and white body wall tiles can be used in projects that follow the guidelines of the GREEN BUILDING COUNCIL, which promotes the independent certification system LEED BD&C v4 (Leadership in Energy and Environmental Design, Building Design & Construction), whose parameters establish precise criteria for the design and construction of buildings that are healthy, energy efficient and with low environmental impact.
All our products in porcelain stoneware and in white clay can therefore contribute to obtaining the LEED V4 rating of buildings, in relation to different areas: Sustainable Sites, Materials and Resources, Internal Environmental Quality.

Tutti i prodotti in gres porcellanato e in pasta bianca Atlas Concorde possono essere utilizzati in progetti che seguono le linee guida del GREEN BUILDING COUNCIL, che promuove il sistema di certificazione indipendente LEED BD&C v4 (Leadership in Energy and Environmental Design, Building Design & Construction), i cui parametri stabiliscono precisi criteri di progettazione e realizzazione di edifici salubri, energeticamente efficienti e a impatto ambientale contenuto. Tutti i nostri prodotti in gres porcellanato e in pasta bianca possono quindi contribuire all'ottenimento del rating LEED V4 degli edifici, relativamente a diverse aree tematiche: Siti Sostenibili, Materiali e Risorse, Qualità ambientale Interna.

EPD

Atlas Concorde also has an EPD declaration, which attests to the environmental sustainability of its products. The EPD (Environmental Product Declaration) also assesses the life cycle of a product, from extraction to production, transport, installation, maintenance, and cleaning. Atlas Concorde's EPD declaration was certified by the independent certifying body EPD ITALY.

Atlas Concorde dispone inoltre di una dichiarazione EPD, che attesta la sostenibilità ambientale dei prodotti. Anche la EPD (Environmental Product Declaration) valuta il ciclo di vita di un prodotto, dall'estrazione all'utilizzo passando per la produzione, il trasporto, l'installazione, la manutenzione e la pulizia. La dichiarazione EPD di Atlas Concorde è stata certificata dall'ente di certificazione indipendente EPD ITALY.

PEF

The environmental footprint of products (PEF, Product Environmental Footprint, according to Recommendation 2013/179/EU) is a measurement that, based on various criteria, indicates the environmental performance of a product or service over its lifetime, taking into account supply chain activities: from the extraction of raw materials, to the production, use, and end of life of the product. Atlas Concorde has a verified PEF. Atlas Concorde has a verified PEF. Atlas Concorde's PEF was verified by the DNV-GL certifying body.

L'impronta ambientale dei prodotti (PEF, Product Environmental Footprint, secondo la Raccomandazione 2013/179/UE) è una misura che, sulla base di vari criteri, indica le prestazioni ambientali di un prodotto o servizio nel corso del proprio ciclo di vita, tenendo conto delle attività della catena di approvvigionamento: dall'estrazione di materie prime, alla produzione, all'uso e fine vita del prodotto. Atlas Concorde dispone di una PEF verificata. La PEF di Atlas Concorde è verificata dall'organismo di certificazione DNV-GL.

FDES

Atlas Concorde has also drafted an FDES environmental declaration (Fiche de déclaration environnementale et sanitaire), this also having the purpose of transparently disclosing the product's impact, covering each phase from product extraction to production and finally laying and use.

Atlas Concorde ha realizzato inoltre la dichiarazione ambientale FDES (Fiche de déclaration environnementale et sanitaire), anch'essa con lo scopo di rendicontare in modo trasparente l'impatto del prodotto, a partire dalla fase di estrazione del prodotto, passando dalla fase di produzione, fino alla posa ed all'utilizzo.

HPD

Atlas Concorde has a HPD (Health Product Declaration) declaration, a complete report on the health characteristics of the finished product, compiled according to the HPD standard.

Atlas Concorde dispone della dichiarazione HPD (Health Product Declaration), un report completo sulle caratteristiche di salubrità del prodotto finito, compilato secondo lo standard HPD.

CAM/ISO 14021

An environmental declaration according to the ISO 14021 international standard, observance of Minimum Environmental Criteria, and the adoption of sustainability policies demonstrate Atlas Concorde's attention to environmental issues and allow the inclusion of its products in Green Public Tenders.

La dichiarazione ambientale secondo lo standard internazionale ISO 14021 ed il rispetto dei requisiti dei Criteri Ambientali Minimi permette ad Atlas Concorde, grazie all'adozione di politiche di sostenibilità, di dimostrare l'attenzione alle problematiche ambientali e proporre l'inserimento dei propri prodotti negli Appalti Pubblici Verdi.

For further details, please refer to / Per ulteriori dettagli, fare riferimento a: **atlasconcorde.com**

V-SHADE, colour-shading / Stonalizzazione V-SHADE

The V-Shade classification indicates the colour shading level of a product, that is to say the chromatic and/or surface variation among tiles of the same collection. A strong colour shading is typical of ceramic collections that reproduce natural stones and marble. A moderate colour shading is typical of ceramic collections for which a homogeneous chromatic surface is an aesthetic feature of contemporary design.

La classification VShade indique le niveau de gradation du produit, c'est-à-dire de variation chromatique et/ou superficielle entre des dalles d'une même collection. Une forte variation est conseillée lorsque l'on utilise une collection qui rappelle des matériaux naturels comme la pierre et le marbre. Des variations de tons plus modérées caractérisent des collections où l'homogénéité chromatique superficielle est une qualité esthétique ou véritable indice de design contemporain.

La clasificación V-Shade indica el nivel de variación de tono del producto, o de variación cromática y/o superficial que existe entre las baldosas de una misma colección. Una variación de tono significativa es indicada en las colecciones que evocan materiales naturales como la piedra y el mármol. Variaciones de tono más moderadas caracterizan colecciones en que la homogeneidad cromática superficial es un valor estético índice de un diseño contemporáneo.

La classificazione VShade indica il livello di stonalizzazione del prodotto, ovvero di variazione cromatica e/o superficiale che intercorre tra le piastrelle di una stessa collezione. Una forte stonalizzazione è indicata nelle collezioni che richiamano materiali naturali come la pietra e il marmo. Stonalizzazioni più moderate caratterizzano collezioni in cui l'omogeneità cromatica superficiale è un valore estetico indice di un design contemporaneo.

Die Klassifizierung V-Shade gibt das Niveau des Farbverlaufs des Produktes oder die Abweichung des Farbtons und/oder Oberfläche unter den Fliesen der gleichen Kollektion an. Starke Farbunterschiede zeigen sich vor allem in Kollektionen, die natürliche Materialien wie Stein und Marmor nachempfinden. Weniger starke Farbunterschiede kennzeichnen Kollektionen deren Farbhomogenität der Oberflächen ein ästhetischer Wert des zeitgenössischen Designs darstellen.

Классификация V-Shade указывает на уровень цветовой или фактурной неоднородности плиток, т.е. на отличия по цвету или по фактуре между плитками одной коллекции. Высокая цветовая неоднородность присутствует на плитках, имитирующих природные материалы, например, камень или мрамор. Умеренная неоднородность цвета наблюдается на плитках, предназначенных для оформления интерьеров или экстерьеров в современном стиле.

(*) **The permissible deviation, in % or mm, of the average size for each tile (2 or 4 sides) from work size (WS).**
Deviazione ammissibile, in % oppure mm, della dimensione media di ogni piastrella (2 oppure 4 lati) dalla dimensione di fabbricazione (WS).

(**) **The permissible deviation, in % or mm, of the average thickness for each tile from the work size thickness (WS).**
Deviazione ammissibile, in % oppure mm, dello spessore medio di ogni piastrella dallo spessore riportato nella dimensione di fabbricazione (WS).

(***) **The maximum permissible deviation from straightness, in % or mm, related to the corresponding work sizes (WS).**
Deviazione massima ammissibile di rettilineità, in % oppure mm, in rapporto alle dimensione di fabbricazione (WS) corrispondenti.i.

(****) **The maximum permissible deviation from rectangularity, in % or mm, related to the corresponding work sizes (WS).**
Deviazione massima ammissibile di ortogonalità, in % oppure mm, in rapporto alle dimensione di fabbricazione (WS) corrispondenti.

c.c. **The maximum permissible deviation from centre curvature, in % or mm, related to diagonal calculated from the work sizes (WS).**
Deviazione massima ammissibile della curvatura del centro, in % oppure mm, in rapporto alla diagonale calcolata secondo le dimensioni di fabbricazione (WS).

e.c. **The maximum permissible deviation from edge curvature, in % or mm, related to the corresponding work sizes (WS).**
Deviazione massima ammissibile della curvatura dello spigolo, in % oppure mm, in rapporto alle dimensioni di fabbricazione (WS) corrispondenti.

w. **The maximum permissible deviation from warpage, in % or mm, related to diagonal calculated from the work sizes (WS).**
Deviazione massima ammissibile dello svergolamento, in % oppure mm, in rapporto alla diagonale calcolata secondo le dimensioni di fabbricazione (WS).

(1) **Determination of slip resistance of pedestrian surfaces; it does not cover sports surfaces and road surfaces for vehicles (skid resistance).**
Determinazione della resistenza allo scivolamento delle superfici pedonabili; non si applica alle pavimentazioni sportive ed alle pavimentazioni stradali veicolari.

(2). **Anti-slip performance is guaranteed at the time of delivery of the product.**
Le prestazioni anti-slip vengono garantite al momento della consegna del prodotto.

(3). **However, tiles with a DCOF of 0.42 or greater are not necessarily suitable for all projects „The specifier shall determine tiles appropriate for specific project conditions, considering by way of example, but not in limitation, type of use, traffic, expected contaminants, expected maintenance, expected wear, and manufacturers' guidelines and recommendations."**

(4). **For further details, please refer to outdoor design general catalogue.** Per maggiori informazioni riferirsi al catalogo generale Outdoor Design.

(5). **Only for products with 20 mm thickness.** Solo per prodotti a 20mm di spessore.

Destinations of use / Destinazione d'uso

PORCELAIN TILES / GRES PORCELLANATO
Grès cérame / Feinsteinzeug
Gres porcelánico / Керамогранит

H HEAVY TRAFFIC CALPESTIO PESANTE

HEAVY COMMERCIAL
Malls, airports, places of worship, schools, museums, squares, hospitals, hotels - foyers, undergrounds, train stations, etc.
COMMERCIALI PESANTI
Mall, aeroporti, luoghi di culto, scuole, musei, piazze, ospedali, hotel - hall di ingresso, metropolitane, stazioni ferroviarie, ecc...

COMMERCIALI PESANTI
Centres commerciaux, aéroports, lieux de culte, écoles, musées, places, hôpitaux, hôtels - halls d'entrée, stations de métro, gares, etc...
STARK BEANSPRUCHTE GEWERBEBEREICHE
Enkaufszentren, Flughäfen, Kultstätten, Schulen, Museen, Plätze, Krankenhäuser, Hotels - Eingangshallen, U-Bahn-Stationen, Bahnhöfe etc.
COMERCIALES PESADOS
Centros comerciales, aeropuertos, lugares de culto, colegios, museos, plazas, hospitales, hoteles - hall de entrada, metros, estaciones de trenes, etc. ...
ОБЩЕСТВЕННЫЕ ОБЪЕКТЫ С ВЫСОКОЙ ПОСЕЩАЕМОСТЬЮ
Торговые центры, аэропорты, церкви, школы, музеи, площади, больницы, входные холлы отелей, метро, вокзалы и т.п.

M MEDIUM TRAFFIC CALPESTIO MEDIO

MEDIUM COMMERCIAL
Restaurants, offices, shops, public restrooms, public offices, hotels except for foyers, business lounges, etc. with the exception of mandatory passageways and areas subject to the transit of trolleys with hard wheels or highly concentrated loads.
COMMERCIALI MEDI
Ristoranti, uffici, negozi, bagni pubblici, uffici pubblici, hotel - ad esclusione delle hall di ingresso, business lounge, etc. a esclusione di passaggi obbligati e zone soggetto a transito di carrelli con ruote dure ovvero elevati carichi concentrati.

BÂTIMENT COMMERCIAL MOYEN
Restaurants, bureaux, boutiques, sanitaires publics, bureaux publics, hôtels - à l'exception des halls d'entrée, business lounges, etc..., ainsi que des points de passage obligés et des zones soumises au passage de chariots à roues dures ou de charges ponctuelles lourdes.
GEWERBEBEREICHE MIT MITTLERER BEANSPRUCHUNG
Restaurants, Büros, Geschäfte, öffentliche Toiletten, öffentliche Ämter, Hotels mit Ausnahme der Eingangshallen, Business Lounges etc., unter Ausschluss obligatorischer Passagen sowie mit harten Rädern befahrener bzw. hohen, konzentrierten Lasten ausgesetzter Bereiche.
COMERCIALES MEDIOS
Restaurantes, oficinas, tiendas, baños públicos, oficinas públicas, hoteles - excluidos los pasillos de entradas, salas de negocios, etc. excluidos los pasos obligatorios y áreas sujetas al tránsito de carretillas con ruedas duras o cargas altamente concentradas.
ОБЩЕСТВЕННЫЕ ОБЪЕКТЫ СО СРЕДНЕЙ ПОСЕЩАЕМОСТЬЮ
Рестораны, офисы, магазины, общественные туалеты, общественные учреждения, отели (кроме входных холлов), бизнес-залы и т.п., за исключением общих проходов и мест, где предвидятся сосредоточенные нагрузки или перемещение тележек на жестких колесах.

L LIGHT TRAFFIC CALPESTIO LEGGERO

RESIDENTIAL
Bedrooms, living rooms, studies, private kitchens, private bathrooms, etc.
RESIDENZIALI
Camere da letto, soggiorni, studi, cucine private, bagni privati...

BÂTIMENT D'HABITATION
Chambres de nuit, salons, pièces à usage professionnel, cuisines, salles de bains...
WOHNUNGSBAU
Schlafzimmer, Wohnzimmer, Arbeitszimmer, private Küchen und Bäder...
RESIDENCIALES
Dormitorios, salones, salas de estar, cocinas particulares, cuartos de baño particulares...
ЖИЛЫЕ ПОМЕЩЕНИЯ
Спальни, гостиные, рабочие кабинеты, домашние кухни, домашние ванные комнаты и т.п.

* **Polished and silk finishes are recommended for low-stress residential or commercial floors where anti-slip performance is not required. The surface's shine and superior ease of cleaning are the result of in-depth studies and extensive technical research aimed at ensuring its durability over time. If the product is in direct contact with the outside, use moisture and dirt absorption devices to prevent scratches.** / Le finiture lappata e silk sono indicate per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. La lucentezza e l'elevata facilità di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi. / Les finitions rodée et soyeuse conviennent aux sols résidentiels ou commerciaux à faibles contraintes, où la performance antidérapante n'est pas requise. La brillance et la grande facilité de nettoyage de la surface sont le résultat d'études approfondies et de recherches techniques précises visant à assurer sa persistance dans le temps. Si le produit est en contact direct avec l'extérieur, prévoyez des dispositifs d'absorption de l'humidité et de la saleté pour éviter la formation de rayures. / Die Oberflächenversionen Geläppt und Silk eignen sich für Bodenbeläge in Wohnbereichen bzw. in gering beanspruchten Gewerberäumen, wenn keine Rutschfestigkeit erforderlich ist. Der Glanz und die einfache Reinigung der Oberfläche sind das Resultat eingehender technischer Studien, mit denen die langfristige Beständigkeit sichergestellt wurde. Kommt das Produkt direkt mit der externen Umgebung in Kontakt, so sind Feuchtigkeit und Schmutz mit geeigneten Mitteln aufzunehmen, um Kratzer zu vermeiden. / Los acabados lapeados y silk son adecuados para pavimentos residenciales y comerciales con poco tráfico, donde no se requiere un efecto antideslizante. El brillo y la gran facilidad de limpieza de la superficie son el resultado de profundos estudios e investigaciones técnicas precisas para asegurar su persistencia en el tiempo. Si el producto está en contacto directo con el exterior, proporcionar dispositivos de absorción de humedad y suciedad para evitar arañazos. / Лаппатированная поверхность и поверхность Silk рекомендованы для полов жилых и коммерческих помещений с невысокой интенсивностью эксплуатации, в которых от покрытий не требуется характеристик сопротивления скольжению. Блеск и легкая очищаемость являются результатом глубоких исследований, направленных на создание долговечного материала. Если плитка находится в непосредственном контакте с наружной средой, необходимо предусмотреть устройства поглощения влаги и грязи во избежание образования царапин.

Porcelain tiles for outdoors / Gres porcellanato per esterni

PORCELAIN TILES / GRES PORCELLANATO
Grès cérame / Feinsteinzeug
Gres porcelánico / Керамогранит

INTENDED USES FOR OUTDOORS / DESTINAZIONE D'USO PER ESTERNI
Destination à usage extérieur / zweckbestimmungen für Aussenbereiche / uso previsto para exteriores / назначение для наружных пространств

INDUSTRIAL AND/OR COMMERCIAL AREAS FOR VEHICLES
Squares, public car parks, filling stations, paving for forklift trucks, pallet jacks, trailer trucks, buses, industrial platforms, etc.
INSTALLATION METHOD
Laying with adhesives using the "double buttering" method.
PRODUCT PORCELAIN TILES [1]
Porcelain tile with a thickness greater than or equal to 20 mm with anti-slip finish [1].

AREE INDUSTRIALI E/O COMMERCIALI CARRABILI
Piazze, parcheggi pubblici, stazioni di rifornimento, pavimentazioni con transito di carrelli elevatori, transpallet, autoarticolati, autobus, piattaforme industriali, ecc...
TIPO DI POSA
Posa con adesivi con il metodo della "doppia spalmatura".
PRODOTTO GRES PORCELLANATO [1]
Gres porcellanato a spessore superiore o uguale a 20mm con finitura anti-scivolo [1].

ZONES INDUSTRIELLES ET/OU ZONES COMMERCIALES AVEC PASSAGE DE VÉHICULES
Places, parkings publics, stations-services, sols avec passage de chariots élévateurs, transpalettes, véhicules articulés, autobus, plateformes industrielles, etc...
TYPE DE POSE
Pose à l'aide de colles par la méthode du "double encollage".
PRODUIT GRÈS CÉRAME [1]
Grès cérame d'épaisseur supérieure ou égale à 20 mm à finition anti-glisse[1].

BEFAHRBARE INDUSTRIE- UND/ODER GEWERBEFLÄCHEN
Plätze, öffentliche Parkplätze, Tankstellen, von Gabelstaplern, Handgabelhubwagen, Sattelschleppern, Bussen befahrene Böden, Industrieplattformen etc.
VERLEGESYSTEM
Verlegung mit beidseitig aufgebrachtem Kleber (Buttering-Floating-Verfahren)
PRODUKT FEINSTEINZEUG [1]
Feinsteinzeug mit Stärke gleich oder über 20 mm und rutschfester Oberfläche[1].

ÁREAS INDUSTRIALES Y/O COMERCIALES TRAFICABLES
Centros comerciales, aeropuertos, lugares de culto, colegios, museos, plazas, hospitales, hoteles - hall de entrada, metros, estaciones de trenes, etc. ...
TIPO DE COLOCACIÓN
Colocación con materiales de agarre según el método de "doble encolado".
PRODUCTO GRES PORCELÁNICO [1]
Gres porcelánico de grosor mayor o igual a 20mm con acabado antideslizante[1].

ПРОМЫШЛЕННЫЕ И (ИЛИ) КОММЕРЧЕСКИЕ ПРОЕЗЖИЕ УЧАСТКИ
Площади, общественные парковки, заправочные станции, покрытия для проезда погрузчиков, гидравлических тележек, фур, автобусов, промышленные платформы и т.д.
ТИП УКЛАДКИ
Клеевая укладка с нанесением клея на монтажную сторону плитки и на облицовываемое основание
ИЗДЕЛИЕ КЕРАМОГРАНИТ [1]
Керамогранит толщиной 20 мм или больше с противоскользящей поверхностью[1].

RESIDENTIAL AREAS FOR VEHICLES
Outdoor courtyards, private homes, apartment complex parking lots (garages), etc. Pavements used only by cars.
INSTALLATION METHOD
Laying with adhesives using the "double buttering" method.
PRODUCT PORCELAIN TILES [1]
Porcelain tiles with anti-slip finish [1].

AREE RESIDENZIALI CARRABILI
Cortili esterni abitazioni private, parcheggi condominiali (garage interni), ecc... Pavimentazioni a transito esclusivo di autovetture.
TIPO DI POSA
Posa con adesivi con il metodo della "doppia spalmatura".
PRODOTTO GRES PORCELLANATO [1]
Gres porcellanato con finitura anti-scivolo [1].

ZONES RÉSIDENTIELLES AVEC PASSAGE DE VÉHICULES
Cours externes d'habitations individuelles, parkings d'immeuble (garages intérieurs), etc... Sols pour passage exclusivement de voitures.
TYPE DE POSE
Pose à l'aide de colles par la méthode du "double encollage".
PRODUIT GRÈS CÉRAME [1]
Grès cérame à finition anti-glisse [1].

BEFAHRBARE BEREICHE IM WOHNUNGSBAU
Außenhöfe und Parkplätze von Wohnhäusern, (Tiefgaragen) etc.
Ausschließlich von Pkws befahrene Bodenbeläge.
VERLEGESYSTEM
Verlegung mit beidseitig aufgebrachtem Kleber (Buttering-Floating-Verfahren)
PRODUKT FEINSTEINZEUG [1]
Feinsteinzeug mit rutschfester Oberfläche[1].

ÁREAS RESIDENCIALES TRAFICABLES
Patios exteriores de viviendas particulares, aparcamientos de bloques multifamiliares (garajes interiores), etc... Pavimentos de tráfico exclusivo de automóviles.
TIPO DE COLOCACIÓN
Colocación con materiales de agarre según el método de "doble encolado".
PRODUCTO GRES PORCELÁNICO [1]
Gres porcelánico con acabado antideslizante [1].

ПРОЕЗЖИЕ УЧАСТКИ ПРИ ЖИЛЫХ ОБЪЕКТАХ
Дворы частных домов, парковки многоквартирных домов (внутренние гаражи) и т.п. Покрытия, предназначенные для проезда только легковых автомобилей.
ТИП УКЛАДКИ
Клеевая укладка с нанесением клея на монтажную сторону плитки и на облицовываемое основание
ИЗДЕЛИЕ КЕРАМОГРАНИТ [1]
Керамогранит с противоскользящей поверхностью[1].

AREAS FOR PEDESTRIANS ONLY
Patios, gardens and walkways, terraces, balconies, urban pedestrian areas, etc.
INSTALLATION METHOD
"Dry" laying (on grass, sand, and gravel) and raised installation
PRODUCT PORCELAIN TILES [1]
Porcelain tile with a thickness greater than or equal to 20 mm with anti-slip finish [1].
–
INSTALLATION METHOD
Laying with adhesives using the "double buttering" method.
PRODUCT PORCELAIN TILES [1]
Porcelain tiles with anti-slip finish[1].

AREE SOLO PEDONABILI
Patii, giardini e camminamenti, terrazze, balconi, aree urbane pedonali, ecc...
TIPO DI POSA
Posa "a secco" (su erba, sabbia e ghiaia) e posa sopraelevata.
PRODOTTO GRES PORCELLANATO [1]
Gres porcellanato a spessore superiore o uguale a 20mm con finitura anti-scivolo [1].
–
TIPO DI POSA
Posa con adesivi con il metodo della "doppia spalmatura".
PRODOTTO GRES PORCELLANATO [1]
Gres porcellanato con finitura anti-scivolo [1].

ZONES UNIQUEMENT PIÉTONNES
Patios, jardins et allées, terrasses, balcons, zones urbaines piétonnes, etc...
TYPE DE POSE
Pose "à sec" (sur herbe, sable ou graviers) et pose surélevée.
PRODUIT GRÈS CÉRAME [1]
Grès cérame d'épaisseur supérieure ou égale à 20 mm à finition anti-glisse[1].
–
TYPE DE POSE
Pose à l'aide de colles par la méthode du "double encollage".
PRODUIT GRÈS CÉRAME [1]
Grès cérame à finition anti-glisse [1].

REINE FUSSGÄNGERBEREICHE
Innenhöfe, Gärten und Gehwege, Terrassen, Balkone, städtische Fußgängerzonen etc.
VERLEGESYSTEM
„Trockenverlegung" (auf Gras, Sand und Kies) und erhöhte Verlegung.
PRODUKT FEINSTEINZEUG [1]
Feinsteinzeug mit Stärke gleich oder über 20 mm und rutschfester Oberfläche[1].
–
VERLEGESYSTEM
Verlegung mit beidseitig aufgebrachtem Kleber (Buttering-Floating-Verfahren)
PRODUKT FEINSTEINZEUG [1]
Feinsteinzeug mit rutschfester Oberfläche[1].

ÁREAS SOLO PEATONALES
Patios, jardines y terraplenes, terrazas, balcones, áreas urbanas peatonales, etc.
TIPO DE COLOCACIÓN
Colocación "en seco" (sobre césped, arena y grava) y colocación elevada.
PRODUCTO GRES PORCELÁNICO [1]
Gres porcelánico de grosor mayor o igual a 20mm con acabado antideslizante[1].
–
TIPO DE COLOCACIÓN
Colocación con material de agarre según el método de "doble encolado".
PRODUCTO GRES PORCELÁNICO [1]
Gres porcelánico con acabado antideslizante [1].

ПЕШЕХОДНЫЕ УЧАСТКИ
Патио, сады, садовые дорожки, террасы, балконы, городские пешеходные площади и т.п.
ТИП УКЛАДКИ
Сухая бесклеевая укладка (на траву, песок, гравий) и укладка на опоры
ИЗДЕЛИЕ КЕРАМОГРАНИТ [1]
Керамогранит толщиной 20 мм или больше с противоскользящей поверхностью [1,]
–
ТИП УКЛАДКИ
Клеевая укладка с нанесением клея на монтажную сторону плитки и на облицовываемое основание.
ИЗДЕЛИЕ КЕРАМОГРАНИТ [1]
Керамогранит с противоскользящей поверхностью[1].

POOL EDGES
INSTALLATION METHOD
Laying with adhesives using the "double buttering" method.
PRODUCT Porcelain tiles [1]
Porcelain tiles with anti-slip finish [1].

BORDI PISCINA
TIPO DI POSA
Posa con adesivi con il metodo della "doppia spalmatura".
PRODOTTO GRES PORCELLANATO [1]
Gres porcellanato con finitura anti-scivolo [1].

BORDS DE PISCINE
TYPE DE POSE
Pose à l'aide de colles par la méthode du "double encollage".
PRODUIT GRÈS CÉRAME [1]
Grès cérame à finition anti-glisse [1].

SCHWIMMBECKENRÄNDER
VERLEGESYSTEM
Verlegung mit beidseitig aufgebrachtem Kleber (Buttering-Floating-Verfahren)
PRODUKT FEINSTEINZEUG [1]
Feinsteinzeug mit rutschfester Oberfläche[1].

BORDES PISCINA
TIPO DE COLOCACIÓN
Colocación con materiales de agarre según el método de "doble encolado".
PRODUCTO GRES PORCELÁNICO [1]
Gres porcelánico con acabado antideslizante [1].

КРАЯ БАССЕЙНОВ
ТИП УКЛАДКИ
Клеевая укладка с нанесением клея на монтажную сторону плитки и на облицовываемое основание
ИЗДЕЛИЕ КЕРАМОГРАНИТ [1]
Керамогранит с противоскользящей поверхностью[1].

* **Determination of slip resistance of pedestrian surfaces; it does not cover sports surfaces and road surfaces for vehicles (skid resistance).**
Determinazione della resistenza allo scivolamento delle superfici pedonabili, non si applica alle pavimentazioni sportive ed alle pavimentazioni stradali veicolari.
Détermination de la résistance au glissement des surfaces piétonnes ; elle ne s'applique pas aux sols sportifs, ni aux revêtements routiers.
Bestimmung der Rutschfestigkeit von begehbaren Oberflächen; gilt nicht für Sportböden und Straßenböden.
Determinación de la resistencia al deslizamiento de las superficies peatonales; no se aplica a las pavimentaciones deportivas y calzadas.
Установление сопротивления скольжению напольных покрытий; не применяется к спортивным напольным покрытиям и дорожным покрытиям, предназначенным для проезда транспорта.

(●). **PTV ≥ 36 Wet on demand** / su richiesta (●●). **P3 on demand** / su richiesta (●●●). **C2 on demand** / su richiesta

(•) **Le prestazioni anti-slip vengono garantite al momento della consegna del prodotto. - Anti-slip performance is guaranteed at the time of delivery of the product.**

			Modulus of rupture Resistenza alla flessione Résistance à la flexion / Biegefestigkeit / Resistencia a la flexión / Устойчивость к изгибу
	ISO 10545-8		**Coefficient of thermal linear EXPANSION** Coefficiente di DILATAZIONE TERMICA lineare Coefficient de dilatation thermique linéique / Lineare thermische Dehnung Coeficiente de dilatación térmica lineal / Коэффициент линейного расширения
	ISO 10545-9		**THERMAL SHOCK resistance** Resistenza agli SBALZI TERMICI Résistance aux écarts de température / Temperaturwechs elbeständigkeit Resistencia a los cambios de temperatura / Устойчивость к перепаду температур
	ISO 10545-10		**Moisture expansion (in mm/m)** Dilatazione all'umidità (in mm/m) Dilatation à l'humidité (en mm/m) / Feuchtigkeitsausdehnung (in mm/m) Dilatación por la humedad (en mm/m) / Расширение под воздействием влаги (в мм/м)
	ISO 10545-11		**Crazing resistance** Resistenza al cavillo Résistance aux craquelurès / Haariß-Beständigkeit / Resistencia a grietas / Устойчивость эмали к кракелюру (старению)
	EN 1348		**Bond strength/adhesion for improved cementitious adhesives** Adesione a trazione con adesivi cementizi migliorati Adhérence par traction avec des ciments-colle améliorés / Scherfestigkeit mit verbesserten zementhaltigen Klebern Adherencia a tracción con adhesivos cementosos mejorados Прочность на растяжение при приклеивании улучшенными цементными клеями
	-		**Reaction to fire** Reazione al fuoco Réaction au feu / Brandverhalten / Reacción al fuego / Огнестойкость
Chemical properties Proprietà chimiche Proprietes chimiques Chemische eigenschaften Propiedades químicas Химические характеристики	ISO 10545-13		**Resistance to household chemicals and swimming pool salts** Resistenza ai prodotti chimici di uso domestico ed agli additivi per piscina Résistance aux produits chimiques à usage domestique et aux adjuvants pour piscine Beständigkeit gegen Haushaltschemikalien und Badewasserzusätze Resistencia a los productos químicos de uso doméstico Стойкость к химикатам, используемым в быту и для бассейнов
			Resistance to low concentrations of ACIDS and ALKALIS Resistenza a basse concentrazioni di ACIDI e ALCALI Résistance aux acides et aux alcalis à basse concentration / Beständigkeit gegen niedrigkonzentrierte Säuren und Laugen Resistencia a los ácidos y bases de baja concentración / Сопротивление кислотам и щелочам низкой концентрации
			Resistance to high concentrations of ACIDS and ALKALIS Resistenza ad alte concentrazioni di ACIDI e ALCALI Résistance aux acides et aux alcalis à haute concentration / Beständigkeit gegen hochkonzentrierte Säuren und Laugen Resistencia a los ácidos y bases de alta concentración / Сопротивление кислотам и щелочам низкой концентрации
	ISO 10545-14		**Resistance to STAINING** Resistenza alle MACCHIE Résistance aux taches / Widerstand gegen fleckenbildung / Resistencia a las manchas / Устойчивость эмали к загрязнению
	ISO 10545-15		**Release of dangerous substances: Cadmium (in mg/dm²) and Lead (in mg/dm²)** Rilascio di sostanze pericolose: Cadmio (in mg/dm²) e Piombo (in mg/dm²) Emission de substances dangereuses: Cadmium (mg/dm²) et Plomb (mg/dm²) Emission von gefährlichen Stoffen: Cadmium (mg/dm²) und Blei (mg/dm²) Emisión de sustancias peligrosas: Cadmio (mg/dm²) y Plomo (mg/dm²) Выделение вредных веществ: кадмия (в мг/дм²) и свинца (в мг/дм²)

(*) **The permissible deviation, in % or mm, of the average size for each tile (2 or 4 sides) from work size (WS).**
Deviazione ammissibile, in % oppure mm, della dimensione media di ogni piastrella (2 oppure 4 lati) dalla dimensione di fabbricazione (WS).

(**) **The permissible deviation, in % or mm, of the average thickness for each tile from the work size thickness (WS).**
Deviazione ammissibile, in % oppure mm, dello spessore medio di ogni piastrella dallo spessore riportato nella dimensione di fabbricazione (WS).

(***) **The maximum permissible deviation from straightness, in % or mm, related to the corresponding work sizes (WS).**
Deviazione massima ammissibile di rettilineità, in % oppure mm, in rapporto alle dimensione di fabbricazione (WS) corrispondenti.i.

(****) **The maximum permissible deviation from rectangularity, in % or mm, related to the corresponding work sizes (WS).**
Deviazione massima ammissibile di ortogonalità, in % oppure mm, in rapporto alle dimensione di fabbricazione (WS) corrispondenti.

c.c. **The maximum permissible deviation from centre curvature, in % or mm, related to diagonal calculated from the work sizes (WS).**
Deviazione massima ammissibile della curvatura del centro, in % oppure mm, in rapporto alla diagonale calcolata secondo le dimensioni di fabbricazione (WS).

e.c. **The maximum permissible deviation from edge curvature, in % or mm, related to the corresponding work sizes (WS).**
Deviazione massima ammissibile della curvatura dello spigolo, in % oppure mm, in rapporto alle dimensioni di fabbricazione (WS) corrispondenti.

w. **The maximum permissible deviation from warpage, in % or mm, related to diagonal calculated from the work sizes (WS).**
Deviazione massima ammissibile dello svergolamento, in % oppure mm, in rapporto alla diagonale calcolata secondo le dimensioni di fabbricazione (WS).

LAYING SUGGESTIONS

Before starting the installation process, make sure the laying surface is well cured, flat and completely clean.

1. CHOICE OF ADHESIVE

The use of an appropriate adhesive is essential for a successful installation. For the installation of ceramic tiles, you should follow the laying instructions provided by leading adhesives manufacturers.
You should choose the most suitable adhesive on the basis of the following factors:

- laying surface
- type and size of tile
- use of tiled surface (floor/wall; indoor/outdoor)
- weather conditions at the time of laying
- waiting time before the ceramic surface can be used

USE Laying surface	TYPE OF TILE Type	SIZE (cm)	RECOMMENDED ADHESIVES - European Standards EN 12004	
			Normal Set	Rapid set
INDOOR FLOORS				
Cementitious screeds Existing cement floors (cement concrete, bush-hammered) Anhydrite screeds (following application of a suitable primer) Heating floors Existing ceramic, terrazzo and natural stone floors Waterproofing in bathrooms	porcelain stoneware tiles	< 30x30 cm	Improved cementitious adhesives with long open time (Class C2E).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Improved cementitious adhesives resistant to slip and with long open time (Class C2TE).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
		≥ 60x60 cm	Improved cementitious adhesives with long open time and deformable (Class C2E - S1).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
INDOOR WALL TILES				
Cementitious plaster or mortar Plaster (plaster or panels, following application of a suitable primer) Painted walls Cast concrete (Following application of primer on gypsum-based joints) Plasterboard Waterproofing in bathrooms and showers Existing ceramic tiles	white body wall tiles	any size	Improved cementitious adhesives resistant to slip and with long open time (Class C2TE).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
	porcelain stoneware tiles	< 30x30 cm	Improved cementitious adhesives resistant to slip and with long open time (Class C2TE).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Improved cementitious adhesives resistant to slip and with long open time (Class C2TE).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
		≥ 60x60 cm	Improved cementitious adhesives resistant to slip with long open time and deformable (Class C2TE - S1).	Improved cementitious adhesives, slip resistant and deformable (Class C2FT - S1). ●
OUTDOOR FLOORS

		≥ 60x60 cm ●●	Improved cementitious adhesives with long open time and highly deformable (Class C2E - S2).	Improved and highly deformable cementitious adhesives (Class C2F - S2). ●

● For large size tiles laid at a height of more than three metres, certain international regulations specify that tiles should be laid using a mixed system of adhesive and mechanical fixtures chosen in relation to the weight of the tile, height of the tiling and site conditions.
●● For tiles with a side measuring more than 30 cm laid at heights of more than three meters, certain international regulations specify the use of an additional mechanical anchor that ensures the retention of the tile in case of accidental detachment, to be chosen in relation to the weight of the tile, the height of the tiling and the site conditions.

2. SPREADING THE ADHESIVES AND LAYING THE TILES: TIPS

When laying tiles with a side longer than 60 cm and in any case for commercial indoor environments or outdoors it is essential to apply the adhesive using double buttering, applying the adhesive in a linear method parallel to the short side. It is essential that the direction of application of the adhesive on the substrate is parallel to the direction of application on the back of the tile, thus ensuring perfect adhesion between the tile and substrate.
To minimize the unevenness of the tiles both on the floor and on the wall it is recommended to use "easy installation systems" with spacers and levelers.
Spread the adhesive using a suitably toothed spatula.

3. JOINTS AND GROUTING

The invisible joints, i.e., installation with joints smaller than 2 mm, are not recommended.
For straight courses, the maximum offset between tiles must not exceed 1/3 of the length of the adjacent side.
You should follow the instructions provided by leading grout manufacturers.

USE	RECOMMENDED GROUTS - EUROPEAN STANDARDS EN 13888
Residential interiors	Improved cementitious mortars for joints (Class CG2)
Damp interiors (bathrooms, showers) and outdoors	Improved cementitious mortars for joints with low water absorption (CG2 WA)
Commercial premises	Improved cementitious mortars for joints with high resistance to abrasion (Class CG2 A)
Premises requiring total hygiene and resistance to chemical agents (swimming pools, kitchen work surfaces, food industry, hospitals, supermarkets, etc).	Epoxy mortars (Class RG).

3a. ELIMINATION OF EXCESS GROUT

To correctly and easily eliminate excess grout, follow the instructions given by the grout manufacturer. In general, proceed as follows:
Cementitious grouts
When the grout becomes opaque (normally after 10-20 minutes), clean with a hard cellulose sponge using movements on a diagonal to the joints. It is important to respect the drying time to avoid removing the grout from the joints.
Epoxy grouts
When the mixture is still fresh, wet the surface with plenty of water, emulsifying with a pad like Scotch-Brite®, paying attention not to empty the joints.
The residual grout liquid can be removed with a hard cellulose sponge (to be replaced when excessively soaked with resin).
It is vital to remove epoxy grout rapidly before it starts hardening as it is extremely difficult to remove subsequently. If the epoxy grout has started to harden, try adding 10% alcohol to the washing water.

4.CLEANING AND MAINTENANCE

4a. FINAL SITE CLEANING

After a few days, eliminate residues with a commercial Scotch-Brite® pad, brush or single brush floor cleaner (for large surfaces).
For walls, use a neutral detergent in hot water.
For floors, use a mild acid wash diluted according to the type of surface (smooth or textured). It is important to protect marble or metal inserts previously with adhesive tape.
Rinse with abundant clean water to eliminate all marks or residues from the joints.
If necessary, repeat the acid wash at a higher concentration, unless there are marble or metal inserts. Do not use diluted commercially-available acids.

4b. ROUTINE MAINTENANCE

You are recommended to use ordinary neutral detergent diluted in water.
Avoid using acid or alkaline products, waxes and/or impregnants and metal pads (iron or steel sponges).
In the event of heavy dirt or particularly textured surfaces, use an alkaline detergent and rinse after washing.
For large surfaces, the use of a floor washing machine is recommended.

4c. EXTRAORDINARY MAINTENANCE

In the event of dirt resistant to the ordinary cleaning, use a suitable detergent for the particular kind of dirt.

TYPE OF DIRT (resistant to ordinary maintenance)	DETERGENT/SOLVENT
Coal, lime efflorescence, chalk, metal marks, rust, graphite, emulsion paint	Acid detergents*
Coca cola, coffee, wine, beer, ice cream	Alkaline detergents
Resin, silicon or mechanical oils, candle wax, paint	Solvents
Tire marks, sole marks, suction cup marks	Alkaline detergent in an abrasive paste

* Important: Acid products may corrode marble, granite, natural stone and metal. Avoid using in the presence of decoration or inserts in these materials

The suggestions and advice given above are the result of research, laboratory tests and many years experience.

However, the cleaning characteristics of the materials may vary significantly depending on the laying method, conditions of use, type of surface and environment. Generally speaking, the higher the non-slip characteristics of the tiles, the more difficult they are to clean.

The maintenance and cleaning operative should always test each cleaning method empirically in advance (if possible on a piece of the material not laid)

In the case of particularly heavy use (for example, mechanical workshops or environments with a heavy presence of oily residues and tire marks), incorrect laying or inappropriate cleaning, Atlas Concorde declines all responsibility for the effectiveness of cleaning and maintenance operations.

Atlas Concorde cannot, under no circumstances, be held responsible for events, damage or defects caused by incorrect laying, negligent cleaning and maintenance or the use of materials and adhesives inappropriate for the use.

For more information, refer to the "Installation, Use, Cleaning, and Maintenance Manual".

SUGGERIMENTI PER LA POSA

Prima di iniziare la posa, si raccomanda di assicurarsi che la superficie di appoggio sia sufficientemente stagionata, planare e ben pulita.

1. SCELTA DELL'ADESIVO

L'utilizzo di un adesivo appropriato è di fondamentale importanza per la posa. Si raccomanda di seguire le indicazioni dei migliori produttori di adesivi per la posa di piastrelle ceramiche.
In generale, l'adesivo più adeguato si individua considerando i seguenti fattori:

- tipo di supporto;
- tipologia e formato delle piastrelle;
- destinazione d'uso (pavimento/rivestimento; interno/esterno) del rivestimento ceramico;
- condizioni climatiche all'atto della posa;
- tempi a disposizione per la messa in esercizio del rivestimento ceramico.

DESTINAZIONE D'USO Tipo di supporto	TIPO DI PIASTRELLE Tipologia	FORMATO (cm)	ADESIVI CONSIGLIATI - Normativa Europea EN 12004	
			Presa normale	Presa rapida
PAVIMENTI INTERNI

		≤ 30x30 cm < 60x60 cm	Adesivi cementizi migliorati, resistenti allo scivolamento e a tempo aperto allungato (classe C2TE).	Adesivi cementizi migliorati resistenti allo scivolamento e deformabili (classe C2FT - S1). ●
		≥ 60x60 cm	Adesivi cementizi migliorati, resistenti allo scivolamento, a tempo aperto allungato e deformabili (classe C2TE - S1).	Adesivi cementizi migliorati resistenti allo scivolamento e deformabili (classe C2FT - S1). ●
PAVIMENTI ESTERNI				
Massetti cementizi Soletta in calcestruzzo Strati di impermeabilizzazione	grès porcellanato	< 30x30 cm	Adesivi cementizi migliorati, resistenti allo scivolamento e a tempo aperto allungato (classe C2TE).	Adesivi cementizi migliorati resistenti allo scivolamento e deformabili (classe C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Adesivi cementizi migliorati, resistenti allo scivolamento, a tempo aperto allungato e deformabili (classe C2TE - S1).	Adesivi cementizi migliorati resistenti allo scivolamento e deformabili (classe C2FT - S1). ●
		≥ 60x60 cm	Adesivi cementizi migliorati, a tempo aperto allungato e altamente deformabili (classe C2E - S2).	Adesivi cementizi migliorati a tempo aperto allungato e altamente deformabile (classe C2FE - S2). ●
RIVESTIMENTI ESTERNI				
Intonaco cementizio Calcestruzzo gettato in opera o prefabbricato	grès porcellanato	< 30x30 cm	Adesivi cementizi migliorati, resistenti allo scivolamento, a tempo aperto allungato e deformabili (classe C2TE - S1).	Adesivi cementizi migliorati resistenti allo scivolamento e deformabili (classe C2FT - S1). ●
		≥ 30x30 cm < 60x60 cm ●●	Adesivi cementizi migliorati, resistenti allo scivolamento, a tempo aperto allungato e deformabili (classe C2TE - S1).	Adesivi cementizi migliorati resistenti allo scivolamento e deformabili (classe C2FT - S1). ●
		≥ 60x60 cm ●●	Adesivi cementizi migliorati, a tempo aperto allungato e altamente deformabili (classe C2E - S2).	Adesivi cementizi migliorati e altamente deformabili (classe C2F - S2). ●

● Nel caso di posa in condizioni di basse temperature oppure qualora sia necessario mettere in esercizio rapidamente il rivestimento ceramico è preferibile l'utilizzo di adesivi cementizi migliorati a presa rapida (Classe C2F – EN 12004).
●● Nel caso di piastrelle con un lato maggiore di 30 cm posate ad altezze superiori ai 3 metri, alcune normative internazionali prevedono l'utilizzo di un ancoraggio meccanico supplementare che assicuri la ritenzione della piastrella in caso accidentale di distacco, da scegliere in relazione al peso della piastrella, all'altezza del rivestimento ed alle condizioni del cantiere.

2. STESURA DEGLI ADESIVI E POSA DELLE PIASTRELLE:

Nel caso di posa di piastrelle con un lato di lunghezza maggiore di 60 cm e in ogni caso per ambienti interni commerciali oppure all'esterno è fondamentale applicare l'adesivo con il sistema della doppia spalmatura applicando la colla linearmente in direzione parallela al lato corto. E' fondamentale che sia parallela la direzione di applicazione dell'adesivo sul supporto di posa a quella applicata sul retro della piastrella, garantendo così la perfetta aderenza all'interfaccia piastrella ceramica-supporto.
Per minimizzare i dislivelli del sistema piastrellatura sia a pavimento che a rivestimento si raccomanda l'adozione di "sistemi di posa facilitata" con distanziatori e livellatori.
Applicare l'adesivo sul supporto mediante spatola di idonea dentatura.

3. FUGA E STUCCATURA

Si sconsiglia la posa a giunto unito ovvero posa con fughe inferiori ai 2 mm.
Nel caso di posa "a correre" il massimo sfalsamento tra piastrelle non deve superare 1/3 della lunghezza del lato adiacente.
Si raccomanda di seguire le indicazioni dei migliori produttori di stucchi per fughe.

DESTINAZIONE D'USO	STUCCHI CONSIGLIATI - Normativa Europea EN 13888
Ambienti interni residenziali	Malte cementizie per fughe migliorate (Classe CG2)
Ambienti umidi interni (bagni, docce) ed ambienti esterni	Malte cementizie per fughe migliorate con assorbimento di acqua ridotto (classe CG2 WA)
Ambienti ad uso commerciale	Malte cementizie per fughe migliorate con elevata resistenza all'abrasione (classe CG2 A)
Ambienti in cui sia richiesta totale igiene e resistenza agli agenti chimici (piscine, piani di lavoro di cucine, industrie alimentari, ospedali, supermercati, ecc…)	Malte epossidiche (classe RG).

3a. ELIMINAZIONE DELLO STUCCO IN ECCESSO

Per una corretta ed agevole eliminazione degli eccessi di stucco, si raccomanda di seguire le indicazioni del produttore dello stucco. In generale, si consiglia di attenersi a quanto segue.
Stucchi cementizi
Quando lo stucco diventa opaco (normalmente dopo 10-20 minuti), pulire con una spugna di cellulosa dura con movimenti diagonali rispetto alle fughe. E' importante il rispetto di questi tempi per non rischiare di rimuovere lo stucco dalle fughe.
Stucchi epossidici
A impasto ancora fresco, bagnare abbondantemente la superficie emulsionando con un tampone tipo Scotch-Brite®, facendo attenzione a non svuotare le fughe. Il residuo liquido di stucco può essere rimosso con una spugna di cellulosa dura (da sostituire se troppo impregnata di resina). E' fondamentale rimuovere lo stucco epossidico tempestivamente prima che inizi ad indurirsi, in quanto la successiva rimozione risulterebbe estremamente difficile. Nel caso in cui lo stucco epossidico abbia già iniziato a indurirsi, provare ad aggiungere all'acqua di lavaggio il 10% di alcool.

4.PULIZIA E MANUTENZIONE

4a. PULIZIA DI FINE CANTIERE

Dopo alcuni giorni, eliminare i residui di cantiere con spugna commerciale tipo Scotch-Brite® oppure con spazzolone o monospazzola (per grandi superfici).
Per i rivestimenti, utilizzare un detergente neutro diluito in acqua calda.
Per i pavimenti, utilizzare un detergente acido ad azione tamponata, in percentuale di diluizione variabile in funzione del tipo di superficie (liscia oppure strutturata).
E' importante proteggere preventivamente eventuali inserti in marmo o metallo con nastro adesivo.
Risciacquare poi abbondantemente con acqua calda pulita, sino alla eliminazione di qualsiasi alonatura o residuo negli interstizi.
Se necessario, ripetere il lavaggio acido a concentrazioni più elevate ad eccezione del caso in cui siano presenti inserti in marmo o metallo. Evitare l'utilizzo di acidi da ferramenta diluiti.

4b. MANUTENZIONE ORDINARIA

Si consiglia l'utilizzo di un comune detergente neutro diluito in acqua.
Evitare l'utilizzo di prodotti acidi, alcalini, ceranti e/o impregnanti e pagliette di metallo (spugnette di ferro e acciaio).
In caso di sporchi più intensi o di superfici particolarmente strutturate, usare un detergente a base alcalina risciacquando al termine del lavaggio.
Per le grandi superfici è consigliabile l'utilizzo di macchine lavasciuga.

4c. MANUTENZIONE STRAORDINARIA

Nel caso di tracce di sporco resistenti alla pulizia ordinaria, si raccomanda l'utilizzo di un detergente adeguato in funzione del tipo di sporco.

TIPO DI SPORCO (resistente alla manutenzione ordinaria)	DETERGENTE/SOLVENTE
Carbone, efflorescenze calcaree, gesso, segni metallici, ruggine, grafite, tempere murali	Detergenti a base acida *
Coca cola, caffé, vino, birra, gelato	Detergenti a base alcalina
Resine, oli siliconici o meccanici, cere di candela, vernice	Solventi
Pneumatici, suole di gomma, alonature di ventose	Detergenti basici in pasta abrasiva

* Attenzione: i prodotti a base acida possono corrodere marmo, granito, pietre naturali e metalli, pertanto evitarne l'uso nel caso di decori o inserti realizzati con questi materiali.

Le caratteristiche di pulibilità dei materiali variano in modo significativo per le diverse modalità d'installazione, condizioni d'uso, tipologie di superfici e ambiente. In linea generale, all'aumentare delle caratteristiche di antiscivolosità delle piastrelle aumentano le difficoltà di pulizia.
L'operatore professionale incaricato dell'intervento di manutenzione e pulizia dovrà sempre procedere ad una preliminare verifica empirica (possibilmente su una porzione di materiale non posato) per ogni singolo tipo di intervento.
In caso di condizioni d'uso particolarmente gravose (ad esempio, officine meccaniche o ambienti con forte presenza di residui oleosi e tracce di pneumatico), di errata installazione o di pulizie effettuate in modo inadeguato, Atlas Concorde declina ogni responsabilità in merito all'efficacia delle operazioni di pulizia e manutenzione.

Resta inteso che Atlas Concorde non potrà essere ritenuta responsabile per eventi, danni o difetti dovuti ad errata installazione, negligente pulizia e manutenzione, o inadeguata scelta della tipologia dei materiali installati e degli adesivi utilizzati con riguardo alla destinazione.

Per maggiori informazioni si rimanda al "Manuale di Posa, Uso, Pulizia e Manutenzione".

CONSEILS POUR LA POSE

Avant toute pose, il est recommandé de s'assurer que le support est suffisamment sec, plan et propre.

1. CHOIX DE LA COLLE

Pour une pose de qualité, il est fondamental d'utiliser une colle appropriée. Toujours respecter les indications fournies par les meilleurs producteurs de colle pour la pose de carreaux céramiques.
Les facteurs ci-après permettent généralement d'identifier l'adhésif le plus approprié :

- type de support ;
- type et format du carrelage ;
- type d'application du revêtement céramique (sol/mur ; intérieur/extérieur) ;
- conditions climatiques au moment de la pose ;
- temps disponible pour la mise en service du revêtement céramique.

TYPE D'APPLICATION Type de support	TYPE DE CARRELAGE Typologie	FORMAT: (cm)	ADHÉSIFS RECOMMANDÉS Normes Européennes En 12004	
			Séchage normal:	Séchage rapide
REVÊTEMENTS DE SOL INTÉRIEURS				
Chapes à base de ciment Revêtements de sol en ciment déjà existants (damés, bouchardés) Chapes anhydrite (Après application d'un primaire approprié) Chapes chauffantes Revêtements de sol déjà existants (Céramique, carreaux de marbre et pierres naturelles) Imperméabilisation salles de bains	carreaux en grès cérame	< 30x30 cm	Mortiers-colles améliorés, à temps ouvert allongé (classe C2E).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé (classe C2TE).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≥ 60x60 cm	Mortiers-colles améliorés, à temps ouvert allongé et déformables (classe C2E - S1).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
REVÊTEMENTS DE MUR INTÉRIEURS				
Enduit à base de ciment ou mortier Plâtre (enduits ou panneaux, après application d'un primaire approprié) Béton coulé Plâtre cartonné (Après avoir appliqué de l'amorçant sur les joints base plâtre) Imperméabilisation salles de bains et douches Carrelages céramiques déjà existants	carreaux à pâte blanche	tous formats	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé (classe C2TE).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
	carreaux en grès cérame	< 30x30 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé (classe C2TE).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé (classe C2TE).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≥ 60x60 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé et déformables (classe C2TE - S1).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
REVÊTEMENTS DE SOL EXTÉRIEURS				
Chapes à base de ciment Dallage en béton Couches d'imperméabilisation	carreaux en grès cérame	< 30x30 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé (classe C2TE).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé et déformables (classe C2TE - S1).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≥ 60x60 cm	Mortiers-colles améliorés, à temps ouvert allongé et hautement déformables (classe C2E - S2).	Mortiers-colles améliorés, à temps ouvert allongé et hautement déformables (classe C2E - S2). ●
REVÊTEMENTS DE MUR EXTÉRIEURS				
Enduit à base de ciment Béton coulé sur place ou préfabriqué	carreaux en grès cérame	< 30x30 cm	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé et déformables (classe C2TE - S1).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≥ 30x30 cm < 60x60 cm ●●	Mortiers-colles améliorés résistant au glissement, à temps ouvert allongé et déformables (classe C2TE - S1).	Mortiers-colles améliorés résistant au glissement et déformables (classe C2FT - S1). ●
		≥ 60x60 cm ●●	Mortiers-colles améliorés, à temps ouvert allongé et hautement déformables (classe C2E - S2).	Mortiers-colles améliorés et hautement déformables (classe C2F - S2). ●

● En cas de pose à basse température ou bien de mise en service rapide du revêtement céramique, il est préférable d'utiliser des mortiers-colles améliorés à prise rapide (Classe C2F – EN 12004).
●● En cas de carreaux de côté dépassant 30 cm appliqués à des hauteurs de plus de 3 mètres, certaines normes internationales exigent l'utilisation d'un ancrage mécanique supplémentaire, pour assurer la rétention du carreau en cas de décollage accidentel. Ceux-ci doivent être choisis en fonction du poids du carreau, de la hauteur du revêtement et des conditions sur le chantier.

2. APPLICATION DES COLLES ET POSE DU CARRELAGE

En cas de pose de carreaux ayant un côté de longueur supérieure à 60 cm, ainsi qu'en cas de pose à l'intérieur d'espaces commerciaux ou de pose en extérieur, il est fondamental d'appliquer la colle avec le système du double encollage en appliquant la colle de manière linéaire et parallèle au côté court. Il est fondamental que le sens d'application de la colle sur le support de la pose soit parallèle à celui appliqué au dos du carreau, en garantissant ainsi une adhérence parfaite entre le carreau et le support.
Pour réduire tout éventuel décalage du carrelage sur le sol et sur le mur, il est recommandé d'adopter des "systèmes de pose facilitée" en utilisant des croisillons et des niveleurs.
Appliquer l'adhésif sur le support avec une spatule à dents adéquates.

3. JOINT ET MASTICAGE

Il est déconseillé d'effectuer des poses à bords unis, à savoir dont les joints sont inférieurs à 2 mm.
En cas de pose "en succession", le décalage maximum entre les carreaux ne doit pas dépasser 1/3 de la longueur du côté adjacent.
Il est recommandé de respecter les indications fournies par les meilleurs producteurs de mortiers pour joints.

TYPE D'APPLICATION	MORTIERS RECOMMANDÉS - Norme Européenne En 13888
Espaces résidentiels intérieurs	Mortiers à base de ciment pour joints améliorés (Classe CG2)
Espaces humides intérieurs (salles de bains, douches) et espaces extérieurs	Mortiers à base de ciment pour joints améliorés à faible absorption d'eau (Classe CG2 WA)
Espaces à usage commercial	Mortiers à base de ciment pour joints améliorés, hautement résistants à l'abrasion (Classe CG2 A)
Espaces nécessitant une hygiène totale et une résistance aux agents chimiques (piscines, plans de travail de cuisines, industries alimentaires, hôpitaux, supermarchés, etc.)	Mortiers époxy (Classe RG).

3a. ÉLIMINATION DU MORTIER EXCÉDENTAIRE

Toujours respecter les indications du fabricant de mortier pour pouvoir éliminer correctement et facilement le produit excédentaire. Il est généralement recommandé de procéder de la façon suivante:
Mortiers à base de ciment
Dès que le mortier devient opaque (généralement au bout de 10-20 minutes), nettoyer à l'aide d'une éponge en cellulose dure en faisant des mouvements diagonaux par rapport aux joints. Il est important de respecter le temps indiqué pour ne pas risquer de retirer le mortier des joints.
Mortiers époxy
Lorsque le mélange est encore frais, mouiller abondamment la surface et émulsionner avec un tampon de type Scotch-Brite® en veillant bien à ne pas vider les joints.
Le résidu liquide de mortier peut s'enlever à l'aide d'une éponge en cellulose dure (à remplacer si elle est trop imprégnée de résine).
Il est fondamental d'éliminer le mortier époxy à temps, avant qu'il ne commence à durcir, après quoi l'opération s'avère extrêmement difficile. Si le mortier a déjà commencé à prendre, essayer d'ajouter 10% d'alcool à l'eau de lavage.

4.NETTOYAGE ET ENTRETIEN

4a. NETTOYAGE EN FIN DE CHANTIER

Au bout de plusieurs jours, nettoyer les résidus de chantier à l'aide d'une éponge commerciale Scotch-Brite® d'un balai-brosse ou d'un balai d'atelier (pour grandes surfaces).Pour les revêtements de mur, utiliser un produit détergent neutre, dilué dans de l'eau chaude.
Pour les revêtements de sol, utiliser un produit détergent acide à effet tampon en variant le pourcentage de dilution selon le type de surface (lisse ou structurée). Il est i important de protéger préalablement tout insert en marbre ou en métal avec du ruban adhésif.
Rincer ensuite abondamment avec de l'eau chaude propre jusqu'à ce qu'il n'y ait plus d'auréoles ni de résidus dans les interstices.
Répéter si nécessaire le lavage acide à des concentrations plus élevées (s'abstenir s'il y a des inserts en marbre ou en métal). Éviter toute utilisation d'acides commerciaux dilués.

4b. ENTRETIEN ORDINAIRE

Il est recommandé d'utiliser un produit détergent ordinaire, neutre et dilué dans de l'eau.
Éviter toute utilisation d'acides, alcalins, produits de cirage et/ou imprégnants, pailles de fer et éponges métalliques en fer et en acier.
En cas de saleté plus consistante ou de surfaces particulièrement structurées, utiliser un produit détergent à base alcaline et rincer en fin de lavage.
Pour les grandes surfaces, il est recommandé d'utiliser des machines laveuses et sécheuses.

4c. ENTRETIEN EXTRAORDINAIRE

En cas de saleté résistant au nettoyage ordinaire, il est recommandé d'utiliser un produit détergent adapté au type de saleté.

TYPE DE SALETÉ (résistant à l'entretien ordinaire)	DÉTERGENT/SOLVANT
Charbon, efflorescences calcaires, plâtre, signes métalliques, rouille, graphite, peintures murales à la détrempe	Détergents à base acide *
Coca-cola, café, vin, bière, glace	Détergents à base alcaline
Résines, huiles silicones ou mécaniques, cire de bougie, peinture	Solvants
Pneus, semelles en caoutchouc, auréoles provoquées par des ventouses	Détergents basiques en pâte abrasive

* Attention : les produits à base d'acide peuvent ronger le marbre, le granit, les pierres naturelles et les métaux, par conséquent ne pas les utiliser en présence de décors ou d'inserts réalisés avec ces types de matériaux.

Toutefois, les caractéristiques de nettoyabilité des matériaux peuvent varier de façon significative selon les modalités de pose, les conditions d'utilisation, les types de surfaces et de lieux. Généralement, plus les caractéristiques antidérapantes des carreaux sont élevées, plus le nettoyage est difficile.
Avant chaque intervention, l'opérateur professionnel chargé de l'entretien et du nettoyage devra toujours effectuer un contrôle empirique (si possible sur une portion de matériau non posée).
Atlas Concorde décline toute responsabilité quant à l'efficacité des opérations de nettoyage et d'entretien en cas de poses ou de nettoyages défectueux ainsi que dans des conditions d'utilisation particulièrement difficiles (par exemple, dans des ateliers de mécaniciens ou dans des endroits avec des résidus huileux importants et des traces de pneu).

Il est entendu qu'Atlas Concorde ne saurait être tenue pour responsable d'événements, de dommages ou de vices dus à une pose défectueuse, un nettoyage et un entretien négligés ou un mauvais choix du matériau ou des adhésifs pour l'usage considéré.

Pour plus d'informations, consulter le "Manuel de pose, d'emploi, d'entretien et de nettoyage".

VERLEGETIPPS

Vor Beginn der Verlegung sicherstellen, dass der Untergrund ausreichend verlegereif, eben und einwandfrei sauber ist.

1. WAHL DES KLEBERS

Der Gebrauch eines geeigneten Klebers ist für die Verlegung von grundlegender Bedeutung. Befolgen Sie die Angaben der führenden Kleberhersteller für die Verlegung von Keramikfliesen.
In der Regel kann der geeignetste Kleber aufgrund der folgenden Faktoren bestimmt werden:

- Art des Untergrunds;
- Fliesentyp und Fliesenformat;
- Gebrauchsbestimmung der Fliesen (Boden-/Wandbelag; Innen-/Außenbereich);
- klimatische Bedingungen bei der Verlegung;
- verfügbare Zeiten für die Inbetriebnahme des Belags.

GEBRAUCHSBESTIMMUNG Art des Untergrunds	FLIESENTYP Typ	FORMAT (cm)	EMPFOHLENE KLEBER - Europäische NormenEN 12004	
			Normal Abbindend	Schnell Abbindend
BÖDEN IM INNENBEREICH				
Zementestriche Bestehende Bodenbeläge (gebundene, verdichtete Betonuntergründe) Anhydritestriche (nach entsprechender Behandlung mit Primer) Heizestriche Bestehende Bodenbeläge aus Keramik, Terrazzo, Naturstein Abdichtung in Nassräumen	Feinsteinzeugfliesen	< 30x30 cm	Vergütete Zementkleber mit verlängerter klebeoffener Zeit (Klasse C2E).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≥ 60x60 cm	Vergütete, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2E - S1).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
WANDBELÄGE IM INNENBEREICH				
Zementputz oder Mörtel Gips (Putze oder Platten, nach entsprechender Behandlung mit Primer auftragen) Ortbeton Gipskarton Abdichtung in Bädern und Duschen Bestehende Keramikfliesen	Weißscherbige Fliesen	Alle Formate	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
	Feinsteinzeugfliesen	< 30x30 cm	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE - S1).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≥ 60x60 cm	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE - S1).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
BÖDEN IM AUSSENBEREICH				
Zementestriche Betonuntergrund Abdichtschichten	Feinsteinzeugfliesen	< 30x30 cm	Vergütete, standfeste Zementkleber mit verlängerter klebeoffener Zeit (Klasse C2TE).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE - S1).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≥ 60x60 cm	Vergütete, hochflexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2E - S2).	Vergütete, hochflexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2FE - S2). ●
AUSSENWANDBELÄGE				
Zementputz Ortbeton und Fertigbeton	Feinsteinzeugfliesen	< 30x30 cm	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE - S1).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≥ 30x30 cm < 60x60 cm ●●	Vergütete, standfeste, flexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2TE - S1).	Vergütete, standfeste und flexible Zementkleber (Klasse C2FT - S1). ●
		≥ 60x60 cm ●●	Vergütete, hochflexible Zementkleber mit verlängerter klebeoffener Zeit gemäß und Verformbarkeit gemäß (Klasse C2E - S2).	Vergütete und hochflexible Zementkleber (Klasse C2F - S2).●

● Bei der Verlegung bei niedrigen Temperaturen oder falls eine rasche Inbetriebnahme des Belags erforderlich ist, wird der Gebrauch von schnell abbindenden zementären Klebemörteln mit verbesserter Haftung (Klasse C2F – EN 12004) empfohlen.
●● Für Fliesen mit langer Seite über 30 cm, die in einer Höhe von über 3 Metern verlegt werden, schreiben einige internationale Vorschriften eine zusätzliche mechanische Verankerung vor, die die Fliese bei unbeabsichtigter Ablösung zurückhält und je nach Fliesengewicht, Belagshöhe und Baustellenbedingungen gewählt werden müssen.

2. AUFTRAG DER KLEBER UND VERLEGUNG DER FLIESEN

Bei Fliesen mit einer langen Seite von mehr als 60 cm und in jedem Fall in gewerblich genutzten Innenräumen sowie bei der Verlegung im Freien ist der Kleber unbedingt mit dem Buttering-Floating-Verfahren aufzutragen, wobei er linear parallel zur kurzen Seite aufzuziehen ist. Es ist unerlässlich, dass die Auftragsrichtung des Klebers auf dem Untergrund und jene auf der Fliesenrückseite parallel zueinander sind, da dies ein perfektes Anhaften der Verbindung zwischen Keramikfliese und Untergrund gewährleistet.
Zur Reduzierung von Unebenheiten im Fliesenbelag an Wand und Boden empfiehlt es sich, Verlegehilfen wie Distanzstücke und Nivelliereelemente zu verwenden.
Den Kleber mit Spachtel mit geeigneter Zahnung auf den Untergrund auftragen.

3. EMPFOHLENE FUGENMASSEN

Von der fugenlosen Verlegung bzw. von einer Fugenbreite unter 2 mm wird abgeraten.
Bei fortlaufender Längsverlegung dürfen die Fliesen nicht um mehr als 1/3 der Länge der jeweils angrenzenden Seiten versetzt werden.
Befolgen Sie die Angaben der führenden Fugenmassenhersteller.

GEBRAUCHSBESTIMMUNG	EMPFOHLENE FUGENMASSEN - EUROPÄISCHE NORM EN 13888
Innenbereich in privaten Objekten	Vergütete Fugenmörtel (Klasse CG2)
Nassräume im Innenbereich (Badezimmer, Duschen) und im Außenbereich	Zementäre Fugenmörtel mit verbesserten Eigenschaften und reduzierter Wasseraufnahme (Klasse CG2 WA)
Innenbereich in gewerblichen Objekten	Zementäre Fugenmörtel mit verbesserten Eigenschaften und hoher Abriebfestigkeit (Klasse CG2 A)
Bereiche, in denen es auf absolute Hygiene und Chemikalienbeständigkeit ankommt (Schwimmbecken, Arbeitsplatten in Küchen, Lebensmittelindustrie, Krankenhäuser, Supermärkte etc.).	Epoxidharzfugenmörtel (Klasse RG).

3a. ENTFERNEN DER ÜBERSCHÜSSIGEN FUGENMASSE

Für die korrekte und problemlose Entfernung von überschüssiger Fugenmasse die Angaben des Herstellers befolgen. Generell wird empfohlen, folgende Anweisungen zu beachten.
Zementäre Fugenmörtel
Wenn die Fugenmasse nicht mehr glänzt (normalerweise nach 10-20 Minuten), mit einem harten Zelluloseschwamm diagonal zum Fugenverlauf reinigen. Diese Zeiten müssen beachtet werden, um ein Entfernen der Fugenmasse aus den Fugen zu vermeiden.
Epoxidharz-Fugenmörtel
Bei noch frischer Masse die Oberfläche mit viel Wasser annässen und mit einem Pad vom Typ Scotch-Brite® bearbeiten; darauf achten, dass die Fugen nicht ausgewaschen werden.
Die flüssigen Fugenmassenreste mit einem harten Zelluloseschwamm (zu ersetzen, falls zu sehr mit Harz imprägniert) entfernen.
Wichtig ist es, dass die Epoxidharz-Fugenmasse rechtzeitig entfernt wird, bevor sie auszuhärten beginnt, da sie danach nur sehr schwer beseitigt werden kann. Falls die Epoxidharz-Fugenmasse bereits begonnen hat auszuhärten, kann man versuchen, dem Waschwasser 10 % Alkohol beizumengen.

4.REINIGUNG UND PFLEGE

4a. BAUSCHLUSSREINIGUNG

Nach einigen Tagen die Rückstände mit Scotch-Pad® oder mit einer Bürste bzw. einer Einscheiben-Bodenreinigungsmaschine (bei großen Flächen) entfernen.
Für die Wandbeläge einen mit warmem Wasser verdünnten neutralen Reiniger verwenden.
Für die Bodenbeläge ein saures Reinigungsmittel mit Pufferwirkung verwenden, das je nach Oberfläche (glatt oder strukturiert) zu verdünnen ist. Wichtig ist es, dass eventuelle Marmor- oder Metalleinleger vorsorglich mit Klebeband geschützt werden.
Danach mit reichlich warmem und sauberem Wasser nachspülen, bis Schleier und Schmutz restlos entfernt sind.
Gegebenenfalls die Reinigung mit einer stärker konzentrierten Säurelösung wiederholen; bei Marmor- oder Metalleinlegern ist dies jedoch zu vermeiden. Keine verdünnten Säuren für Eisenwaren verwenden.

4b. NORMALE PFLEGE

Für die Pflege wird ein gewöhnlicher, mit Wasser verdünnter neutraler Reiniger empfohlen.
Saure oder alkalische Produkte, Wachs- und/oder Imprägniermittel sowie Stahlwollepads (Eisen- und Stahlschwämme) sind zu vermeiden.
Bei hartnäckiger Verschmutzung oder besonders strukturierten Oberflächen einen alkalischen Reiniger verwenden und nach dem Reinigen nachspülen.
Bei großen Flächen empfiehlt sich die Verwendung einer Bodenreinigungsmaschine.

4c. SONDERREINIGUNG

Bei durch normale Pflege nicht zu beseitigender Verschmutzung wird der Gebrauch eines für die jeweilige Schmutzart geeigneten Reinigers empfohlen.

SCHMUTZART (hartnäckig gegen normale Pflegeprodukte)	REINIGER/LÖSEMITTEL
Kohle, Kalkausblühungen, Gips, Metallabrieb, Rost, Graphit, Wandanstriche	Saure Reiniger*
Coca-Cola, Kaffee, Wein, Bier, Speiseeis	Alkalische Reiniger
Kunstharz, Silikon und mechanisches Öl, Kerzenwachs, Lack	Lösemittel
Gummiabrieb (Reifen, Schuhsohlen, Abdrücke von Saugnäpfen)	Basische Reiniger (Scheuerpaste)

* Achtung: Produkte auf Säurebasis können Marmor, Granit, Naturstein und Metalle angreifen. Bei Einlegern oder Dekorfliesen aus diesen Materialien sind sie deshalb zu vermeiden.

Die Eigenschaften hinsichtlich der Reinigbarkeit der Materialien variieren allerdings erheblich je nach Verlegungsart, Einsatzbedingungen, Oberfläche und Umgebung. In der Regel sind Bodenbeläge mit zunehmender Rutschhemmung schwerer zu reinigen.

Die mit der Pflege und Reinigung beauftragte Fachkraft muss für einen jeden Eingriff immer eine empirische Vorabkontrolle vornehmen (möglichst auf nicht verlegtem Material).

Bei besonders schwierigen Einsatzbedingungen (z.B. in Werkstätten oder bei Vorliegen von stark öliger Verschmutzung und Reifenspuren), falscher Verlegung oder unsachgemäß ausgeführter Reinigung übernimmt Atlas Concorde keine Haftung für die Wirksamkeit der Reinigungs- und Pflegearbeiten.

In keinem Fall ist Atlas Concorde für Ereignisse, Schäden oder Mängel verantwortlich, die auf eine falsche Verlegung, nachlässige Reinigung und Pflege oder auf eine ungeeignete Auswahl der verlegten Materialien und verwendeten Kleber für die jeweilige Gebrauchsbestimmung zurückzuführen sind.

Für weiterführende Informationen siehe das „Handbuch für Verlegung, Gebrauch, Reinigung und Pflege“.

SUGERENCIAS PARA LA COLOCACIÓN

Antes de empezar la operación de colocación, se aconseja asegurase de que la superficie de apoyo esté suficientemente seca, plana y bien limpia.

1. ELECCIÓN DEL ADHESIVO

El empleo de un adhesivo adecuado tiene suma importancia para la colocación. Se aconseja atenerse a las indicaciones de los mejores productores de adhesivos para la colocación de baldosas cerámicas. Por lo general, el adhesivo más adecuado se identifica considerando los siguientes factores:

- tipo de soporte;
- tipología y formato de las baldosas;
- destino de uso (pavimento/revestimiento; interiores/exteriores) del revestimiento cerámico;
- condiciones climáticas en el momento de la colocación;
- tiempos a disposición para la puesta en uso del revestimiento cerámico.

DESTINO DE USO Tipo de soporte	TIPO DE BALDOSAS Tipología	FORMATO (cm)	ADHESIVOS RECOMENDADOS - Normativa Europea EN 12004	
			Toma normal	Toma rápida
PAVIMENTOS INTERNOS				
Morteros cementosos Pavimentos de cemento existentes (batido, bujardado) Bloques delgados de anhidrita (previa aplicación de un producto adecuado de imprimación) Morteros cementosos calefactores Pavimentos de cerámica, baldosas y piedras naturales existentes Impermeabilización en baños	gres porcelánico	< 30x30 cm	Adhesivos cementosos, mejorados con tiempo abierto prolongado (Clase C2E).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado (Clase C2TE).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1).●
		≥ 60x60 cm	Adhesivos cementosos mejorados, con tiempo abierto prolongado y deformables (Clase C2E - S1).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1).●
REVESTIMIENTOS INTERNOS				
Revoque de cemento o mortero, yeso (revoques o paneles, previa aplicación de un producto adecuado de Imprimación) Colada de hormigón Yeso encartonado (Previa aplicación de imprimación en las juntas a base de yeso) Impermeabilizaciones en baños y duchas Baldosas cerámica existentes	revestimientos de pasta blanca	Cualquier formato	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado (Clase C2TE).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
	gres porcelánico	< 30x30 cm	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado (Clase C2TE).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado (Clase C2TE).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
		≥ 60x60 cm	Adhesivos cementosos mejorados, con tiempo abierto prolongado y altamente deformables (Clase C2TE - S1).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
PAVIMENTOS EXTERNOS				
Morteros cementosos Soleras de hormigón Capas de impermeabilización	gres porcelánico	< 30x30 cm	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado (Clase C2TE).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
		≤ 30x30 cm < 60x60 cm	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado y deformables (Clase C2TE - S1).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
		≥ 60x60 cm	Adhesivos cementosos mejorados, con tiempo abierto prolongado y altamente deformables (Clase C2E - S2).	Adhesivos cementosos mejorados, con tiempo abierto prolongado y altamente deformables (Clase C2FE - S2). ●
REVESTIMIENTOS EXTERNOS				
Revoque de cemento Colada de hormigón u hormigón prefabricado	gres porcelánico	< 30x30 cm	s cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado y deformables (Clase C2TE - S1).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1).●
		≥ 30x30 cm < 60x60 cm ●●	Adhesivos cementosos mejorados, resistentes al deslizamiento con tiempo abierto prolongado y deformables (Clase C2TE - S1).	Adhesivos cementosos mejorados, resistentes al deslizamiento y deformables (Clase C2FT - S1). ●
		≥ 60x60 cm ●●	Adhesivos cementosos mejorados, con tiempo abierto prolongado y altamente deformables (Clase C2E - S2).	Adhesivos cementosos mejorados y altamente deformables (Clase C2F - S2).●

● En caso de colocación en condiciones de bajas temperaturas o bien si fuera necesario poner en uso rápidamente el revestimiento cerámico, es preferible el empleo de adhesivos cementosos mejorados de fraguado rápido (Clase C2F – EN 12004).
●● Para baldosas con lado mayor a 30 cm colocadas a una altura superior a 3 metros, algunas normativas internacionales prevén el empleo de una fijación mecánica suplementaria que asegure la retención de la baldosa en caso de desprendimiento accidental, a elegir según el peso de la baldosa, la altura del revestimiento y las condiciones de la obra.

2. APLICACIÓN DE LOS ADHESIVOS Y COLOCACIÓN DE LAS BALDOSAS: RECOMENDACIONES

En caso de colocación de baldosas con un lado cuyo largo supere los 60 cm, y en cualquier caso para ambientes interiores comerciales o bien en el exterior, es fundamental aplicar el adhesivo con el sistema de doble esparcimiento, aplicando la cola de modo lineal en dirección paralela al lado corto. Es muy importante que la dirección de aplicación del adhesivo en el soporte de colocación sea paralela a la aplicada en el revés de la baldosa, garantizando la perfecta adherencia al interfaz baldosa cerámica y el soporte.
Para minimizar los desniveles del sistema de embaldosado en pavimento o de azulejado en revestimiento, se les recomienda adoptar “sistemas de colocación facilitada” con distanciadores y niveladores.Aplicar el adhesivo sobre el soporte utilizando una espátula con un dentado adecuado.

3. ESTUCOS RECOMENDADOS

No se aconseja la colocación de junta unida o colocación con juntas menores a 2 mm.
En el caso de colocación “alternada de las juntas” el escalonado máximo entre las baldosas no tiene que superar 1/3 de la longitud del lado adyacente.
Se recomienda atenerse a las indicaciones de los mejores productores de estucos para juntas.

DESTINO DE USO	ESTUCOS RECOMENDADOS - NORMATIVA EUROPEA EN 13888
Ambientes internos residenciales	Morteros cementosos para juntas mejoradas (Clase CG2)
Ambientes húmedos internos (baños, duchas) y ambientes externos	Morteros cementosos para juntas mejoradas con una reducida absorción de agua (Clase CG2 WA)
Ambientes de uso comercial	Morteros cementosos para juntas mejoradas con una elevada resistencia a la abrasión (Clase CG2 A)
Ambientes en los cuales se requiera una higiene total y resistencia a los agentes químicos (piscinas, encimeras de cocinas, industrias alimenticias, hospitales, supermercados, etc…)	Morteros epoxídicos (Clase RG).

3a. ELIMINACIÓN DEL ESTUCO EN EXCESO

Para una eliminación correcta y sencilla de los residuos de estuco, se recomienda seguir las indicaciones del productor del mismo. Por lo general, se recomienda atenerse a las siguientes recomendaciones.

Estucos de cemento

Cuando el estuco se vuelve opaco (normalmente al cabo de 10-20 minutos), limpiar con una esponja de celulosa dura con movimientos diagonales respecto a las juntas. Es importante respetar estos tiempos para no correr el riesgo de quitar el estuco de las juntas.

Estucos epoxídicos

Con la pasta aún fresca, mojar bien la superficie emulsionando con un estropajo Scotch-Brite®, prestando atención para no vaciar las juntas. El residuo líquido de estuco puede eliminarse con una esponja de celulosa dura (que habrá que cambiar si está demasiado empapada de resina). Es importante eliminar el estuco epoxídico rápidamente antes de que empiece a fraguar, porque quitarlo más tarde resultaría muy difícil. Si el estuco epoxídico ya ha empezado a fraguar, añadir al agua de lavado el 10% de alcohol.

4. LIMPIEZA Y MANTENIMIENTO

4a. LIMPIEZA FINAL DE LA OBRA

Al cabo de algunos días, eliminar los restos de la obra con una esponja comercial Scotch-Brite® o bien con un cepillo grande o monocepillo (para grandes superficies).
Para los revestimientos, utilizar un detergente neutro diluido en agua caliente.
Para los pavimentos, utilizar un detergente ácido tamponado, diluido en un porcentaje variable según el tipo de superficie (lisa o estructurada). Es importante proteger preventivamente con cinta adhesiva las inserciones de mármol o metal si estuvieran presentes.
Aclarar abundantemente con agua caliente limpia hasta que desaparezca cualquier halo o residuo en los intersticios.
Si fuera necesario, repetir el lavado ácido con concentraciones más elevadas, excepto si estuvieran presentes inserciones de mármol o metal. Evitar el empleo de ácidos muriáticos de escasa calidad diluidos.

4b. MANTENIMIENTO ORDINARIO

Se recomienda el uso de un detergente neutro común diluido en agua.
Evitar el empleo de productos ácidos, alcalinos, productos para encerar y/o impermeabilizantes y bayetas de metal (esponjas de hierro y acero).
En caso de suciedad más intensa o superficies muy estructuradas, usar un detergente de base alcalina aclarando al final del lavado.
En caso de grandes superficies se recomienda el uso de máquinas de lavado y secado.

4c. MANTENIMIENTO EXTRAORDINARIO

En caso de restos de suciedad resistentes a la limpieza ordinaria se recomienda el uso de un detergente adecuado dependiendo del tipo de suciedad.

TIPO DE SUCIEDAD (resistente al mantenimiento ordinario)	DETERGENTE/DISOLVENTE
Carbón, eflorescencias calcáreas, yeso, marcas metálicas, óxido, grafito, pinturas murales al temple	Detergentes de base ácida *
Coca cola, café, vino, cerveza, helado	Detergente de base alcalina
Resinas, aceites silicónicos o mecánicos, cera de vela, pintura	Disolventes
Neumáticos, suelas de goma, halos de ventosas	Detergentes básicos en pasta abrasiva

* Atención: los productos de base ácida pueden corroer el mármol, el granito, las piedras naturales y los metales, por tanto hay que evitar su uso en caso de presencia de decoraciones o inserciones realizadas con estos materiales.

Las sugerencias facilitadas arriba son el resultado de investigaciones, comprobaciones de laboratorio y de una experiencia plurianual.

Sin embargo, las características de limpiabilidad de los materiales varían sensiblemente según las diferentes formas de instalación, las condiciones de uso, las tipologías de las superficies y el ambiente. Por lo general, cuanto mayores sean las características antideslizamiento de las baldosas, mayor será la dificultad para limpiarlas.

El profesional encargado del mantenimiento y la limpieza deberá siempre llevar a cabo una comprobación empírica previa (posiblemente en una porción de material no colocado) por cada tipo de intervención.

En caso de condiciones de uso especialmente pesadas (por ejemplo, en talleres mecánicos o en ambientes con una fuerte presencia de residuos oleosos y huellas de neumáticos), instalación incorrecta o limpieza efectuada de manera impropia, Atlas Concorde no se considera responsable de la eficacia de las operaciones de limpieza y mantenimiento.

Se da por descontado que Atlas Concorde no podrá ser considerada responsable de eventos, daños o defectos debidos a una instalación incorrecta, limpieza y mantenimiento negligentes o una elección inadecuada de los materiales instalados y los adhesivos utilizados con respecto al destino.

Para mayor información, consultar el “Manual de Colocación, Uso, Limpieza y Mantenimiento”.

РЕКОМЕНДАЦИИ ПО УКЛАДКЕ

Перед укладкой рекомендуется проверить, что поверхность основания достаточно выдержана, ровная и чистая.

1. ВЫБОР КЛЕЯ

Для качества укладки крайне важно правильно подобрать клей. Рекомендуется следовать указаниям крупнейших изготовителей клеев по укладке керамических плиток.
В целом, клей выбирают с учетом следующих критериев:

- тип основания;
- типология и формат плитки;
- назначение (пол/облицовка; внутри/снаружи) керамического покрытия;
- климатические условия в период укладки;
- время на выполнение керамического покрытия.

НАЗНАЧЕНИЕ Тип основания	ТИП ПЛИТКИ Типология	ФОРМАТ (cm)	РЕКОМЕНДУЕМЫЕ КЛЕИ - Европейские Нормы EN 12004

		≤ 30x30 cm < 60x60 cm	Улучшенные клеи на цементной основе, стойкие к оползанию с увеличенным сроком хранения в открытом состоянии и эластичные (Класс C2TE - S1)	Улучшенные эластичные клеи на цементной основе, стойкие к оползанию (Класс C2FT - S1).●
		≥ 60x60 cm	Улучшенные клеи на цементной основе, стойкие к оползанию с увеличенным сроком хранения в открытом состоянии и с большой эластичностью (Класс C2E - S2).	УЛучшенные клеи на цементной основе, стойкие к оползанию с увеличенным сроком хранения в открытом состоянии и с большой эластичностью (Класс C2FE - S2). ●
НАРУЖНАЯ ОБЛИЦОВКА				
Цементная штукатурка Бетонная заливка на месте или бетонные блоки	Керамогранит	< 30x30 cm	Улучшенные клеи на цементной основе, стойкие к оползанию с увеличенным сроком хранения в открытом состоянии и эластичные (Класс C2TE - S1)	Улучшенные эластичные клеи на цементной основе, стойкие к оползанию (Класс C2FT - S1). ●
		≥ 30x30 cm < 60x60 cm ●●	Улучшенные клеи на цементной основе, стойкие к оползанию с увеличенным сроком хранения в открытом состоянии и эластичные (Класс C2TE - S1)	Улучшенные эластичные клеи на цементной основе, стойкие к оползанию (Класс C2FT - S1). ●
		≥ 60x60 cm ●●	Улучшенные клеи на цементной основе, стойкие к оползанию с увеличенным сроком хранения в открытом состоянии и с большой эластичностью (Класс C2E - S2).	Улучшенные высокоэластичные клеи на цементной основе (Класс C2F - S2). ●

●При укладке в условиях низкой температуры, если керамическое покрытие требуется быстро ввести в эксплуатацию, предпочтительнее применять быстросхватывающиеся улучшенные клеи на цементной основе (Класс C2F – EN 12004).
●●Для плиток с длиной хотя бы одной из граней более 30 см, укладываемых на высоте более 3 метров, некоторые международные стандарты предусматривают дополнительное механическое крепление, например при помощи специальных крюков, для удержания плитки в случае случайного отрыва; крепеж подбирается с учетом веса плитки, высоты облицовки и конкретных условий стройплощадки.

2. НАНЕСЕНИЕ КЛЕЯ И УКЛАДКА ПЛИТКИ: РЕКОМЕНДАЦИИ

При укладке плитки с длиной хотя бы одной из граней более 60 см и, в любом случае, при укладке плитки в коммерческих помещениях или на улице, клей следует наносить в два слоя: на подлежащее облицовке основание и на тыльную сторону плиток прямыми полосами параллельно короткой грани. Важно, чтобы полосы клея, нанесенного на облицовываемое основание и на тыльную сторону плиток, были параллельны друг другу: это обеспечит оптимальное сцепление плиток с основанием.
Чтобы свести к минимуму неровности или перепады высот облицовки, как на полах, так и на стенах, рекомендуется использовать надлежащие крестики и системы выравнивания плитки.
Наносить клей на основание шпателем с подходящим размером зубьев.

3. ШВЫ И ЗАТИРКА ШВОВ

Не рекомендуется укладывать плитку без швов или со швом менее 2 мм.
При укладке вразбежку смещение плиток должно быть не более 1/3 длины смежных граней.
При затирке швов следуйте указаниям крупнейших производителей шовных затирок.

НАЗНАЧЕНИЕ	РЕКОМЕНДУЕМЫЕ РАСТВОРЫ ЕВРОПЕЙСКИЕ НОРМАТИВЫ EN 13888
Внутренние жилые помещения	Улучшенные цементные растворы для швов (Класс CG2)
Внутренние помещения с высокой влажностью (ванные, души, бассейны и т.п.) и открытые помещения	Улучшенные цементные растворы для швов с низким водопоглощением (Класс CG2 W - EN 13888).
Помещения коммерческого назначения	Улучшенные цементные растворы для швов с повышенной стойкостью к истиранию (Класс CG2 Ar - EN 13888).
Помещения, где требуется полная гигиена и устойчивость к химическим агентам (рабочие столы на кухнях, пищевая промышленность, больницы, супермаркеты и т.п.)	Эпоксидные строительные растворы (Класс RG - EN 13888).

3a. УДАЛЕНИЕ ИЗЛИШКОВ ЗАТИРКИ

Чтобы легко и правильно удалить излишек раствора, рекомендуется следовать указаниям изготовителя раствора.
В общих чертах рекомендуется придерживаться нижеуказанного.
Цементные растворы
Когда раствор теряет блеск (обычно через 10-20 минут), счистить его губкой из твердой целлюлозы, проводя ей по диагонали относительно швов.
Очень важно выдержать указанное время, иначе есть риск удалить раствор из швов.
Эпоксидные растворы
Пока смесь свежая, обильно смочить поверхность, взбивая эмульсию тампоном Schotch-Brite®; действовать осторожно, чтобы не удалить раствор из швов.
Жидкие остатки раствора можно удалить его губкой из твердой целлюлозы (вовремя заменяя ее, когда она сильно пропитывается смолой). Крайне важно удалить эпоксидный раствор вовремя, пока он не начал затвердевать, так как в дальнейшем это будет чрезвычайно трудно сделать. Если эпоксидный раствор уже начал затвердеть, можно попробовать добавить 10% спирта в воду для смывания.

4. ЧИСТКА И УХОД

4a. ЧИСТКА ПО ЗАВЕРШЕНИИ УКЛАДКИ

Через несколько дней очистить уложенное покрытие губкой марки Schotch-Brite®, щеткой или механической щеткой (для больших площадей).
Для облицовки применять нейтральное моющее средство, растворенное в горячей воде. Для напольных покрытий применять кислотное моющее средство тампонированного действия, концентрация раствора меняется в зависимости от типа поверхности (гладкая или шершавая). Не забывать предварительно защитить мраморные или металлические вставки с помощью клейкой ленты. Прополоскать обильным количеством чистой горячей воды, удаляя все разводы и остатки в промежутках. При необходимости повторить кислотную промывку с более сильной концентрацией, за исключением случаев, когда на полу имеются мраморные или металлические вставки. Избегать применения разведенных кислот для металлов.

4b.ТЕКУЩИЙ УХОД

Рекомендуется пользоваться обычным нейтральным моющим средством, разведенным в воде.
Избегать применения кислотных, щелочных, восковых средств, пропиток и металлических губок.
Для удаления сильных загрязнений или для очистки шершавой поверхности с сильно рельефной структурой пользоваться моющим средством на щелочной основе, прополаскивая после мытья.
Для уборки больших площадей рекомендуется пользоваться моечными машинами, которые выполняют мойку и сушку.

4c. ЧРЕЗВЫЧАЙНЫЙ УХОД

Если загрязнения не удается удалить обычным способом, рекомендуется применять моющее средство, подобранное с учетом типа загрязнения.

ТИП ЗАГРЯЗНЕНИЙ (устойчивых к обычной уборке)	МОЮЩЕЕ СРЕДСТВО/РАСТВОРИТЕЛЬ
Уголь, кальциевые налеты, гипс, следы от металлов, ржавчина, графит, стенная темпера	Моющие средства на кислотной основе *
Кока-кола, кофе, вино, пиво, мороженое	Моющие средства на щелочной основе
Смолы, силиконовые масла или масла для механического оборудования, свечной воск, краска	Растворители
Шины, резиновые подошвы, следы от присосок	Основания для очистки в виде абразивной пасты

* Внимание: средства на кислотной основе могут вызвать коррозию мрамора, гранита, природного камня и металлов, поэтому их не следует применять, если имеются декоры или вставки из этих материалов.

Приведенные выше рекомендации являются результатом исследований, лабораторных анализов и многолетнего опыта.

Тем не менее, легкость очистки покрытий значительно меняется при различных способах укладки, условиях эксплуатации, типологиях поверхности и окружающей среды. В целом, чем менее скользкая плитка, тем труднее ее очистить.

Профессиональный работник, отвечающий за уход и очистку, должен всегда провести предварительную пробу (по возможности, на неуложенном материале) по каждому отдельному виду работ.

В случае особо сложных условий (напр., механические мастерские или помещения с большим количеством масляных отходов и следов от шин), ошибок при укладке или неправильного проведения очистки фирма Atlas Concorde снимает с себя всякую ответственность за эффективность операций по очистке и уходу.

Оговаривается, что фирма Atlas Concorde не несет никакой ответственности за происшествия, ущерб или дефекты вследствие ошибок при укладке, халатной очистки и небрежного ухода или неправильного выбора типа устанавливаемых покрытий и клеев для конкретного назначения.

Больше информации приведено в руководстве по укладке, эксплуатации, чистке и уходу.

General sales conditions

A.- CONTRACT COMPLETION

A.1. These general sales conditions govern every sales contract between the Seller and the Buyer and any amendment or exception thereof shall be agreed in writing.
A.2. Any offers, credits and/or rebates granted by agents or other intermediaries, shall not be considered valid if they are not confirmed in writing by the Seller.
A.3.- The Buyer shall send the written orders to the Seller, directly or through the agents, and the orders shall include the codes of the required products, quantity, price and destination. The order sent by the Buyer is irrevocable.
A.4. The sale shall be deemed completed when: (i) the Buyer receives a written confirmation from the Seller, via e-mail, fax or other electronic means, that complies with the terms and conditions of the order; or (ii) if the confirmation sent by the Seller contains conditions that differ from the order sent by the Buyer, when the latter accepts it in writing or in any case does not object within 7 (seven) days from reception; or (iii) if the Seller does not provide a written confirmation, when the products are delivered and loaded by the Buyer.
A.5. The Buyer shares the need to restrict the sales of Atlas Concorde products to the national territory. The Seller deems this rule necessary in order to coordinate its sales policy, streamline its distribution network and provide offers that are suited to the needs of the single countries. The Buyer acknowledges that this rule is also in its best interest. The Buyer therefore undertakes to market the products supplied by Ceramiche Atlas Concorde SpA exclusively in its country of residence, refraining from promoting active sales, even online, with customers located in the territory of a country different from its own. As regards triangular operations, this undertaking applies to the country in which the buyer actually operates. The Buyer may resell the product outside its territory only with written authorisation from the Seller, or if the sales concern non first-grade products or products that are out of production.

B.- PRICES

B.1. The prices agreed upon for each individual sale are net prices for cash delivery ex works (the Seller's plant shall be specified in the order confirmation), unless otherwise agreed in writing.

C.- PRODUCT CHARACTERISTICS

C.1. The Buyer declares to have read and comply with the content of the following documentation published on the corporate website: 1) Laying, use, cleaning and maintenance manual and 2) Technical data sheets.
C.2. Given the intrinsic variability of the ceramic products, the characteristics of the samples, previously sent by the Seller to the Buyer, are purely illustrative and cannot be deemed binding.
C.3. Unless specifically requested and agreed before the order confirmation, the Seller does not guarantee that the entire quantity of an article on order shall be sent from one same production lot.

D.- DELIVERY TERMS

D.1. The delivery terms are understood to be indicative and the extension thereof cannot entitle the Purchaser to request any form of compensation, without exception.
D.2. If, after 14 (fourteen) days from the date of notification that the goods are ready, the Purchaser fails to collect them, the Seller shall be forced for reasons of occupied space to return the goods to the storage facilities, thereby incurring additional costs; the Seller reserves the right to charge the Purchaser such additional costs.

E.- SHIPPING ARRANGEMENTS AND TERMS

E.1. The Buyer must communicate any variation in the destination of the products, different from the one agreed in the order confirmation, in writing within, and no later than, the second day before the day foreseen for the collection at the Seller's premises. The Seller reserves the right not to accept the change of the product destination. If the actual destination of the product is different from the one stated by the Buyer, the Seller reserves the right to suspend the execution of the supplies underway and/or to terminate the contracts in force and the Buyer shall not have the right to claim direct and/or indirect compensation of any type.
E.2. Unless otherwise agreed, the goods shall be delivered ex-works (EXW - Incoterms 2010) and this shall also be the case when the parties agree that the delivery, or part of it, shall be arranged by the Seller on the Buyer's behalf. In any case, the risks shall transfer to the Buyer upon delivery to the first carrier.
E.3. Without prejudice to the Seller's extraneity in relation to the transport contract, the Seller shall not be indicated as "shipper" on the bill of lading. The communication of the gross weight of the container to the Forwarding agent does not represent in any way the undertaking of any liability by the Seller as regards the SOLAS (Safety Of Life At Sea) Convention. In no event may the said communication be taken to be the VGM (Verified Gross Mass).
E.4. The Buyer undertakes to ensure that the vehicle sent to the Seller's warehouse is suitable for the loading operations, considering the nature of the products. If the vehicle sent to collect the goods causes difficulties in the loading operations, the Seller reserves the right to charge a penalty, of 4% of the value of the products, to cover the extra logistics costs. If the vehicle sent is not at all suitable, the Seller reserves the right to refuse to load the goods and the Buyer shall not have the right to claim compensation for any direct and/or indirect cost that may arise therefrom.
E.5. The Buyer is responsible for assigning the carrier the task of checking the products before loading them; any observations concerning the condition of the packaging and the correspondence of the quantities loaded with those on the transport document must be made by the carrier upon collection of the goods. The said observations must be written on all the copies of the transport documents, otherwise the loaded products shall be considered to be complete and in good condition. As a result, the Seller shall not be liable for any missing or damaged products not reported by the carrier.
E.6. The Buyer is also responsible for assigning the carrier the task of checking the loading procedure and the stability of the goods on the vehicle, in order to prevent damage during transport and to comply with all road safety provisions.

F.- PAYMENTS

F.1. All payments must be made to the Seller's registered office. Payments made to agents, representatives, or sales assistants shall not be considered as made until the amounts are received by the Seller.
F.2. The Buyer shall not fulfil its payment obligations by making payments from countries other than its own country of residence, if the said countries do not guarantee an adequate exchange of information with Italy. In case of breach of the said prohibition, the Seller has the right to terminate the contract for just cause and the Buyer shall not have the right to claim compensation for any damage suffered.
F.3. Any costs for stamp duty and bank draft fees shall be borne by the Buyer. Failure to fulfil, even only in part, the payment shall result in the application of interest on arrears in favour of the Seller, from the date established for the payment, as envisaged by legislative decree 09/10/2002 no. 231.
F.4. Unless otherwise agreed in writing, the Buyer undertakes not to offset any receivables, of whatever nature, owed by the Seller.

G.- CLAIMS

G.1. Upon receipt of the products, the Buyer shall perform a visual inspection in compliance with instructions provided in point 7 of UNI EN ISO 10545-2 standards.
G.2. The products must be installed and fitted strictly respecting the recommendations related to the activities to be performed before and during the laying of the product specified in document 1) Laying, use, cleaning and maintenance manual, published on the Seller's website, and on the product packaging and/or inside the packaging. Faults caused by an incorrect installation and by missing/incorrect maintenance (different from instructions provided in document 1) Laying, use, cleaning and maintenance manual), by an unsuitable use and/or by normal wear over time shall not be considered product faults.
G.3. With the exception of the limits of acceptability foreseen by the international EN 14411 (ISO 13006) standard, the parties acknowledge as identifiable faults those product defects that are immediately visible upon receipt thereof and that make the material unsuitable for use or that significantly reduce its value. This category includes faults as defined in the document 1) Laying, use, cleaning and maintenance manual, published on the Seller's website. Identifiable faults include, by way of a non-limiting example, superficial defects, decoration defects, defects concerning polishing, dimensions, surface flatness, straightness of sides/rectangularity and thickness, cracks, chippings or rough edges, non-compliant shades, mixed shades and products that feature problems deriving from the cutting process and/or from chips.
G.4. If the Buyer finds an identifiable fault, it must be reported in writing to the Seller, within 8 (eight) days from receipt of the products; failure to send the claim shall result in the forfeiture and loss of such right. The Buyer shall keep the entire lot of material readily available for the Seller. The claim shall include the invoice details and an accurate description of the claimed fault together with photographs, where possible. In the event that the claim proves to be unfounded, the Buyer shall refund the Seller any costs incurred for an inspection (expert's reports, travel, etc.).
G.5. Hidden faults shall be notified to the Supplier in writing, by recorded delivery letter with advice of receipt, within 8 days from the date such fault is found, under penalty of forfeiture.
G.6. The Buyer's right to make a claim for faults under warranty is valid for 12 (twelve) months from the delivery of the products.

H.- WARRANTY FOR FAULTS

H.1. The Seller's warranty is limited to first grade products and not second or third grade products or lots on offer with special prices or discounts, which must be duly specified with a note in the order confirmation.
H.2. The Seller does not guarantee the suitability of the products for particular uses, and only guarantees the technical specifications published on the website in the document 2) Technical data sheets. The indication for use is merely indicative, even when written in the Seller's catalogues and manuals. On the basis of the characteristics described in the document 2) Technical data sheets, the designer always has the task of assessing the suitability of the product for the specific use conditions, taking into account the stress and variables to which the product will be subjected, which may alter its characteristics; for example, the traffic intensity, quality of traffic (foot traffic with the presence of sand, debris...), adverse weather conditions and any other unpredictable factor to which the material may be exposed.
H.3. In the event that identifiable product faults are ascertained, as defined in sub section G no. 3, the Seller shall replace the faulty product with another one with equal or superior characteristics; should this not be possible, the Seller shall apply a significant price reduction. Alternatively, following the return of the faulty products, the Buyer shall have the right to a refund of the price paid plus the transport cost, with the exclusion of compensation for any other direct and/or indirect damage.
H.4. The Seller's warranty shall not be valid if the products that have identifiable faults (totally or in part) have been used and/or in any case transformed, as this entails that the Buyer (or its customer) expressed the intention to accept them in the condition in which they were found.
H.5. In the event that hidden product faults are ascertained, the Seller's warranty is limited to the replacement with other products of equal or superior characteristics; should this not be possible the Seller shall refund the price paid plus the transport cost. In any case, the Seller's warranty for any direct and/or indirect damage caused by the faulty product, shall be limited to an amount that shall not be greater than double the selling price applied by the Seller, only in relation to the faulty part of the supply.
H.6. In the event that the Buyer resells the product to subjects protected by the consumer code (law decree no. 206/2005), the former shall be responsible for the conditions applied, if different from those stated herein, and shall ensure that the consumer's rights are exercised, in relation to the remedies and terms established by the said code. If there are the grounds for the Buyer to exercise the right of recourse and/or make a claim against the Seller/manufacturer, the said action shall take into account or go beyond the exemptions and limits established in sub sections G no. 1 and H no. 5.

I. SOLVE ET REPETE (pay and then claim) AND TERMINATION CLAUSES

I.1. Pursuant to article 1462 of the Italian Civil Code, on no account may the Buyer suspend or delay payment of collected material, including in the event of alleged defects or faults in the material; this does not affect the right to claim back any payments made unduly (solve et repete).
I.2. If the Buyer's financial situation changes or in the event of non-payment (even partial) of products already supplied, the Seller reserves the right to suspend the execution of the supplies underway and/or to terminate the contracts in force and the Buyer shall not have the right to claim direct and/or indirect compensation of any type.

L.- RETENTION OF OWNERSHIP

L.1. The products supplied shall remain exclusive property of the Seller until the Buyer has paid the full amount.
L.2. During the aforementioned period, the Buyer shall undertake the obligations and responsibilities as bailee (also referred to as custodian) and shall not transfer the said products, grant their use, let them be seized or distrained without declaring that the property is of the Seller, and the Buyer shall immediately inform the Seller by recorded delivery letter with advice of receipt.

M.- FORCE MAJEURE

M.1. Each party may suspend the fulfilment of its contractual obligations, when the said fulfilment is impossible or objectively too costly due to an unforeseeable impediment independent from the parties, such as for example: strike, boycott, lockout, fire, war (declared or not), civil war, riots and revolutions, requisitions, embargo, power blackouts, extraordinary breakage of machinery, delays in the delivery of components or raw materials.
M.2. The party that wishes to apply this clause shall immediately notify the onset and end of the circumstances of force majeure to the other party in writing.
M.3. If the suspension due to force majeure lasts longer than 60 (sixty) days, each party shall have the right to terminate this contract, with a notice of 10 (ten) days to be notified to the counterparty in writing.

N.- CONFIDENTIALITY

N.1. The Buyer undertakes to maintain confidentiality as regards all information of a technical (such as, by way of a non-limiting example, drawings, tables, documentation, formulas and correspondence) and commercial nature (including contractual conditions, purchase prices, payment conditions,...) gained during the performance of this contract.
N.2. The confidentiality obligation shall be undertaken for the entire duration of this contract and for the period following its execution.
N.3. In case of failure to uphold the confidentiality obligation, the non-fulfilling party shall pay the other party compensation for all damages that may derive therefrom.

O.- SELLER'S TRADEMARKS AND DISTINCTIVE SIGNS

O.1. The use of trademarks, ornamental designs and creative works in general, in whatever form and manner of expression (such as, by way of a non-limiting example: images, photos, drawings, videos, shapes, structures, etc.) constituting the Seller's intellectual property, through any means (such as, by way of a non-limiting example: press, video, radio, internet, social media, instant messaging platforms or VoIP, etc.) is strictly forbidden. Any exception to the said prohibition, even only partial, must be authorised in writing, each time, by the Seller's general management.

P.- CONTRACT LANGUAGE, APPLICABLE LAW, JURISDICTION AND AUTHORITY

P.1. The present contract is drafted in Italian, and in case of disputes the said version shall prevail over any translations in other languages.
P.2. Any dispute concerning the supply of products shall be subject to Italian law and jurisdiction and the Court of Modena, the town in which the Seller has its registered office, shall have sole local jurisdiction.

For more information refer to the General Conditions of Sale, available at www.atlasconcorde.com

Condizioni generali di vendita

A.- MODALITA' DI CONCLUSIONE DEL CONTRATTO

A.1. Le presenti Condizioni Generali di Vendita disciplinano ogni contratto di Vendita tra il Venditore e l'Acquirente ed ogni loro modifica o deroga deve essere concordata per iscritto.

A.2. Eventuali offerte, accrediti e/o abbuoni accordati da agenti o da altri intermediari, non sono ritenuti validi se non confermati per iscritto dal Venditore.

A.3. L'Acquirente invia al Venditore, direttamente o per il tramite di agenti, Ordini scritti che devono contenere l'indicazione dei codici dei Prodotti richiesti, delle quantità, del loro prezzo e della destinazione. L'Ordine inviato dall'Acquirente è irrevocabile.

A.4. La Vendita dovrà ritenersi conclusa nel momento in cui: (i) l'Acquirente riceva da parte del Venditore una Conferma scritta via e-mail, fax o altri mezzi telematici, conforme ai termini e alle condizioni dell'Ordine; o (ii) in caso di Conferma inviata dal Venditore contenente condizioni difformi dall'Ordine ricevuto dall'Acquirente quando questi l'accetti per iscritto o comunque non la contesti entro 7 (sette) giorni dalla ricezione; o (iii) in assenza di conferma scritta da parte del Venditore, nel momento in cui i Prodotti saranno consegnati e caricati dall'Acquirente.

A.5. L'Acquirente condivide l'esigenza di limitare al territorio nazionale le vendite di prodotti Atlas Concorde. Il Venditore ritiene questa regola elemento indispensabile per permettergli di coordinare la sua politica commerciale e razionalizzare la rete distributiva, con offerte più orientate alle necessità dei singoli Paesi.
Parimenti, l'Acquirente riconosce che tale esigenza costituisce una tutela anche dei propri interessi.
L'Acquirente si obbliga quindi a commercializzare i prodotti forniti da Ceramiche Atlas Concorde SpA esclusivamente nel suo Paese di residenza, astenendosi dal promuovere vendite attive sollecitate anche online con clienti situati nel territorio di uno Stato diverso dal proprio. Per le operazioni triangolari il presente obbligo si applica al Paese di effettiva operatività dell'acquirente. L'Acquirente potrà rivendere il prodotto al di fuori dal proprio territorio nel caso in cui riceva autorizzazione per iscritto da parte del Venditore, o nel caso in cui la rivendita riguardi prodotti non di prima scelta, oppure prodotti fuori produzione.

B.- PREZZI

B.1. Salvo diversa pattuizione scritta, i prezzi di vendita concordati di volta in volta si intendono al netto per contanti e per consegna franco stabilimento del Venditore indicato nella Conferma d'Ordine.

C.- CARATTERISTICHE DEI PRODOTTI

C.1. L'Acquirente dichiara di aver preso visione ed attenersi al contenuto della seguente documentazione pubblicata nel sito internet aziendale: 1) Manuale di Posa, Uso, Pulizia e Manutenzione e 2) Schede tecniche.

C.2. Data la intrinseca variabilità del prodotto ceramico, le caratteristiche dei campioni e/o modelli inviati in precedenza dal Venditore all'Acquirente sono da considerarsi indicativi e non vincolanti.

C.3. Salvo specifiche richieste da concordare prima della Conferma d'Ordine, il Venditore non garantisce che l'ordine del singolo articolo venga evaso tutto con un medesimo lotto di produzione.

D.- TERMINI DI CONSEGNA

D.1. I termini di consegna sono da intendersi indicativi e la proroga di essi non può far maturare all'Acquirente alcun diritto a richiedere indennizzi, ogni eccezione rimossa.

D.2. Se, trascorsi 14 (quattordici) giorni dalla data di avviso di merce pronta, l'Acquirente non ritira il materiale, il Venditore sarà costretto per ragioni di spazio occupato a riportare il materiale nelle locazioni di deposito, sostenendo quindi costi supplementari; il Venditore si riserva la possibilità di addebitare tali costi supplementari all'Acquirente.

E.- RESA E SPEDIZIONE

E.1. L'eventuale variazione della destinazione dei Prodotti, diversa da quella concordata in Conferma d'Ordine, deve essere comunicata dall'Acquirente per iscritto entro e non oltre il secondo giorno antecedente a quello previsto per il ritiro presso la sede del Venditore. Il Venditore si riserva la facoltà di non accettare la variazione della destinazione dei Prodotti. Nel caso si verifichi che la destinazione effettiva del Prodotto sia stata diversa da quella dichiarata dall'Acquirente, il Venditore si riserva la facoltà di sospendere l'esecuzione delle forniture in corso e/o risolvere i contratti in corso senza che l'Acquirente possa rivendicare risarcimenti diretti e/o indiretti di alcun tipo.

E.2. Salvo patto contrario, la fornitura della merce si intende Franco Fabbrica (EXW ai sensi degli Incoterms 2010) e ciò anche quando sia convenuto che la spedizione o parte di essa venga curata dal Venditore su mandato dell'Acquirente. In ogni caso i rischi passano all'Acquirente al più tardi con la consegna al primo trasportatore.

E.3. Ferma restando l'estraneità del Venditore rispetto al contratto di trasporto, il Venditore non potrà essere indicato come "shipper" nella polizza di carico. La comunicazione del peso lordo del container allo spedizioniere, non costituisce alcuna assunzione di responsabilità da parte del Venditore ai fini della Convenzione SOLAS (Safety Of Life At Sea). In nessun caso tale comunicazione potrà essere intesa come VGM (Verified Gross Mass).

E.4. L'Acquirente s'impegna affinché il mezzo inviato presso i magazzini del Venditore sia idoneo al carico in relazione alla natura dei Prodotti. Nel caso il mezzo che si presenta comporti significative difficoltà per le operazioni di carico, il Venditore si riserva di addebitare una penale pari al 4% del valore dei prodotti a copertura dei maggiori costi logistici. Se il mezzo convenuto non è assolutamente idoneo, il Venditore si riserva la facoltà di negare le operazioni di carico senza che nulla possa essere richiesto dall'Acquirente a titolo di risarcimento per ogni onere diretto e/o indiretto che ne possa derivarne.

E.5. È compito dell'Acquirente incaricare il vettore di controllare i prodotti prima del carico; eventuali osservazioni in relazione all'integrità degli imballi e della rispondenza delle quantità caricate a quelle indicate sul documento di trasporto, devono essere sollevate dal vettore al momento del carico. Tali osservazioni devono essere riportate su tutte le copie dei documenti di trasporto, altrimenti i prodotti caricati s'intendono integri e completi. Ne deriva che il Venditore non si assume alcuna responsabilità in relazione a mancanze o danni dei prodotti non segnalati dal vettore.

E.6. È altresì responsabilità dell'Acquirente incaricare il vettore di verificare le modalità e la stabilità del carico sul mezzo affinché durante il trasporto non si verifichino rotture e affinché siano rispettate tutte le disposizioni di sicurezza riguardanti la circolazione stradale.

F.- PAGAMENTI

F.1. Qualsiasi obbligazione di pagamento deve essere adempiuta presso la sede legale del Venditore. Eventuali pagamenti ad agenti, rappresentanti o ausiliari di commercio non si intendono effettuati finché le relative somme non pervengono al Venditore.

F.2. È fatto divieto all'Acquirente di eseguire il proprio adempimento mediante pagamenti provenienti da paesi diversi dal proprio paese di residenza se trattasi di paesi che non garantiscono un adeguato scambio di informazioni con l'Italia. In caso di violazione di tale divieto, il Venditore ha facoltà di risolvere il contratto per giusta causa senza che l'Acquirente possa vantare il diritto di ottenere alcun risarcimento per l'eventuale danno subito.

F.3. Eventuali spese di bollo ed incasso effetti e tratte sono a carico dell'Acquirente. In caso di inadempimento, anche solo parziale, dal giorno fissato per il pagamento decorreranno a favore del Venditore gli interessi moratori nella misura prevista dal d.lgs. 09/10/2002 n. 231.

F.4. Salvo diversi accordi scritti, l'Acquirente si impegna a non compensare alcun credito, comunque insorto, nei confronti del Venditore.

G.- RECLAMI

G.1. Al ricevimento dei Prodotti, l'Acquirente dovrà sottoporli ad accurato controllo attraverso un esame visivo effettuato conformemente alle indicazioni riportate al punto 7 delle norme UNI EN ISO 10545-2

G.2. L'installazione e la posa dei Prodotti deve essere effettuata attenendosi scrupolosamente alle raccomandazioni inerenti le attività da svolgere prima e durante la posa in opera indicate nel documento 1) Manuale di Posa, Uso, Pulizia e Manutenzione pubblicato nel sito internet del Venditore e sulla confezione del prodotto e/o all'interno della stessa. Non sono considerati vizi del Prodotto quelli generati da un'errata installazione e dalla mancata/errata manutenzione (difformi dalle indicazioni fornite nel 1) Manuale di Posa, Uso, Pulizia e Manutenzione), da una non idonea destinazione d'uso e/o dalla normale usura nel tempo.

G.3. Fatti salvi i limiti di accettabilità previsti dalla norma internazionale EN 14411 (ISO 13006), le Parti riconoscono come Vizi Palesi i difetti dei Prodotti riscontrabili già al momento del loro ricevimento tali da rendere il materiale inidoneo all'uso o da diminuirne in modo apprezzabile il valore. Rientrano in tale categoria i difetti come definiti nel documento 1) Manuale di Posa, Uso, Pulizia e Manutenzione pubblicato nel sito internet del Venditore. A titolo esemplificativo e non esaustivo si riconoscono come Vizi Palesi i difetti superficiali, i difetti di decorazione, di lappatura/levigatura, di calibro, di planarità, di ortogonalità-rettilineità, di spessore, le crepe, le sbeccature, i fuori tono, i toni mescolati e i Prodotti che presentano problemi da taglio/scaglie.

G.4. Nel caso l'Acquirente rilevi Vizi Palesi dovrà fare reclamo al Venditore per iscritto, a pena di decadenza, entro 8 (otto) giorni dal ricevimento e tenere a disposizione del Venditore l'intera partita di materiale. Il reclamo dovrà riportare i dati di fatturazione e una precisa descrizione del vizio reclamato corredata, quando possibile, da immagini fotografiche. Qualora il reclamo dovesse risultare infondato, l'Acquirente si rende disponibile a risarcire il Venditore delle spese sostenute per l'eventuale sopralluogo (perizie, viaggi ecc.).

G.5. I Vizi Occulti dovranno essere notificati al Venditore mediante lettera raccomandata A.R., a pena di decadenza dalla garanzia, entro 8 (otto) giorni dalla data della scoperta del difetto.

G.6. L'azione dell'Acquirente diretta a fare valere la garanzia per vizi si prescrive comunque nel termine di 12 (dodici) mesi decorrenti dalla consegna dei Prodotti.

H.- GARANZIA PER VIZI

H.1. La garanzia del Venditore si intende limitata ai soli Prodotti di prima scelta e non ai Prodotti di seconda o terza scelta o di partite d'occasione con prezzi o sconti particolari quando debitamente segnalati in nota nella Conferma dell'Ordine.

H.2. Il Venditore non garantisce l'idoneità dei Prodotti ad usi particolari, ma soltanto le caratteristiche tecniche pubblicate nel sito internet nel documento 2) Schede tecniche. L'indicazione d'uso, anche quando presentata dal Venditore in cataloghi e manuali, è da ritenersi puramente indicativa. Sulla base delle caratteristiche tecniche riportate nelle 2) Schede Tecniche è sempre compito del progettista valutare l'idoneità del Prodotto alle condizioni specifiche di utilizzo in funzione delle sollecitazioni e delle variabili che si possono verificare nell'ambiente di destinazione alterandone le sue caratteristiche, a titolo d'esempio, all'intensità del traffico, alla qualità del traffico (calpestio in presenza di sabbia, di detriti…), alle eventuali condizioni climatiche avverse e a qualsiasi altra aleatorietà a cui può essere esposto il materiale.

H.3. Nel caso risulti accertato che il Prodotto manifesti Vizi Palesi, come definiti al sub lett. G n.3, il Venditore provvederà alla sostituzione del Prodotto difettoso con altro avente caratteristiche pari o superiori o nel caso ciò non sia possibile ad una congrua riduzione del prezzo. In alternativa l'Acquirente avrà diritto, previa restituzione dei Prodotti viziati, al rimborso del prezzo pagato, maggiorato del costo del trasporto, con esclusione del risarcimento di ogni altro danno diretto e/o indiretto.

H.4. La garanzia del Venditore deve ritenersi esclusa nel caso in cui il Prodotto affetto da Vizi Palesi (in tutto o in parte) sia stato utilizzato e/o comunque trasformato dovendosi ritenere che in tal modo l'Acquirente (o il suo cliente) abbia espresso la volontà di accettarli nello stato in cui si trovano.

H.5. Nel caso risulti accertato che il Prodotto manifesti Vizi Occulti, la garanzia del Venditore è limitata alla sostituzione del materiale con altro avente caratteristiche pari o superiori e ove ciò non sia possibile al rimborso del prezzo pagato maggiorato del costo del trasporto. In ogni caso la garanzia del Venditore per ogni danno diretto e/o indiretto comunque originato dal prodotto difettoso, deve intendersi limitata ad una somma che non potrà superare il doppio del prezzo di vendita applicato dal Venditore in relazione alla sola parte della fornitura difettosa.

H.6. Nel caso l'Acquirente rivenda il Prodotto a soggetti tutelati dal codice del consumo (d.l. n.206/2005) sarà responsabile delle condizioni praticate se difformi da quelle qui riportate e dovrà accertarsi che i diritti del consumatore siano esercitati nel rispetto dei rimedi e dei termini fissati da tale codice. Nel caso sussistano i presupposti, il diritto di regresso e/o comunque di rivalsa spettanti all'Acquirente verso il Venditore/produttore non potrà eccedere le esenzioni ed i limiti come fissati dal sub lett. G n.1 al sub lett. H n.5.

I. CLAUSOLE SOLVE ET REPETE E RISOLUTIVE

I.1. Ai sensi dell'art. 1462 del Codice Civile, per nessun motivo, ivi compresi pretesi vizi o difetti del materiale, l'Acquirente potrà sospendere o ritardare il pagamento del materiale ritirato, salva naturalmente la facoltà di ripetere quando possa dimostrare di avere indebitamente pagato.

I.2. Nel caso di mutamento delle condizioni patrimoniali dell'Acquirente o di mancato pagamento anche parziale di prodotti già forniti, il Venditore può **sospendere** l'esecuzione delle forniture in corso e/o risolvere i contratti in corso senza che l'Acquirente possa rivendicare risarcimenti diretti e/o indiretti di alcun tipo.

L.- PATTO DI RISERVATO DOMINIO

L.1. Fino a quando l'Acquirente non avrà provveduto all'integrale pagamento del prezzo, i Prodotti oggetto della fornitura rimarranno di proprietà del Venditore.

L.2. Durante il periodo suddetto, l'Acquirente assumerà gli obblighi e le responsabilità del custode, e non potrà alienare, dare in uso, lasciare sequestrare o pignorare tali Prodotti senza dichiarare la proprietà del Venditore e dare immediato avviso a mezzo raccomandata A.R.

M.- FORZA MAGGIORE

M.1. Ciascuna parte potrà sospendere l'esecuzione dei suoi obblighi contrattuali quando tale esecuzione sia resa impossibile o oggettivamente troppo onerosa da un impedimento imprevedibile indipendente dalla sua volontà, quale ad esempio: sciopero, boicottaggio, serrata, incendio, guerra (dichiarata o non), guerra civile, sommosse e rivoluzioni, requisizioni, embargo, interruzioni di energia, rotture straordinarie di macchinari, ritardi nella consegna di componenti o materie prime.

M.2. La parte che desidera avvalersi della presente clausola dovrà comunicare immediatamente per iscritto all'altra parte il verificarsi e la cessazione delle circostanze di forza maggiore.

M.3. Qualora la sospensione dovuta a forza maggiore duri più di 60 (sessanta) giorni, ciascuna parte avrà il diritto di risolvere il presente contratto, previo un preavviso di 10 (dieci) giorni, da comunicarsi alla controparte per iscritto.

N.- OBBLIGO DI RISERVATEZZA

N.1. L'Acquirente è tenuto ad osservare la più assoluta riservatezza su tutte le notizie di carattere tecnico (quali, in via meramente esemplificativa, disegni, prospetti, documentazioni, formule e corrispondenza) e di carattere commerciale (ivi comprese le condizioni contrattuali, i prezzi d'acquisto, le condizioni di pagamento …) apprese in esecuzione del presente Contratto.

N.2. L'obbligo di riservatezza viene assunto per tutta la durata del Contratto, nonché per il periodo successivo alla sua esecuzione.

N.3. In ogni caso di inosservanza dell'obbligo di riservatezza, la parte inadempiente è tenuta e risarcire all'altra tutti i danni che ne dovessero derivare.

O.- MARCHI E SEGNI DISTINTIVI DEL VENDITORE

O.1. L'utilizzo dei marchi, dei modelli ornamentali e delle opere d'ingegno in genere, in qualunque forma o modo di espressione (quali a titolo meramente esemplificativo, ma non esaustivo: immagini, foto, disegni, filmati, figure, strutture, etc.) costituenti proprietà intellettuale del Venditore, attraverso qualsiasi mezzo (quali a titolo meramente esemplificativo, ma non esaustivo: stampa, video, radio, internet, social media, piattaforme di messaggistica istantanea o VoIP, etc.) è severamente vietato. Qualsiasi deroga a tale divieto, anche solamente parziale, dovrà essere autorizzata per iscritto, caso per caso, dalla Direzione generale del Venditore.

P.- LINGUA DEL CONTRATTO, LEGGE APPLICABILE, GIURISDIZIONE E COMPETENZA

P.1. Il Contratto e le presenti condizioni sono redatti in lingua Italiana, la quale prevarrà nel caso di divergenza con la traduzione in altre lingue.

P.2. La definizione di qualsiasi controversia comunque relativa alle forniture è soggetta alla legge ed alla giurisdizione dello Stato Italiano e la competenza territoriale viene devoluta in via esclusiva al Tribunale di Modena nella cui circoscrizione il Venditore ha la sua sede legale.

Per maggiori informazioni riferirsi alle Condizioni Generali di Vendita, disponibili all'indirizzo www.atlasconcorde.com

Conditions générales de vente

A.- MODALITÉS DE CONCLUSION DU CONTRAT

A.1. Les présentes Conditions Générales de Vente régissent tout contrat de Vente entre le Vendeur et l'Acheteur et toute modification ou dérogation de ces dernières doit être convenue par écrit.

A.2. D'éventuelles offres, accréditations et / ou ristournes accordées par des agents ou par d'autres intermédiaires, ne seront réputées valables que si elles sont confirmées par écrit par le Vendeur.

A.3. L'Acheteur envoie au Vendeur, directement ou par l'intermédiaire d'agents, des Commandes écrites qui doivent indiquer les codes des Produits demandés, les quantités, leur prix et leur destination. La commande envoyée par l'Acheteur est irrévocable.

A.4. La Vente doit être réputée conclue au moment où: (i) l'Acheteur reçoit de la part du Vendeur une Confirmation écrite par e-mail, par télécopie ou par d'autres moyens télématiques, conforme aux conditions de la Commande ; ou (ii) en cas de Confirmation envoyée par le Vendeur contenant des conditions différant de la Commande envoyée par l'Acheteur lorsque celui-ci l'accepte par écrit ou quoi qu'il en soit s'il ne la conteste pas dans un délai de 7 (sept) jours à compter de la réception ; ou (iii) en l'absence d'une confirmation écrite de la part du Vendeur, au moment où les Produits seront livrés et chargés par l'Acheteur.

A.5. L'Acheteur partage l'exigence de limiter les ventes de produits Atlas Concorde au territoire national. Le Vendeur considère cette règle comme un élément indispensable lui permettant de coordonner sa politique commerciale et de rationaliser le réseau de distribution, avec des offres davantage orientées vers les exigences des différents Pays. De même, l'Acheteur reconnaît que cette exigence constitue également une mesure de protection de ses propres intérêts. L'Acheteur s'engage donc à commercialiser les produits fournis par Ceramiche Atlas Concorde SpA exclusivement dans son Pays de résidence, en s'abstenant de promouvoir les ventes actives également sollicitées en ligne auprès de clients situés sur le territoire d'un État différent du sien.
Pour les opérations triangulaires, la présente obligation s'applique au pays dans lequel l'acheteur opère effectivement. L'Acheteur pourra revendre le produit hors de son territoire avec l'autorisation écrite du Vendeur, ou si la revente concerne des produits qui ne sont pas de premier choix ou des produits hors production.

B.- PRIX

B.1. Sauf accord contraire, les prix de vente convenus au fur et à mesure sont réputés nets, pour les paiements en espèces et les livraisons Franco l'établissement du Vendeur indiqué sur la Confirmation de Commande.

C.- CARACTÉRISTIQUES DES PRODUITS

C.1. L'Acheteur déclare avoir lu et s'en tenir au contenu de la documentation suivante publiée sur le site Internet de la société: 1) Manuel de Pose, d'Utilisation, de Nettoyage et d'Entretien et 2) Fiches techniques.

C.2. Vu la variabilité intrinsèque du produit en céramique, les caractéristiques des échantillons et / ou des modèles envoyés précédemment par le Vendeur à l'Acheteur sont indicatifs et non contraignants.

C.3. Sauf en cas de demandes spécifiques à convenir avant la Confirmation de Commande, le Vendeur ne garantit pas la commande d'un article soit intégralement constituée par un même lot de production.

D.- DÉLAIS DE LIVRAISON

D.1. Les délais de livraison sont indicatifs et leur éventuelle prorogation ne confère à l'Acheteur aucun droit de demander une indemnisation, sans aucune exception.

D.2. Si, après 14 (quatorze) jours à compter de l'avis de mise à disposition des marchandises, l'Acheteur ne retire pas le matériel, le Vendeur sera dans l'obligation, en raison de la place occupée, de ramener le matériel dans le dépôt, supportant ainsi des coûts supplémentaires ; le Vendeur se réserve la possibilité de facturer ces coûts supplémentaires à l'Acheteur.

E.- LIVRAISON ET EXPÉDITION

E.1.- L'éventuelle variation de la destination des Produits, différente de celle convenue dans la Confirmation de Commande, doit être communiquée par l'Acheteur par écrit au plus tard le second jour qui précède le jour du retrait au siège du Vendeur. Le Vendeur se réserve la faculté de ne pas accepter la variation de la destination des Produits. Au cas où la destination effective du Produit serait différente de celle déclarée par l'Acheteur, le Vendeur se réserve la faculté de suspendre l'exécution des fournitures en cours et / ou de résilier le contrat sans que l'Acheteur puisse revendiquer des indemnisations directes et / ou indirectes d'aucune sorte.

E.2. Sauf accord contraire, la fourniture de la marchandise est livrée Départ Usine (EXW aux termes des Incoterms 2010) même si l'on a convenu que l'expédition ou une partie de cette dernière sera suivie par le Vendeur sur mandat de l'Acheteur. En tout état de cause, les risques passent à l'Acheteur au plus tard au moment de la livraison au premier transporteur.

E.3. Sans préjudice du désintérêt du Vendeur par rapport au contrat de transport, celui-ci ne pourra être indiqué comme le “shipper” dans le connaissement. La communication du poids brut du container à l'expéditeur, ne constitue pas une prise de responsabilité de la part du Vendeur aux fins de la Convention SOLAS (Safety Of Life At Sea). En aucun cas cette communication ne pourra être considérée comme le VGM (Verified Gross Mass).

E.4. L'Acheteur s'engage à ce que le véhicule envoyé aux entrepôts du Vendeur soit compatible avec la nature des Produits à charger. Si le véhicule qui se présente comporte des difficultés significatives pour les opérations de chargement, le Vendeur se réserve la faculté de débiter une pénalité de l'ordre de 4 % de la valeur des produits pour couvrir les coûts logistiques supplémentaires. Si le véhicule convenu n'est absolument pas compatible, le Vendeur se réserve la faculté de refuser les opérations de chargement sans que l'Acheteur ne puisse rien lui demander à titre de remboursement de toute dépense directe et / ou indirecte éventuelle.

E.5. Il appartient à l'Acheteur de charger le transporteur de contrôler les produits avant le chargement ; d'éventuelles observations concernant l'intégrité des emballages et la correspondance des quantités chargées avec celles indiquées sur le document de transport doivent être soulevées par le transporteur au moment du chargement. Ces observations doivent être indiquées sur toutes les copies des documents de transport ; dans le cas contraire, les produits chargés sont réputés intacts et complets. Il s'ensuit que le Vendeur décline toute responsabilité en cas d'absence ou de détérioration des produits non signalée par le transporteur.

E.6. L'Acheteur a également la responsabilité de charger le transporteur de vérifier les modalités et la stabilité du chargement sur le véhicule afin d'éviter les bris durant le transport et le respect de toutes les dispositions de sécurité concernant la circulation sur route.

F.- PAIEMENTS

F.1. Toute obligation de paiement doit être accomplie au siège légal du Vendeur. Les éventuels paiements remis à des agents, à des représentants ou à des auxiliaires de commerce ne seront réputés effectués qu'au moment où le Vendeur percevra les sommes correspondantes.

F.2. Il est interdit à l'Acheteur d'effectuer des paiements depuis un pays différent de son pays de résidence et ne garantissant pas un échange d'informations correct avec l'Italie. En cas de violation de cette interdiction, le Vendeur a la faculté de résilier le contrat pour juste cause sans que l'Acheteur ne puisse revendiquer le droit d'obtenir une quelconque réparation pour l'éventuel préjudice subi.

F.3. Les éventuels frais de timbre et d'encaissement d'effets et de traites sont à la charge de l'Acheteur. En cas de défaillance, même partielle, des intérêts de retard commencent à courir en faveur du Vendeur, à compter du jour fixé pour le paiement, dans la mesure prévue par le Décret Législatif italien n° 231 du 09/10/2002.

F.4. Sauf accord écrit contraire, l'Acheteur s'engage à ne compenser aucune créance échue.

G.- RÉCLAMATIONS

G.1. À la réception des Produits, l'Acheteur devra soumettre ces derniers à un contrôle minutieux moyennant un examen visuel effectué conformément aux indications du point 7 des normes UNI EN ISO 10545-2.

G.2. L'installation et la pose des Produits doivent être effectuées en suivant scrupuleusement les recommandations inhérentes aux activités exercées avant et durant la pose indiquées sur le document 1) Manuel de Pose, d'Utilisation, de Nettoyage et d'Entretien, publié sur le site Internet du Vendeur ainsi qu'à l'extérieur et/ou à l'intérieur de l'emballage du produit. Les défauts dus à une installation erronée et à un entretien absent / erroné (ne respectant pas les indications fournies dans le 1) Manuel de Pose, d'Utilisation, de Nettoyage et d'Entretien), par un usage prévu inapproprié et / ou par l'usure normale due au temps ne sont pas considérés comme des vices du Produit.

G.3. Sous réserve des limites d'acceptabilité prévues par la norme internationale EN 14411 (ISO 13006), les Parties reconnaissent comme des Vices Évidents les défauts des Produits existant dès la réception de sorte que le matériel devienne inutilisable ou qu'il perde une grande partie de sa valeur. Cette catégorie comprend les défauts définis dans le document 1) Manuel de Pose, d'Utilisation, de Nettoyage et d'Entretien publié sur le site Internet du Vendeur. À titre d'exemple non contraignant, on reconnaît comme des Vices Évidents les défauts de surface, de décoration, de polissage, de calibre, de planéité, d'orthogonalité–rectitude, d'épaisseur, les fissures, les ébréchés, les hors nuance, les nuances mélangées et les Produits qui présentent des problèmes de coupe - voile.

G.4. Si l'Acheteur relève des Vices Évidents, il devra présenter une réclamation écrite au Vendeur, sous peine de déchéance, dans un délai de 8 (huit) jours à compter de la réception et tenir le lot complet de matériel à la disposition de ce dernier. La réclamation devra indiquer les données de facturation et une description précise du vice objet de la réclamation, accompagnée, si possible, de photographies. Si la réclamation devait s'avérer sans fondement, l'Acheteur est disposé à rembourser au Vendeur les dépenses encourues pour l'éventuelle visite des lieux (expertises, déplacements, etc.).

G.5. Les Vices Cachés devront être notifiés au Vendeur par lettre recommandée avec avis de réception, sous peine d'annulation de la garantie, dans un délai de 8 (huit) jours à compter de la date de la découverte du défaut.

G.6. L'action de l'Acheteur ayant pour but de faire valoir la garantie en cas de vices se prescrit dans un délai de 12 (douze) mois à compter de la livraison des Produits.

H.- GARANTIE COUVRANT LES VICES

H.1. La garantie du Vendeur est réputée limitée aux seuls Produits de premier choix et non aux Produits de second ou de troisième choix ou à des lots d'occasion auquel on applique des prix ou des remises particuliers lorsqu'ils sont dûment signalés dans les notes de la Confirmation de Commande.

H.2. Le Vendeur ne garantit pas l'adéquation des Produits à des usages particuliers, mais uniquement les caractéristiques techniques publiées sur le site Internet dans le document 2) Fiches techniques. L'usage indiqué, également lorsqu'il est présenté par le Vendeur dans des catalogues et des manuels, est purement indicatif. Sur la base des caractéristiques techniques indiquées dans les 2) Fiches Techniques, le concepteur a toujours le devoir d'évaluer l'adéquation du Produit aux conditions spécifiques d'utilisation en fonction des contraintes et des variables pouvant se vérifier dans le lieu de destination et susceptibles d'en altérer les caractéristiques, par exemple, l'intensité et la qualité de la circulation (piétinement en présence de sable, de détritus…), ainsi que les éventuelles conditions climatiques défavorables et toute autre incidence à laquelle peut être exposé le matériel.

H.3. Si l'on a constaté que le Produit présente les Vices Évidents définis à la lettre G n°3, le Vendeur remplacera le Produit défectueux par un autre produit ayant des caractéristiques analogues ou supérieures ou, lorsque cela est impossible, à une réduction cohérente du prix. En alternative, l'Acheteur aura droit, après la restitution des Produits défectueux, au remboursement du prix payé, majoré du prix du transport, à l'exclusion du remboursement de tout autre préjudice direct et / ou indirect.

H.4. La garantie du Vendeur doit être réputée exclue au cas où le Produit présentant des Vices Évidents (entièrement ou partiellement) aurait été utilisé et / ou du moins transformé ; dans ce cas, on considérera que l'Acheteur (ou son client) a exprimé la volonté de les accepter en l'état.

H.5. Si l'on a constaté que le Produit présente des Vices Cachés, la garantie du Vendeur se limite au remplacement du matériel par du matériel ayant des caractéristiques analogues ou supérieures et, lorsque cela est impossible, au remboursement du prix payé majoré des frais de transport. En tout état de cause, la garantie du Vendeur couvrant tout dommage direct et / ou indirect causé par le produit défectueux, se limitera à une somme qui ne pourra pas dépasser le double du prix de vente appliqué par le Vendeur dans le cadre de la seule partie de la fourniture défectueuse.

H.6. Si l'Acheteur revend le Produit à des clients protégés par le code de la consommation (Décret–loi italien n° 206/2005) il sera responsable des conditions appliquées si celles-ci diffèrent des conditions indiquées ici et il devra s'assurer que les droits du consommateur sont exercés dans le respect des remèdes et des délais fixés par ce code. Si les conditions sont réunies, le droit de retrait et / ou de recours revenant à l'Acheteur à l'encontre du Vendeur / fabricant ne pourra dépasser ni les exonérations ni les limites établies de la lettre G n°1 à la lettre H n°5.

I. CLAUSES SOLVE ET REPETE ET CLAUSES RÉSOLUTOIRES

I.1. Aux termes de l'art. 1462 du Code Civil italien, en aucun cas, y compris les prétendus vices ou défauts du matériel, l'Acheteur ne pourra suspendre ou retarder le paiement du matériel retiré, sans préjudice naturellement de la faculté d'exiger lorsqu'il est en mesure de démontrer avoir indûment payé.

I.1. En cas de variation des conditions patrimoniales de l'Acheteur ou de non-paiement même partiel de produits déjà fournis, le Vendeur se réserve la faculté de suspendre l'exécution des fournitures en cours et / ou de résilier les contrats sans que l'Acheteur ne puisse revendiquer des indemnisations directes et / ou indirectes d'aucune sorte.

L.- PACTE DE RÉSERVE DE PROPRIÉTÉ

L.1. Tant que l'Acheteur n'aura pas intégralement payé le prix, les Produits objet de la fourniture resteront la propriété du Vendeur.

L.2. Au cours de la susdite période, l'Acheteur assumera les obligations et les responsabilités de gardien, et il ne pourra ni aliéner, ni confier, ni permettre la saisie desdits Produits sans déclarer la propriété du Vendeur et informer immédiatement ce dernier par lettre recommandée avec avis de réception.

M.- FORCE MAJEURE

M.1. Chacune des parties pourra suspendre l'accomplissement de ses obligations contractuelles lorsque cette exécution est rendue impossible ou objectivement trop onéreuse par un empêchement imprévisible indépendant de sa volonté comme : les grèves, les boycottages, les lock-outs, les incendies, les guerres (déclarées ou non), les guerres civiles, les révoltes et les révolutions, les réquisitions, les embargos, les coupures de courant, les ruptures exceptionnelles de machines, les retards de livraison de composants ou de matières premières.

M.2. La partie qui souhaite user de la présente clause devra communiquer immédiatement par écrit à l'autre partie la survenue et la cessation des circonstances de force majeure.

M.3. Si la suspension due à une force majeure dure plus de 60 (soixante) jours, chacune des parties aura le droit de résilier le présent contrat, avec un préavis de 10 (dix) jours, en le communiquant par écrit à la partie adverse.

N.- OBLIGATIONS DE CONFIDENTIALITÉ

N.1. L'Acheteur est tenu d'observer le secret le plus absolu concernant toutes les informations de caractère technique (comme, par exemple, les dessins, les notices, les documentations, les formules et la correspondance) et de caractère commercial (y compris les conditions contractuelles, les prix d'achat, les conditions de paiement, etc.) dont il aurait eu connaissance durant l'exécution du présent Contrat.

N.2. L'obligation de confidentialité est assumée pendant toute la durée du Contrat, ainsi que pour la période successive à son exécution.

N.3. Dans tous cas de non–observation de l'obligation de confidentialité, la partie défaillante est tenue de réparer à l'autre partie tous les éventuels préjudices.

O.- MARQUES ET SIGNES DISTINCTIFS DU VENDEUR

O.1. L'utilisation des marques, des modèles ornementaux et des œuvres de l'esprit en général, sous quelque forme ou suivant quelque modalité d'expression que ce soit (à titre d'exemple, non contraignant : les images, les photos, les dessins, les vidéos, les figures, les structures, etc.) constituant la propriété intellectuelle du Vendeur, à travers tout moyen (à titre d'exemple non contraignant : l'impression, la vidéo, la radio, Internet, les médias sociaux, les plates-formes de messagerie instantanée ou VoIP, etc.) est formellement interdite. Toute dérogation à cette interdiction, même partielle, devra être autorisée par écrit, cas par cas, par la Direction générale du Vendeur.

P.- LANGUE DU CONTRAT, LOI APPLICABLE, JURIDICTION ET COMPÉTENCE

P.1. Le Contrat et les présentes conditions sont rédigés en langue italienne qui prévaudra en cas de divergence avec la traduction dans d'autres langues.

P.2. La définition de toute controverse relative aux fournitures est régie par la loi et la juridiction de l'État italien et les parties reconnaissent la compétence territoriale exclusive du Tribunal de Modène dans la circonscription duquel se trouve le siège légal du Vendeur.

Pour plus de renseignements, consulter les Conditions générales de vente qui sont disponibles à l'adresse www.atlasconcorde.com

Allgemeine Verkaufsbedingungen

A.- MODALITÄT DES VERTRAGSABSCHLUSSES

A.1. Die vorliegenden Allgemeinen Verkaufsbedingungenen regeln alle Verträge zwischen dem Verkäufer und dem Käufer und alle Änderungen oder Abweichungen davon müssen schriftlich vereinbart werden.

A.2. Eventuelle Angebote sowie mit Handelsvertretern oder sonstigen Vermittlern vereinbarten Gutschriften sind nicht verbindlich, es sei denn, sie werden vom Verkäufer schriftlich bestätigt.

A.3. Der Käufer sendet dem Verkäufer direkt oder über Handelsvertreter schriftliche Bestellungen zu, die die Angabe der Artikelnummern der gewünschten Produkte, der Mengen, ihres Preises und der Bestimmung enthalten müssen. Die vom Käufer gesendete Bestellung ist unwiderruflich.

A.4. Der Verkauf gilt zu dem Zeitpunkt als abgeschlossen, an dem: (i) der Käufer vom Verkäufer eine schriftliche Bestätigung per E-Mal, Fax oder auf sonstigem Weg erhält, die den Fristen und Bedingungen der Bestellung entspricht; oder (ii) falls die vom Verkäufer gesendete Bestätigung, Bedingungen enthält, die von der vom Käufer erhaltenen Bestellung abweichen, wenn dieser diese akzeptiert oder nicht innerhalb von 7 (sieben) Tagen ab ihrem Empfang beanstandet; oder (iii) falls keine schriftliche Bestätigung durch den Verkäufer erfolgt, zu dem Zeitpunkt, an dem die Produkte geliefert und vom Käufer übernommen werden.

A.5. Der Käufer teilt die Notwendigkeit, das nationale Gebiet für die Verkäufe der Produkt von Atlas Concorde zu unterteilen. Der Verkäufer hält diese Regel für ein unverzichtbares Element, um es ihm zu gestatten, seine kommerzielle Politik zu koordinieren und sein Vertriebsnetz mit Angeboten für die Erfordernisse der einzelnen Länder zu rationalisieren. Außerdem erkennt der Käufer an, dass diese Notwendigkeit auch zum Schutz der eigenen Interessen dient. Der Käufer verpflichtet sich daher, die von Ceramiche Atlas Concorde SpA gelieferten Produkte ausschließlich in dem Land zu vertreiben, in dem er seinen Firmensitz hat, und den aktiven Verkauf – auch online – an Kunden mit Sitz in einem anderen Staat zu unterlassen. Für Dreiecksgeschäfte wird die vorliegende Pflicht auf das Land angewendet, in dem der Käufer effektiv tätig ist.
Der Käufer kann das Produkt außerhalb seines eigenen Gebiets verkaufen, falls er die schriftliche Genehmigung des Verkäufers einholt, oder falls der Verkauf nicht Produkte erster Wahl oder Produkte außerhalb der Produktion betrifft.

B.- PREISE

B.1. Vorbehaltlich abweichender schriftlicher Vereinbarungen gelten die von Mal zu Mal vereinbarten Verkaufspreise als Nettobarpreise bar mit Lieferung frei ab dem in der Auftragsbestätigung angegebenen Werk des Verkäufers.

C.- EIGENSCHAFTEN DER PRODUKTE

C.1. Der Käufer erklärt, die folgende auf der Web-Site des Unternehmen veröffentlichte Dokumentation zur Kenntnis genommen zu haben und sich an deren Inhalt zu halten: 1) Handbuch zur Verlegung, Benutzung, Reinigung und Pflege, und 2) Technische Datenblätter.

C.2. Aufgrund der intrinsischen Variabilität des Keramikprodukts sind die Eigenschaften der vorausgehend vom Verkäufer an den Käufer gesendeten Warenmuster und/oder Modelle hinweisend und unverbindlich.

C.3. Vorbehaltlich spezifischer Vereinbarungen vor der Auftragsbestätigung garantiert der Verkäufer nicht, dass die Lieferung des einzelnen Artikels vollständig mit dem gleichen Produktionslos ausgeführt wird.

D.- LIEFERFRISTEN

D.1. Die Lieferbedingungen sind richtungsweisend; durch eine eventuelle Verlängerung entsteht für den Käufer ausnahmslos kein Recht auf Schadenersatz.

D.2. Wenn der Käufer das Material nicht innerhalb von 14 (vierzehn) Tagen ab der Mitteilung der Bereitstellung der Ware abholt, ist der Verkäufer aus Platzgründen gezwungen, das Material an die Lagerorte zurückzubringen, wodurch zusätzliche Kosten entstehen; der Verkäufer behält sich das Recht vor, dem Käufer diese zusätzlichen Kosten in Rechnung zu stellen.

E.- RÜCKLIEFERUNG UND VERSAND

E.1. Die eventuelle Änderung des Bestimmungsortes der Produkte, die sich von der in der Auftragsbestätigung vereinbarten unterscheidet, muss vom Käufer schriftlich innerhalb des zweiten Tags vor dem für die Abholung am Sitz des Verkäufers vorgesehenen mitgeteilt werden. Der Verkäufer behält sich das Recht vor, die Änderung der Bestimmung der Produkte nicht zu akzeptieren. Falls sich herausstellt, dass die effektive Bestimmung des Produkts von der vom Käufer angegebenen verschieden ist, behält sich der Verkäufer das Recht vor, die laufenden Lieferungen nicht auszuführen und/oder die laufenden Verträge aufzulösen, ohne dass der Käufer jeglichen Anspruch auf Entschädigung geltend machen kann.

E.2. Vorbehaltlich abweichender Vereinbarungen erfolgt die Lieferung der Ware frei ab Werk (EXW gemäß den Incoterms 2010), und dies auch, falls vereinbart wird, dass der Versand oder ein Teil desselben im Auftrag des Käufers durch den Verkäufer erfolgt. In jedem Fall gehen die Risiken spätestens mit der Übergabe an das erste Transportunternehmen an den Käufer über.

E.3. Unter Beibehaltung der Nichtbeteiligung des Verkäufers am Transportvertrag kann der Verkäufer in der Police der Ladung als „Shipper" angegeben werden. Die Mitteilung des Bruttogewichts des Containers an den Transportunternehmer stellt keine Übernahme der Verantwortung des Verkäufers hinsichtlich der SOLAS-Konvention dar (Safety Of Life At Sea). In keinem Fall kann diese Mitteilung als VGM (Verified Gross Mass) verstanden werden.

E.4. Der Käufer verpflichtet sich sicherzustellen, dass das zu den Lagern des Verkäufers gesendete Fahrzeug unter Berücksichtigung der Natur der Produkte für das Laden geeignet ist. Falls das zum Laden gesendete Fahrzeug größere Probleme beim Beladen bereitet, behält der Verkäufer sich das Recht vor, zur Abdeckung der höheren Logistikkosten eine Vertragsstrafe in Höhe von 4 % des Werts der Produkte zu erheben. Falls das Fahrzeug vollkommen ungeeignet ist, behält sich der Verkäufer das Recht vor, das Verladen zu verweigern, ohne dass der Käufer einen Anspruch auf Vergütung der Schäden geltend machen kann, die direkt und/oder indirekt daraus entstehen können.

E.5. Es ist Aufgabe des Käufers, das Transportunternehmen zu beauftragen und die Produkte vor dem Laden zu kontrollieren; eventuelle Anmerkungen zur Unversehrtheit der Verpackungen und der Übereinstimmung der geladenen Menge mit der in den Transportpapieren angegebenen müssen vom Transportunternehmen zum Zeitpunkt des Ladens vorgenommen werden. Diese Anmerkungen müssen auf alle Exemplaren der Transportpapiere vermerkt werden, anderenfalls gelten die geladenen Produkte als unbeschädigt und vollständig. Daraus folgt, dass der Verkäufer keinerlei Haftung für Fehlmengen oder Beschädigungen der Produkte übernimmt, die vom Transportunternehmen nicht gemeldet werden.

E.6. Es ist ebenfalls Aufgabe des Käufers, das Transportunternehmen zu beauftragen und die Modalität und die Stabilität des Ladens auf das Fahrzeug zu überprüfen, damit es während des Transports nicht zu Brüchen kommt, sowie die Einhaltung der Sicherheitsbestimmungen der Straßenverkehrsordnung zu gewährleisten.

F.- ZAHLUNGEN

F.1. Alle Zahlungsverpflichtung müssen am Firmensitz des Verkäufers erfüllt werden. Eventuelle Zahlungen an Handelsvertreter oder Außendienstmitarbeiter gelten als nicht geleistet, bis sie beim Verkäufer eingehen.

F.2. Es ist dem Käufer untersagt, die Zahlungen aus Ländern vorzunehmen, die vom Land seines Firmensitzes verschieden sind, falls diese Länder keinen angemessenen Informationsaustausch mit Italien gewährleisten. Im Fall der Verletzung dieses Verbots hat der Verkäufer das Recht, den Vertrag aus gutem Grund aufzulösen, ohne dass der Käufer eine Vergütung des entstandenen Schadens geltend machen kann.

F.3. Eventuelle Kosten und Gebühren für die Einziehung von Effekten und Wechseln gehen zu Lasten des Käufers. Im Fall der Nichteinhaltung des für die Zahlung festgesetzten Tags - auch nur partiell - fallen Säumniszinsen zu Gunsten des Verkäufers an, in der vom ital. Gesetzerlass vom 9. Oktober 2002, Nr. 231 vorgesehenen Höhe.

F.4. Vorbehaltlich abweichender schriftlicher Vereinbarungen verpflichtet sich der Käufer, keine Guthaben gegenüber dem Verkäufer zu verrechnen.

G.- BEANSTANDUNGEN

G.1. Beim Empfang der Produkte muss der Käufer sie einer sorgfältigen Sichtkontrolle gemäß den Angaben von Punkt 7 der Normen UNI EN ISO 10545-2 unterziehen.

G.2. Die Installation und die Verlegung der Produkte müssen unter Einhaltung der Empfehlungen zu den Arbeiten ausgeführt werden, die vor und während der Verlegung ausgeführt werden müssen, wie angegeben im Dokument 1) Handbuch zur Verlegung, Verwendung, Reinigung und Pflege, veröffentlicht auf der Web-Site des Verkäufers und angegeben auf der Verpackung des Produkts und/oder im Inneren derselben. Schäden, die durch eine falsche Installation, Verlegung und durch eine unterlassene/falsche Pflege (abweichend von den Angaben in 1) Handbuch zur Verlegung, Reinigung und Wartung), durch eine ungeeignete Gebrauchsbestimmung oder durch normale Abnutzung verursacht werden, werden nicht als Mängel des Produkts anerkannt.

G.3. Vorbehaltlich der Grenzen der Akzeptabilität, die von der internationalen Norm EN 14411 (ISO 13006) vorgesehen sind, erkennen die Parteien Mängel der Produkte als offensichtliche Mängel an, die bereits bei ihrem Empfang festgestellt werden können, die das Material zur Verwendung ungeeignet machen oder die den Wert beträchtlich verringern. In diese Kategorie fallen Mängel, wie im Dokument definiert 1) Handbuch zur Verlegung, Benutzung, Reinigung und Pflege, veröffentlicht auf der Web-Site des Verkäufers. Als nicht erschöpfende Beispiele werden Oberflächenmängel, fehlerhafte Grafik, Defekte polierte Oberfläche, Defekte des Kalibers, der Planarität, der Rechtwinkligkeit/Gradlinigkeit, der Stärke, Risse, abgeschlagene Kanten, Fehlfarbe, gemischte Brandfarbe sowie Produkte mit Kantsplitterung durch Rettifizierung als offensichtliche Mängel anerkannt.

G.4. Falls der Käufer offensichtliche Mängel feststellt, muss er dies dem Verkäufer innerhalb von 8 (acht) Tagen ab dem Empfang schriftlich melden und die gesamte Charge des Materials für den Verkäufer zur Verfügung halten; anderenfalls verfällt der Rechtsanspruch. Bei der Beanstandung müssen die Daten der Rechnung sowie eine präzise Beschreibung des beanstandeten Mangels angegeben werden, falls möglich mit einer fotografischen Dokumentation. Falls die Beanstandung unberechtigt sein sollte, ist der Käufer gehalten, dem Verkäufer die für einen eventuellen Ortstermin aufgewendeten Kosten (Gutachten, Reisekosten, usw.) zu erstatten.

G.5. Versteckte Mängel müssen dem Verkäufer innerhalb von 8 (acht) Tagen ab Feststellung des Mangels per Einschreiben mit Rückschein gemeldet werden: anderenfalls verfällt der Rechtsanspruch.

G.6. Die Aktion des Käufers zur Inanspruchnahme der Mängelhaftung muss in jedem Fall innerhalb von 12 (zwölf) Monaten ab der Lieferung der Produkte erfolgen.

H.- MÄNGELHAFTUNG

H.1. Die Garantie des Verkäufers ist begrenzt auf Produkte erster Qualität und sie bezieht sich nicht auf Produkte zweiter oder dritter Qualität oder auf gelegentliche Partien mit besonderen Preisen oder Nachlässe, die in der Auftragsbestätigung angegeben werden.

H.2. Der Verkäufer garantiert nicht die Eignung der Produkte für besondere Verwendungen, sondern lediglich die technischen Eigenschaften, die auf der Web-Site in Dokument 2) Technische Datenblätter veröffentlicht sind. Die Angabe zur Verwendung ist als unverbindlich anzusehen, auch wenn vom Verkäufer in Katalogen und Handbüchern angegeben ist. Es ist stets Aufgabe des Planers, auf der Grundlage der in den 2) Technischen Datenblättern angegebenen Eigenschaften die Eignung des Produkts für spezifische Nutzungsbedingungen zu bewerten, unter Berücksichtigung der Belastungen sowie der Variablen, die am Ort der Bestimmung auftreten und die Eigenschaften verändern können, wie zum Beispiel die Intensität des Verkehrs, die Qualität des Verkehrs (Begehung bei Vorhandensein von Sand, Schmutz usw.), die eventuellen klimatischen Bedingungen sowie alle sonstigen Einflüsse, denen das Material ausgesetzt sein kann.

H.3. Falls festgestellt wird, dass das Produkt offensichtliche Mängel aufweist, wie definiert in Punkt G, Nr. 3, nimmt der Verkäufer die Ersetzung des mangelhaften Produkts durch ein anderes mit gleichen oder höherwertigen Eigenschaften vor, oder er nimmt eine angemessene Reduzierung des Preises vor, falls dies nicht möglich ist. Alternativ hat der Käufer nach Rücklieferung der mangelhaften Produkte das Recht auf Rückerstattung des bezahlten Preises, zuzüglich der Transportkosten, mit Ausschließung der Vergütung aller direkten und/oder indirekten Schäden.

H.4. Die Garantie des Verkäufer wird ausgeschlossen, falls das mangelhafte Produkt (ganz oder teilweise) verwendet und/oder umgewandelt worden ist, da davon ausgegangen wird, dass der Käufer (oder sein Kunde) dadurch seinen Willen zum Ausdruck gebracht hat, es in dem Zustand zu akzeptieren, in dem es sich befindet.

H.5. Falls festgestellt wird, dass das Produkt versteckte Mängel aufweist, ist die Garantie des Verkäufers auf die Ersetzung des Materials durch anderes mit gleichen oder höherwertigeren Eigenschaften beschränkt oder - falls dies nicht möglich ist - auf die Rückerstattung des bezahlten Preises, zuzüglich der Transportkosten. In jedem Fall ist die Garantie des Verkäufers für alle direkten und/oder indirekten Schäden, die durch das mangelhafte Produkt entstehen, auf einen Betrag begrenzt, der das Doppelte des Verkaufspreises nicht übersteigen kann, den der Verkäufer auf den mangelhaften Teil der Lieferung angewendet hat.

H.6. Falls der Käufer das Produkt an Kunden weiterverkauft, die vom Verbraucherschutzgesetz (ital. Gesetzerlass Nr. 206/2005) geschützt werden, ist er verantwortlich für die angewendeten Bedingungen, falls diese von den hier angegebenen abweichen, und er muss sicherstellen, dass die Rechte des Verbrauchers gemäß den Bestimmungen dieses Gesetzes ausgeübt werden können. Falls die Voraussetzungen gegeben sind, kann das Regressrecht des Käufers gegenüber dem Verkäufer/Hersteller nicht die Grenzen übersteigen, die von Punkt G, Nr. 1 bis Punkt H, Nr. 5 angegeben werden.

I. KLAUSEL SOLVE ET REPETE UND AUFLÖSUNGSKLAUSEL

I.1. Gemäß den Bestimmungen von § 1462 des ital. Bürgerlichen Gesetzbuches kann der Käufer in keinem Fall - einschließlich von vermeintlichen Mängeln oder Defekten des Materials - die Zahlung des abgenommenen Materials aussetzen oder verzögern, natürlich vorbehaltlich des Rechts, ungerechtfertigt gezahlte Beträge zurückzufordern, und dies nur nach Erbringung des Nachweises der Rechtmäßigkeit der Forderung (Solve et Repete).

I.2. Im Fall der Veränderung der Vermögensbedingungen des Käufers oder der auch nur partiellen Nichtbezahlung der bereits gelieferten Produkte kann der Verkäufer die laufenden Lieferungen aussetzen und/oder die laufenden Verträge auflösen, ohne dass der Käufer die Vergütung von direkten und/oder indirekten Schäden geltend machen kann.

L.- EIGENTUMSVORBEHALT

L.1. Bis zur vollständigen Bezahlung des Preises durch den Käufer bleiben die Produkte, die den Gegenstand der Lieferung darstellen, Eigentum des Verkäufers.

L.2. Während dieses Zeitraums übernimmt der Käufer die Pflichten und die Verantwortlichkeiten für die Aufbewahrung der gekauften Produkte und er kann sie nicht veräußern, zur Nutzung überlassen oder beschlagnahmen oder pfänden lassen, ohne das Eigentum des Verkäufers anzugeben und ohne diesen umgehend per Einschreiben mit Rückschein zu benachrichtigen.

M.- HÖHERE GEWALT

M.1. Beide Parteien können die Ausführung der vertraglichen Pflichten aussetzen, wenn die Ausführung aus Gründen, die vom eigenen Willen unabhängig sind, unmöglich oder objektiv zu aufwendig wird, wie zum Beispiel: Streiks, Boykott, Aussperrung, Brand, Krieg (erklärt oder nicht), Bürgerkrieg, Aufstände und Revolutionen, Beschlagnahme, Embargo, Unterbrechungen der Energieversorgung, außerordentliche Defekte von Maschinen, Verspätung bei der Anlieferung von Komponenten und Rohstoffen.

M.2. Die Partei, die beabsichtigt, die vorliegende Klausel in Anspruch zu nehmen, muss der anderen Partei schriftlich das Auftreten von Umständen der Höheren Gewalt mitteilen.

M.3. Falls die Aussetzung aufgrund von Höherer Gewalt mehr als 60 (sechzig) Tage andauert, haben beiden Parteien das Recht, den vorliegenden Vertrag nach einer schriftlichen Vorankündigung von 10 (zehn) Tagen an die Gegenpartei aufzulösen.

N.- VERTRAULICHKEITSPFLICHT

N.1. Der Käufer ist gehalten, über alle technischen Informationen (wie zum Beispiel Zeichnungen, Prospekte, Dokumentationen, Formeln und Schriftverkehr) und kommerziellen Informationen (einschließlich der Vertragsbedingungen, der Kaufpreise, der Zahlungsbedingungen usw.), in deren Kenntnis während der Ausführung des vorliegenden Vertrages kommt, absolute Vertraulichkeit einzuhalten.

N.2. Die Vertraulichkeitspflicht wird für die Dauer des Vertrages sowie den Zeitraum nach seiner Ausführung übernommen.

N.3. Im Fall der Nichteinhaltung der Vertraulichkeitspflicht ist die nicht einhaltende Partei gehalten, der anderen Partei alle daraus entstehenden Schäden zu vergüten.

O.- MARKEN UND KENNZEICHNUNGEN DES VERKÄUFERS

O.1. Die Verwendung von Marken, Ziermotiven und geistigem Eigentum im Allgemeinen in jeder Form sowie jeder Ausdrucksform (als nicht erschöpfendes Beispiel: Bilder, Fotos, Zeichnungen, Filme, Abbildungen, Strukturen usw.), die intellektuelles Eigentum des Verkäufers sind, ist auf jede Weise (als nicht erschöpfendes Beispiel: Presse, Video, Radio, Internet, Social Media, Instant-Message-Plattform oder VoIP usw.) strengstens untersagt. Alle - auch nur partielle - Abweichungen von diesem Verbot müssen von Fall zu Fall schriftlich von der Generaldirektion des Verkäufers autorisiert werden.

P.- SPRACHE DES VERTRAGS, ANWENDBARES RECHT, RECHTSPRECHUNG UND GERICHTSSTAND

P.1. Der Vertrag und die vorliegenden Bedingungen werden in italienischer Sprache verfasst, die im Fall der Abweichung der Übersetzung in andere Sprachen Vorrang hat.

P.2. Die Regelung aller Rechtssachen hinsichtlich den Lieferungen unterliegt der Rechtsprechung des italienischen Staats und die territoriale Zuständigkeit liegt ausschließlich beim Bezirksgericht Modena, dem Ort des Firmensitzes des Verkäufers.

Weitere Informationen entnehmen Sie bitte den Allgemeinen Geschäftsbedingungen, die unter der Adresse www.atlasconcorde.com zur Verfügung stehen.

Condiciones generales de venta

A.- MODALIDADES DE CELEBRACIÓN DEL CONTRATO

A.1. Las presentes Condiciones Generales de Venta disciplinan todo contrato de venta entre el Vendedor y el Comprador y toda modificación o cancelación debe ser establecida por escrito.

A.2. Eventuales ofertas, acreditaciones y/o descuentos otorgados por agentes u otros intermediarios, no son considerados válidos mientras no sean confirmados por escrito por el Vendedor.

A.3. El Comprador envía al Vendedor, directamente o a través de agentes, pedidos por escrito que deben contener la indicación de los códigos de los productos requeridos, de las cantidades, de sus precios y de su destino. El pedido enviado por el Comprador es irrevocable.

A.4. La venta deberá considerarse perfeccionada desde el momento en que: (a) el Comprador recibe por parte del Vendedor una confirmación -escrita a través de e-mail, fax u otros medios telemáticos- conforme con los términos y según las condiciones del pedido; o (b) en caso de confirmación enviada por el Vendedor que contenga condiciones diferentes de las del pedido enviado por el Comprador cuando este las acepte por escrito o, en todo caso, no las cuestione dentro de los 7 (siete) días sucesivos a la recepción; o (c) en ausencia de confirmación escrita por el Vendedor, en el momento en que los productos serán entregados y serán cargados por el Comprador.

A.5. El Comprador comprende y acepta la necesidad de limitar al territorio nacional las ventas de los productos Atlas Concorde. El Vendedor estima que esta norma constituye un factor indispensable para poder coordinar su política comercial y racionalizar la red de distribución, con ofertas más orientadas a los requerimientos de cada país. De igual modo, el Comprador reconoce que este requerimiento constituye también salvaguardia de sus propios intereses. Por lo tanto, el Comprador se obliga a comercializar los productos suministrados por Ceramiche Atlas Concorde SpA exclusivamente en su país de residencia, absteniéndose de promover ventas activas, solicitadas incluso online, respecto a clientes domiciliados en el territorio de cualquier otro país que no sea el propio. Para operaciones triangulares esta obligación se aplica al país de operatividad efectiva del Comprador.

El Comprador podrá revender el producto fuera de su propio territorio en caso de recibir autorización por escrito por parte del Vendedor o en caso de que la reventa se refiera a productos que no sean de primera selección o que estén fuera de producción.

B.- PRECIOS

B.1. Salvo acuerdo escrito en contrario, los precios de venta acordados de manera puntual se entienden al neto en efectivo y para entrega en el establecimiento del Vendedor indicado en la confirmación del pedido.

C.- CARACTERÍSTICAS DE LOS PRODUCTOS

C.1. El Comprador declara haber visto y atenerse al contenido de la siguiente documentación publicada en el sitio internet de la empresa: 1) Manual de Colocación, Uso, Limpieza y Mantenimiento y 2) Fichas Técnicas.

C.2. Dada la intrínseca variabilidad del producto cerámico, las características de las muestras y/o modelos enviados anteriormente por el Vendedor al Comprador deben ser considerados como aproximados y no vinculantes.

C.3. Salvo especificaciones requeridas, a acordar antes de la confirmación del pedido, el Vendedor no garantiza que el pedido de un artículo en particular sea despachado como un mismo lote de producción.

D.- PLAZOS DE ENTREGA

D.1. Los plazos de entrega son orientativos y su demora no conlleva derecho alguno a solicitar indemnización alguna por parte del comprador, sin excepciones.

D.2. Si el comprador no recogiera el material transcurridos 14 (catorce) días desde la fecha del aviso de estar lista la mercancía, por necesidad de espacio el vendedor se verá obligado a devolver dicho material al almacén, lo que conlleva unos costes añadidos reservándose el mismo la facultad de cargarlos al comprador.

E.- ENTREGA Y TRANSPORTE

E.1. La eventual variación de lugar de destino de los productos, señalando uno diferente respecto de aquel acordado en la confirmación de pedido, debe ser comunicada por el Comprador por escrito dentro del plazo máximo taxativo del penúltimo día previo al retiro desde el establecimiento del Vendedor. El Vendedor se reserva la facultad de no aceptar el cambio de lugar de destino de los Productos. En caso de verificarse que el destino efectivo del producto sea diferente de aquel declarado por el Comprador, el Vendedor se reserva la facultad de suspender la realización de los suministros en curso y/o de rescindir los contratos en curso sin que el Comprador pueda pedir resarcimientos directos y /o indirectos de ningún tipo.

E.2. Salvo acuerdo en contrario, el suministro de la mercancía se entiende ex Works (EXW según Incoterms 2010) y ello también cuando se acuerde que el transporte o parte de él quede a cargo del Vendedor, según mandato del Comprador. En todo caso, los riesgos se transfieren al Comprador a más tardar con la entrega al primer transportador.

E.3. Como confirmación del hecho de que el Vendedor es ajeno al contrato de transporte, el mismo no podrá ser indicado como “shipper” en la póliza de carga. La comunicación del peso bruto del contenedor al transportista no comporta ninguna asunción de responsabilidad de parte del Vendedor para los fines del Convenio SOLAS (Safety Of Life At Sea). De ninguna manera la antedicha comunicación podrá ser considerada como VGM (Verified Gross Mass).

E.4. El Comprador se compromete a fin de que el vehículo enviado al establecimiento del Vendedor sea idóneo para cargar considerando la naturaleza de los productos. En caso de que el vehículo que se presenta comporte significativas dificultades para las operaciones de carga, el Vendedor se reserva el derecho a incluir una recarga del 4 % del valor de los productos a cobertura de los mayores costos logísticos. Si el vehículo enviado para retirar la mercancía no es absolutamente idóneo, el Vendedor se reserva la facultad de negar las operaciones de carga sin que nada pueda requerir el Comprador a título de resarcimiento por todo eventual costo directo y/o indirecto que de ello pueda derivar.

E.5. Es tarea del Comprador encargar al transportista controlar los productos antes de cargarlos; eventuales observaciones sobre la integridad de los embalajes y la exactitud de las cantidades cargadas, así como aquellas puestas en el documento de transporte, deben ser presentadas por el transportista en el momento de cargar. Estas observaciones deben ser reproducidas en todas las copias de los documentos de transporte; de lo contrario los productos cargados se entienden íntegros y completos. De ello deriva que el Vendedor no se asume ninguna responsabilidad con referencia a faltas o daños en los productos no señalados por el transportista.

E.6. Asimismo, es responsabilidad del Comprador encargar al transportista verificar las modalidades y la estabilidad de la carga sobre el vehículo a fin de que durante el transporte no se produzcan roturas y que sean respetadas todas las disposiciones sobre seguridad relativas a la circulación por vías públicas.

F.- PAGOS

F.1. Toda obligación de pago debe ser cumplida en la sede legal del Vendedor. Eventuales pagos a agentes, representantes o auxiliares de comercio no se entienden efectuadas mientras las respectivas sumas no lleguen a poder del Vendedor.

F.2. Queda prohibido para el Comprador cumplir su propia obligación mediante pagos provenientes de países que no sean su propio país de residencia si se trata de países que no garantizan adecuado intercambio de informaciones con Italia. En caso de violación de esta prohibición, el Vendedor tiene facultad de rescindir el contrato por justa causa sin que el Comprador pueda pretender derecho de obtener algún resarcimiento por eventual daño sufrido.

F.3. Eventuales gastos de sello fiscal y de cobro de letras de cambio y efectos comerciales quedan a cargo del Comprador. En caso de incumplimiento, incluso solo parcial, del día fijado para el pago, se devengarán a favor del Vendedor los intereses de mora en la medida prevista por el Decreto Leg. nº 231 del 09/10/2002.

F.4. Salvo acuerdos escritos que lo contradigan, el Comprador se compromete a no compensar ningún crédito de cualquier forma creado respecto del Vendedor.

G.- RECLAMOS

G.1. Al recibir los productos, el Comprador deberá someterlos a cuidadoso control a través de un examen visual efectuado conforme según las indicaciones del punto 7.4 de las normas UNI EN ISO 10545-2.

G.2. La instalación y colocación de los productos deberá efectuarse respetando escrupulosamente las recomendaciones inherentes a las actividades a realizar antes y durante la colocación, indicadas en el documento 1) Manual de Colocación, Uso, Limpieza y Mantenimiento publicado en el sitio internet del Vendedor y en el embalaje del producto y/o en el interior del mismo. No son considerados como vicios del producto aquellos generados por una errónea instalación y error/falta de mantenimiento (intervenciones diferentes de las instrucciones proporcionadas en el 1) Manual de Colocación, Uso, Limpieza y Mantenimiento), por un uso inapropiado y/o por el normal desgaste con el pasar del tiempo.

G.3. Sin perjuicio de los límites de aceptabilidad previstos por la norma internacional EN 14411 (ISO 13006), las partes reconocen como vicios evidentes los defectos de los productos constatables ya en el momento de su recepción y tales que impidan el uso previsto del material o reduzcan de modo apreciable su valor. Forman parte de esta categoría los defectos precisamente establecidos en el documento 1) Manual de Colocación, Limpieza y Mantenimiento publicado en el sitio internet del Vendedor. A título solo de ejemplo, se reconocen como vicios evidentes los defectos superficiales, los defectos de decoración, de lapeado/pulido, de calibre, de planitud, de ortogonalidad-rectilineidad, de espesor, las grietas, los astillados, las variaciones de tono, los tonos mezclados y los productos que presentan problemas de cortes/escamas.

G.4. En caso de que el Comprador observe la presencia de vicios evidentes, deberá presentar reclamo al Vendedor por escrito, so pena de extinción del derecho, dentro de los 8 (ocho) días sucesivos a la recepción y mantener a disposición del Vendedor la partida completa de material. El reclamo deberá indicar los datos de facturación y una precisa descripción del vicio observado incluyendo, en lo posible, imágenes fotográficas. En caso de que el reclamo debiera demostrarse luego ser infundado, el Comprador se declara dispuesto a resarcir al Vendedor por los gastos efectuados para realizar la respectiva constatación en situ (peritajes, viajes, etc.).

G.5. Los vicios ocultos deberán ser notificados al Vendedor mediante carta certificada con aviso de recibo, bajo pena de caducidad de la garantía, dentro de los 8 (ocho) días a contar de la fecha del descubrimiento del defecto.

G.6. La acción del Comprador tendiente a hacer valer la garantía por vicios prescribe, en todo caso, en el plazo de 12 (doce) meses a contar de la entrega de los productos.

H.- GARANTÍA POR VICIOS

H.1. La garantía del Vendedor se entiende limitada solo a los productos de primera selección y no a los productos de segunda o tercera selección o de partidas de ocasión con precios o descuentos especiales cuando ello se encuentra debidamente señalados en nota en la confirmación del pedido.

H.2. El Vendedor no garantiza la idoneidad de los productos para usos particulares, sino solo las características técnicas publicadas en el sitio internet, documento 2) Fichas Técnicas. La indicación de uso, incluso cuando es presentada por el Vendedor en catálogos y manuales, debe considerarse solo como genérica. Sobre la base de las características técnicas señaladas en las 2) Fichas Técnicas, es siempre tarea del proyectista evaluar la idoneidad del producto en función de las condiciones específicas de uso en consideración de las solicitaciones y de las variables que pueden operar en el ambiente de destino, alterando sus características; a título de ejemplo: la intensidad del tráfico, la calidad del tráfico (tránsito en presencia de arena, de detritos, etc.), las eventuales condiciones climáticas adversas y cualquier otro factor aleatorio al que puede quedar expuesto el material.

H.3. En caso de comprobarse que el producto manifieste vicios evidentes, tal como han sido definidos en la letra G nº. 3, el Vendedor procederá a sustituir el producto defectuoso con otro con características iguales o superiores o, en el caso de que ello no sea posible, deberá efectuar una congrua reducción del precio. Como alternativa, el Comprador tendrá derecho, previa devolución de los productos viciados, al reembolso del precio pagado, agregándose el costo del transporte, con exclusión del resarcimiento de todo otro daño, directo y/o indirecto.

H.4. La garantía del Vendedor debe considerarse excluida en caso de que el producto que presenta vicios evidentes (total o parcialmente) haya sido utilizado y/o, en cualquier caso, transformado, debiéndose estimar que de tal modo el Comprador (o su cliente) ha expresado la voluntad de aceptarlo en el estado en que se encuentra.

H.5. En los casos en que quede comprobado que el producto presenta vicios ocultos, la garantía del Vendedor queda limitada a la sustitución del material con otro de características iguales o superiores y, allí donde ello no sea posible, al reembolso del precio pagado, agregándose el costo del transporte. En todo caso, la garantía del Vendedor por cada daño directo y/o indirecto de cualquier forma derivado de producto defectuoso, debe entenderse limitada a una suma que no podrá superar el doble del precio de venta aplicado por el Vendedor, con referencia solo a la parte defectuosa del suministro.

H.6. En caso de que el Comprador revenda el producto a terceros protegidos por el código del consumo (D.L. nº. 206/2005), será responsable de las condiciones practicadas si son diferentes de aquellas aquí señaladas y deberá comprobarse que los derechos del consumidor sean ejercidos con aplicación de los remedios y de los términos fijados por el antedicho código. En caso de subsistir las condiciones, el derecho de devolución y/o, en todo caso, de compensación a favor del Comprador respecto del Vendedor/productor, no podrán excederse las exenciones ni límites establecido en la letra G del nº. 1 y en la letra H nº. 5.

I. CLÁUSULAS SOLVE ET REPETE Y RESOLUTIVAS

I.1. De conformidad con lo dispuesto por el art. 1462 del Código Civil, por ningún motivo, incluidos supuestos vicios o defectos del material, el Comprador podrá suspender o retardar el pago del material retirado, sin perjuicio obviamente de la facultad de restitución cuando pueda demostrar que ha pagado indebidamente.

I.2. En el caso de cambiar las condiciones patrimoniales del Comprador o de falta de pago incluso parcial de productos ya suministrados, el Vendedor podrá suspender la realización de los suministros en curso y/o rescindir los contratos en curso sin que el Comprador pueda reivindicar resarcimientos directos ni indirectos de cualquier clase.

L.- PACTO DE RESERVADO DOMINIO

L.1. Mientras el Comprador no haya efectuado el pago integral del precio, los productos objeto del suministro seguirán siendo de propiedad del Vendedor.

L.2. Durante el período antedicho, el Comprador asumirá las obligaciones y las responsabilidades del depositario y no podrá enajenar, entregar en uso ni dejar retener o embargar los productos sin declarar la propiedad del Vendedor y enviar inmediatamente aviso con carta certificada con aviso de recibo.

M.- FUERZA MAYOR

M.1. Cada parte podrá suspender la ejecución de sus obligaciones contractuales cuando esa ejecución se haga imposible u objetivamente demasiado onerosa por impedimento imprevisible independiente de su voluntad, tal como por ejemplo: huelga, boicot, bloqueo, incendio, guerra (declarada o no declarada), guerra civil, rebelión y revolución, requisición, embargo, interrupción de energía, rotura extraordinaria de maquinaria, retraso en la entrega de componentes o materias primas.

M.2. La parte que desee valerse de la presente cláusula deberá comunicar de inmediato por escrito a la otra parte el verificarse y el cese de las circunstancias de fuerza mayor.

M.3. En caso de que la suspensión causada por fuerza mayor dure más de 60 (sesenta) días, cada una de las partes tendrá derechos de rescindir el presente contrato, con preaviso de 10 (diez) días, a comunicar a la otra parte por escrito.

N.- OBBLIGACIÓN DE CONFIDENCIALIDAD

N.1. El Comprador debe mantener la más absoluta confidencialidad respecto de todas las informaciones de carácter técnico (tales como, solo como ejemplo, diseños, prospectos, documentaciones, fórmulas y correspondencia) y de carácter comercial (incluidas las condiciones contractuales, los precios de compra, las condiciones de pago, etc.) obtenidas a propósito de la ejecución del presente contrato.

N.2. La obligación de confidencialidad es válida por toda la duración del contrato, así como por el periodo sucesivo a su ejecución.

N.3. En cualquier caso de inobservancia de la obligación de confidencialidad, la parte incumplidora deberá indemnizar a la otra por todos los daños que de ello puedan derivar.

O.- MARCAS Y SIGNOS DISTINTIVOS DEL VENDEDOR

O.1. Queda severamente prohibido el uso a través de cualquier medio (tales como, solo a título de ejemplos no exhaustivos: prensa, videos, radio, internet, social media, plataformas de mensajería instantánea o VoIP, etc.) de las marcas, de los modelos ornamentales y de las obras del ingenio en general que constituyan propiedad intelectual del Vendedor y ello en cualquier forma o modo de expresión (tales como, solo a título de ejemplos no exhaustivos: imágenes, fotos, dibujos, videos, figuras, estructuras, etc.). Cualquier excepción a esta prohibición, incluso solo parcial, deberá ser autorizada caso por caso por escrito por la dirección general del Vendedor.

P.- IDIOMA DEL CONTRATO, LEY APLICABLE, JURISDICCIÓN Y COMPETENCIA

P.1. El contrato y las presentes condiciones son redactados en lengua italiana, la cual prevalecerá en caso de divergencia con las traducciones en otros idiomas.

P.2. La resolución de cualquier controversia de cualquier forma relativa al suministro queda sujeta a la ley y a la jurisdicción del Estado Italiano y la competencia territorial es asignada de forma exclusiva al Tribunal de Módena, en cuya circunscripción el Vendedor tiene su domicilio legal.

Para mayor información, consultar las Condiciones Generales de Venta, disponible en la dirección www.atlasconcorde.com

Общие условия продажи

A.- ПОРЯДОК ЗАКЛЮЧЕНИЯ ДОГОВОРА

A.1. Настоящие Общие условия продажи регулируют любой договор продажи, заключенный между Продавцом и Покупателем; любое изменение или отступление от них должно быть согласовано в письменной форме.

A.2. Возможные коммерческие предложения, зачисления и/или бонусы, предоставленные агентами или другими посредниками, не имеют силы, если они не были подтверждены в письменной форме Продавцом.

A.3. Покупатель направляет Продавцу непосредственно или через агентов письменные заказы, в которых должны быть указаны коды запрошенной продукции, количества, цены и место назначения. Отправленный Покупателем заказ отмене не подлежит.

A.4. Продажа считается завершенной в тот момент, когда: (i) Покупатель получает от Продавца по электронной почте, факсу или другим телематическим средствам связи письменное подтверждение, соответствующее срокам и условиям заказа; или (ii) в случае, если в отправленном Продавцом подтверждении указаны условия, отличающиеся от условий в заказе Покупателя, если Покупатель письменно принимает это подтверждение или не возражает на него в течение 7 (семи) дней после его получения; или (iii) при отсутствии письменного подтверждения Продавца, в тот момент, когда Продукция передается Покупателю и загружается им.

A.5. Покупатель соглашается с необходимостью ограничить территорию продажи продукции Atlas Concorde государственными границами. Продавец считает это правило необходимым элементом, который позволит ему координировать свою коммерческую политику и оптимизировать дистрибутивную сеть посредством предложений, которые будут больше соответствовать необходимостям отдельных стран. Аналогично этому, Покупатель соглашается, что эта необходимость представляет собой защиту также и его интересов. Таким образом, Покупатель обязуется реализовывать продукцию, поставленную компанией Ceramiche Atlas Concorde SpA, лишь только в его стране, воздерживаясь от продвижения активной продажи, также онлайновой, клиентам, находящимся на территории другой страны. В операциях триангуляции данное обязательство распространяется на страну, в которой ведется реальная оперативная деятельность Покупателя.

Покупатель сможет перепродать продукцию за пределами своей территории в том случае, если он получит письменное разрешение Продавца, или же в случае перепродажи продукции не первого сорта или снятой с производства.

B.- ЦЕНЫ

B.1. При отсутствии иных письменных договоренностей согласованные в каждом отдельном случае отпускные цены подразумеваются как цены нетто, за наличный расчет и на условиях поставки франко завод Продавца, указанный в подтверждении заказа.

C.- ХАРАКТЕРИСТИКИ ПРОДУКЦИИ

C.1. Покупатель заявляет, что он ознакомился и придерживается содержания следующей документации, размещенной на корпоративном сайте в интернете: 1) Руководство по укладке, использованию, чистке и уходу и 2) Технические данные.

C.2. Учитывая свойственное непостоянство керамической продукции, характеристики образцов и/ моделей, ранее отправленных Продавцом Покупателю, должны считаться ориентировочными и не обязывающими.

C.3. При отсутствии специальных требований, которые должны быть оговорены до подтверждения заказа, Продавец не гарантирует, что заказ на отдельное изделие будет полностью состоять из одной и той же производственной партией.

D.- СРОКИ ПОСТАВКИ

D.1. Сроки поставки являются ориентировочными: их продление не дает Покупателю права на запрос компенсаций, без каких-либо исключений.

D.2. Если по истечении 14 (четырнадцати) дней с даты уведомления о готовности товара Покупатель не заберет материал, Продавец будет вынужден, по причине занимаемой площади, вернуть материал на склад, что приведет к дополнительным расходам; Продавец оставляет за собой право взыскать такие дополнительные расходы с Покупателя.

E.- ДОСТАВКА И ОТГРУЗКА

E.1. О возможном изменении места назначения Продукции, если оно отличается от места, согласованного в подтверждении заказа, необходимо сообщить Продавцу в письменной форме не позднее, чем за два дня до даты, предусмотренной для вывоза товара с завода Продавца. Продавец оставляет за собой право не принимать изменение места назначения Продукции. Если устанавливается, что фактическое место назначения Продукции отличалось от заявленного Покупателем, то Продавец оставляет за собой право на приостановку исполнения текущих поставок и/или на расторжение текущих договоров без права Покупателя на требование прямого или косвенного возмещения какого-либо типа.

E.2. При отсутствии иных договоренностей поставка товара подразумевается на условиях франко-завод (EXW в соответствии с правилами Incoterms 2010), даже если было согласовано, что отгрузка или ее часть должна осуществляться Продавцом по поручению Покупателя. В любом случае риск переходит к Покупателю не позднее чем при передаче товара первому грузоперевозчику.

E.3. Исходя из того, что Продавец не является стороной договора перевозки, в коносаменте не допускается указание Продавца как "грузоотправителя". Сообщение Продавцом грузоперевозчику веса брутто контейнера не является принятием на себя ответственности в соответствии с конвенцией СОЛАС (Safety Of Life At Sea). Это сообщение не может ни в коем случае толковаться как проверка массы груженых контейнеров VGM (Verified Gross Mass).

E.4. Покупатель обязуется направить на склад Продавца транспортное средство, пригодное для погрузки Продукции данного типа. Если прибывшее транспортное средство значительно затрудняет выполнение погрузочных операций, то Продавец оставляет за собой право наложить пеню в размере 4% от стоимости продукции за возмещение более высоких логистических расходов. Если согласованное транспортное средство является совершенно неподходящим, Продавец оставляет за собой право отказать в выполнении погрузочных операций, при этом Покупатель не может требовать возмещения вытекающего из этого любого прямого и/или косвенного убытка.

E.5. Покупатель обязан поручить грузоперевозчику проверку продукции перед ее погрузкой. Возможные замечания о целостности упаковки и о соответствии загруженных количеств тем, которые указаны в транспортной накладной, должны быть сделаны грузоперевозчиком в момент погрузки. Эти замечания необходимо указать во всех копиях транспортных накладных, в противном случае погруженная продукция считается неповрежденной и комплектной. Из этого следует, что Продавец не несет никакой ответственности за недостачи или повреждения продукции, не отмеченные грузоперевозчиком.

E.6. Кроме того, Покупатель также обязан поручить грузоперевозчику проверку порядка погрузки и стабильности груза в транспортном средстве, чтобы во время перевозки не возникли повреждения, и чтобы были соблюдены все правила безопасности дорожного движения.

F.- ОПЛАТА

F.1. Любые платежные обязательства должны выполняться по юридическому адресу Продавца.Оплата агентам, представителям или торговым помощникам считается несовершенной до тех пор, пока соответствующие суммы не поступят Продавцу.

F.2. Покупателю запрещается выполнять свои обязательства путем оплаты из стран, не являющихся страной, резидентом которой он является, если эти страны не гарантируют адекватный обмен информацией с Италией. В случае нарушения этого запрета Продавец имеет право на расторжение договора с надлежащим правовым основанием, а у Покупателя не возникнет право на получение какого-либо возмещения за понесенный ущерб.

F.3. Пошлины и расходы на инкассирование векселей и тратт несет Покупатель. В случае даже частичной задержки платежа по сравнению с назначенным днем оплаты в пользу Продавца будут начисляться проценты в размере, предусмотренном законодательным декретом от 09/10/2002 № 231.

F.4. При отсутствии иных письменных договоренностей Покупатель обязуется не компенсировать никакой кредит по отношению к Продавцу, вне зависимости от причин его возникновения.

G.- ПРЕТЕНЗИИ

G.1. При получении Продукции Покупатель должен внимательно осмотреть ее в соответствии с указаниями п. 7 стандарта UNI EN ISO 10545-2

G.2. При установке и укладке Продукции необходимо внимательно придерживаться рекомендаций по работам, выполняемым до и во время укладки, приведенных в документе 1) Руководство по укладке, использованию, чистке и уходу, размещенном на сайте Продавца в интернете, а также рекомендаций, указанных на упаковке изделия и/или приведенных внутри упаковки. Не считаются дефектами Продукции дефекты, возникшие в результате неправильной установки, отсутствия / неправильного ухода (не в соответствии с указаниями, приведенными в 1) Руководстве по укладке, использованию, чистке и уходу), по причине неподходящей сферы применения и/или обычного износа с течением времени.

G.3. Соблюдая пределы приемлемости, предусмотренные международным стандартом EN 14411 (ISO 13006), стороны признают как явные дефекты те дефекты Продукции, которые были заметными уже при ее получении, и которые делают материал неподходящим для применения или существенно снижают его ценность. В эту категорию входят дефекты в соответствии с определением, приведенным в документе 1) Руководство по укладке, использованию, чистке и уходу, размещенном на сайте Продавца в интернете. В качестве неисчерпывающего перечня признаются как явные дефекты следующие: дефекты поверхности, декора, шлифовки/полировки, калибра, плоскостности, ортогональности-прямолинейности, толщины, трещины, сколы, несоответствие тона, смешение тона, а также изделия с дефектами резки и сколами.

G.4. Если Покупатель обнаруживает явные дефекты, то он должен предъявить претензию Продавцу в письменном виде в течение 8 (восьми) дней с момента получения Продукции, в противном случае он теряет право на претензию, кроме того, Покупатель должен оставить всю партию материала в распоряжении Продавца. В претензии необходимо указать данные инвойса и точное описание дефекта, сопровождая его, если это возможно, фотографиями. Если претензия окажется необоснованной, то Покупатель должен быть готовым возместить Продавцу расходы, понесенные им в связи с осмотром на месте (экспертизы, проезд и т.д.).

G.5. О скрытых дефектах необходимо сообщать Продавцу заказным письмом с уведомлением о вручении в течение не более 8 (восьми) дней с момента обнаружения дефекта, в противном случае гарантия теряет силу.

G.6. В любом случае, предоставленная Покупателю гарантия на дефекты теряет силу по истечении 12 (двенадцати) месяцев с момента получения Продукции.

H.- ГАРАНТИЯ НА ДЕФЕКТЫ

H.1. Гарантия Продавца распространяется только на Продукцию первого сорта, и не распространяется на Продукцию второго, третьего сорта, а также на партии со спецпредложениями, по которым были предложены специальные скидки или цены, отмеченные в примечаниях в подтверждении заказа.

H.2. Продавец не гарантирует пригодность Продукции для специальных видов применения, а лишь только ее технические характеристики, размещенные на сайте в интернете, в документе 2) Технические данные. Сфера применения, даже если она указана Продавцом в каталогах и руководствах, должна считаться лишь только ориентировочной. На основании технических характеристик, приведенных в 2) Технических данных, проектировщик обязан оценить пригодность Продукции к конкретным условиям применения, в зависимости от нагрузок и от переменных факторов, которые могут возникнуть в среде применения, изменяя характеристики Продукции, такие как: интенсивность хождения, качество хождения (наличие песка, мусора и т.д.), возможные неблагоприятные климатические условия и любые другие случайные факторы, которые могут оказать воздействие на материал.

H.3. В случае установления того факта, что Продукция имеет явные дефекты в соответствии с положениями п. 3 раздела G, Продавец заменит дефектную Продукцию другой, обладающей такими же или более высокими характеристиками. Если это невозможно, то он надлежащим образом снизит цену. В качестве альтернативы после возврата дефектной Продукции Покупатель имеет право на возмещение уплаченной цены и транспортных расходов, при этом исключено возмещение любого другого прямого и/или косвенного ущерба.

H.4. Гарантия Продавца считается отмененной в случае, если Продукция, частично или полностью имеющая явные дефекты, была использована и/ или трансформирована каким-либо образом, поскольку считается, что этими действиями Покупатель (или его клиент) выразил волю принять Продукцию в том состоянии, в котором она находится.

H.5. В случае установления того факта, что Продукция имеет скрытые дефекты, гарантия Продавца ограничена заменой материала другим, обладающим такими же или более высокими характеристиками. Если это невозможно, то Продавец возместит уплаченную цену и транспортные расходы. В любом случае, гарантия Продавца на любой прямой и/или косвенный ущерб, вызванный каким-либо образом дефектной Продукцией, ограничена суммой, которая не может превышать больше, чем в два раза, востребованную Продавцом отпускную цену, и лишь только в отношении к дефектной части поставки.

H.6. Если Покупатель перепродает Продукцию лицам, которые защищены Кодексом потребителя (законодательный декрет № 206/2005), то он несет ответственность за предоставляемые условия, если они отличаются от приведенных здесь, кроме того, он обязан удостовериться в том, что права потребителя защищаются с соблюдением мер и сроков, предусмотренных вышеуказанным Кодексом.При наличии соответствующих предпосылок право регресса и/или право на взыскание убытков, которое Покупатель имеет по отношению к Продавцу/производителю, не может превышать исключения и пределы, установленные в п. 1 раздела G и в п. 5 раздела H.

I. УСЛОВИЯ ОБ ОБЯЗАТЕЛЬНОЙ ОПЛАТЕ (SOLVE ET REPETE) И О ДОСРОЧНОМ ОДНОСТОРОННЕМ РАСТОРЖЕНИИ

I.1. В соответствии со ст. 1462 гражданского кодекса Покупатель не вправе ни по какой причине, в том числе в связи с претензиями по поводу качества или дефектности товара, приостанавливать или задерживать оплату вывезенного материала, сохраняя, тем не менее, право требовать возмещение, если он докажет неправомерное взимание оплаты.

I.2. В случае изменения имущественного положения Покупателя или даже частичной неоплаты уже поставленной Продукции, Продавец может приостановить исполнение текущих поставок и/или расторгнуть текущие договоры, и Покупатель не имеет права потребовать какого-либо возмещения прямых и/или косвенных убытков.

L.- ПОЛОЖЕНИЕ О СОХРАНЕНИИ ПРАВА СОБСТВЕННОСТИ

L.1. Поставляемая Продукция будет оставаться в собственности Продавца до тех пор, пока Покупатель полностью не оплатит ее.

L.2. В течение этого периода Покупатель несет обязательства и ответственность хранителя и не может уступать, предоставлять в пользование, разрешать наложение имущественного ареста или опись Продукции, не заявив, что она находится в собственности Продавца, и не известив его немедленно заказным письмом с уведомлением о вручении.

M.- ФОРС-МАЖОР

M.1. Любая из сторон имеет право приостановить исполнение своих контрактных обязательств, если это исполнение стало невозможным или объективно обременительным по причине непредвиденных событий, находящихся вне ее контроля, таких как, например: забастовка, бойкот, локаут, пожар, война (объявленная или нет), гражданская война, бунт, революция, конфискация, эмбарго, энергетическая блокада, непредвиденный выход из строя оборудования, задержки в поставках компонентов или сырья.

M.2. Сторона, желающая сослаться на настоящее условие, должна немедленно сообщить в письменной форме другой стороне о возникновении и прекращении форс-мажорных обстоятельств.

M.3. Если приостановка в связи с форс-мажорными обстоятельствами продлится более 60 (шестидесяти) дней, то каждая из сторон имеет право расторгнуть настоящий договор, отправив предварительное письменное уведомление об этом другой стороне за 10 (десять) дней.

N.- ОБЯЗАТЕЛЬСТВО О НЕРАЗГЛАШЕНИИ КОНФИДЕНЦИАЛЬНОЙ ИНФОРМАЦИИ

N.1. Покупатель обязан соблюдать максимальную конфиденциальность о всей информации технического характера (такая как, но не ограничиваясь этим, чертежи, проспекты, документация, формулы и переписка) и коммерческого характера (включая договорные условия, отпускные цены, условия платежа и т.д.), которая попала в его распоряжение в ходе исполнения настоящего договора.

N.2. Обязательство о неразглашении конфиденциальной информации действует в течение всего срока действия договора, а также в период после его исполнения.

N.3. В случае невыполнения обязательства о неразглашении конфиденциальной информации невыполняющая сторона обязана возместить другой стороне все убытки, вытекающие из ее нарушения.

O.- ТОРГОВЫЕ МАРКИ И ОТЛИЧИТЕЛЬНЫЕ ЗНАКИ ПРОДАВЦА

O.1. Категорически запрещается использование торговых марок, орнаментальных промышленных образцов и предметов интеллектуальной собственности вообще, в любом виде или форме выражения (например, только в качестве неполного перечня: изображения, фотографии, чертежи, видеосъемки, рисунки, конструкции и т.д.), являющихся интеллектуальной собственностью Продавца, в любых СМИ (например, только в качестве неполного перечня: печать, видеоканалы, радиовещание, интернет, социальные сети, платформы для обмена сообщениями или VoIP-платформы). Любое, даже только частичное отступление от этого запрета должно письменно разрешаться в каждом отдельном случае Генеральной дирекцией Продавца.

P.- ЯЗЫК ДОГОВОРА, ПРИМЕНИМЫЙ ЗАКОН, ЮРИСДИКЦИЯ И КОМПЕТЕНЦИЯ

P.1. Договор и настоящие условия составлены на итальянском языке, который преобладает в случае разночтений с переводом на другие языки.

P.2. Любой спор, каким-либо образом связанный с поставками, регулируется итальянским законом и подлежит юрисдикции Итальянского государства, а территориальная компетенция принадлежит исключительно суду г. Модены, в округе которого Продавец имеет свой юридический адрес.

MADE IN ITALY

The Made in Italy logo of Atlas Concorde stands for style, quality and ethics. Having firmly adhered to the Ethical Code promoted by Confindustria Ceramica, Atlas Concorde places the Made in Italy logo on all the products designed and produced in Italy, that is to say ceramic tiles, decorations and the majority of special trim tiles. Only a small amount of the latter is manufactured in Spain. Atlas Concorde products are produced using eco-friendly technologies, top quality and safe raw materials with the best working conditions guaranteed for our personnel. For these reasons, Atlas Concorde's Made in Italy is the expression of strong values such as style, design, product quality, and respect for the environment and the people who live in it.

Il marchio Made in Italy di Atlas Concorde è sinonimo di stile, qualità ed etica. Avendo aderito con convinzione al Codice Etico di Confindustria Ceramica, Atlas Concorde appone il marchio Made in Italy su tutti i prodotti studiati, progettati e realizzati in Italia, nella fattispecie tutte le piastrelle di ceramica, le decorazioni e la maggioranza dei pezzi speciali. Solo un ristretto numero di questi ultimi è fabbricato in Spagna. I prodotti Atlas Concorde sono inoltre realizzati con tecnologie rispettose dell'ambiente, utilizzando materie prime eccellenti e sicure, garantendo le migliori condizioni di lavoro. Per queste ragioni il Made in Italy di Atlas Concorde è espressione di valori forti quali stile, design, qualità del prodotto, attenzione all'ambiente e alle persone.

Le label Made in Italy d'Atlas Concorde est synonyme de style, de qualité et d'éthique. Atlas Concorde a adhéré au Code Éthique de Confidustria Céramique avec conviction et appose le label Made in Italy sur tous les produits étudiés, projetés et fabriqués en Italie : dans ce cas, sur tous les carreaux en céramique, les décorations et la plupart des pièces spéciales. Seul un nombre restreint de ces dernières est fabriqué en Espagne. Les produits Atlas Concorde sont en outre fabriqués avec des technologies qui respectent l'environnement et utilisent des matières premières excellentes et sures, dans la garantie des meilleurs conditions de travail. Pour ces raisons, le Made in Italy d'Atlas Concorde exprime des valeurs fortes telles que le style, le design, la qualité du produit et le respect de l'environnement et des personnes.

La marca Made in Italy de Atlas Concorde es sinónimo de estilo, calidad y ética. Adheriendo con convicción el Código Ético de Confindustria Cerámica, Atlas Concorde señala con la marca Made in Italy todos los productos estudiados, diseñados y realizados en Italia, en este caso todas las baldosas de cerámica, las decoraciones y la mayoría de piezas especiales. Sólo un restringido número de estas últimas se fabrica en España. Los productos Atlas Concorde se realizan además con tecnologías que respetan el medio ambiente, usando materias primas excelentes y seguras, garantizando las mejores condiciones de trabajo. Por dichas razones el Made in Italy de Atlas Concorde es la manifestación de valores sólidos como estilo, diseño, calidad del producto, cuidado del medio ambiente y las personas.

Die Marke Made in Italy von Atlas Concorde ist ein Synonym für Stil, Qualität und Ethik. Aus Überzeugung haben wir uns dem Ethischen Kodex der Confindustria Ceramica (Dachverband der ital. Unternehmen und Unternehmensverbände der Keramikbranche) angeschlossen. Atlas Concorde bringt die Marke Made in Italy auf allen seinen Produkten an die in Italien geplant, entwickelt und realisiert werden, d.h. alle Keramikfliesen, Dekore, Bordüren und der Hauptteil der Spezialteile. Nur eine geringe Anzahl der letzteren werden in Spanien gefertigt. Die Produkte von Atlas Concorde werden darüberhinaus unter Verwendung ausgezeichneter und sicherer Rohstoffe mittels umweltschützender Technologien unter besten Arbeitsbedingungen hergestellt. Aus diesen Gründen ist Made in Italy von Atlas Concorde ein Ausdruck starker Werte wie Stil, Design, Produktqualität.

Маркировка Made in Italy на плитках Atlas Concorde – синоним стиля, качества и этики. С уверенностью приняв «Этический кодекс» федерации Confindustria Ceramica (ассоциация предприятий керамической отрасли), компания отмечает этим знаком все изделия, разработанные и изготовленные в Италии: керамические плитки, декоры и большинство специальных элементов. Лишь ограниченная часть последних производится в Испании. Изделия Atlas Concorde изготовлены с использованием надёжного, высококачественного сырья и передовых технологий, гарантирующих экологическую совместимость производства и оптимальные рабочие условия. Для Atlas Concorde Made in Italy – это выражение важных ценностей, таких как стиль, дизайн, качество. Это уважение к человеку и природе.

Ceramics of Italy

The Ceramics of Italy logo is an exclusive identification on ceramic products which have effectively been made in Italy by companies that are a part of the Confindustria Ceramica and who adhered to its Ethical Code. This Code, promoted and created by Confindustria Ceramica, commits all companies to communicate, clearly and with transparency, the origin of their products.

Il marchio Ceramics of Italy contrassegna esclusivamente i prodotti ceramici effettivamente realizzati in Italia da un'azienda associata a Confindustria Ceramica che ha sottoscritto il Codice Etico. Il Codice, redatto dalla stessa Confindustria Ceramica, impegna a comunicare con chiarezza l'origine dei prodotti.

Le label Ceramics of Italy distingue exclusivement les produits en céramique qui sont effectivement fabriqués en Italie par les sociétés associées à Confindustria Céramique ayant souscrit le Code Éthique. Ce Code, rédigé par Confindustria Céramique, engage ceux qui le souscrivent à communiquer clairement l'origine des produits.

Die Marke Ceramics of Italy zeichnet ausschließlich Keramikprodukte aus, die in Italien, von Unternehmen, welche dem Dachverband der ital. Unternehmen und Unternehmensverbände der Keramikbranche angehören und sich dem Ethischen Kodex verschrieben haben, hergestellt werden. Der Kodex, von diesem Dachverband ins Leben gerufen, verpflichtet sich zur klaren Angabe und Mitteilung der Herkunft der Produkte.

La marca Ceramics of Italy distingue exclusivamente los productos cerámicos realizados efectivamente en Italia por una empresa afiliada a Confindustria Cerámica que ha suscrito el Código Ético. El Código, redactado por Confindustria Cerámica, compromete a quien lo ratifica a comunicar con claridad el origen de los productos.

Знаком Ceramics of Italy маркируются только керамические изделия, которые изготовлены действительно в Италии предприятием-членом федерации Confindustria Ceramica, подписавшим "Этический кодекс". Кодекс разработан самой федерацией и обязывает ясно указывать происхождение товара.

Per le informazioni e i dati relativi a codici, imballaggi e pesi occorre sempre consultare l'ultimo listino aggiornato e in vigore. / Pour toutes informations et renseignements concernant les codes, les emballages et les poids, il y a toujours lieu de consulter le dernier tarif en vigueur et mis à jour | Für Informationen und Daten die den Code, die Verpackung und das Gewicht betreffen bitte die aktuellste Preisliste zugrunde legen | Para acceder a la información y a los datos relativos a códigos, embalajes y pesos hay que consultar siempre la última lista de precios actualizada y vigente | Для информации о кодах, упаковках и весе обращайтесь к последнему действующему прайс-листу.

Ceramic products can have slight variations in tone. Check with the sales representative for the possibility of combining production lots, formats, decorations and special pieces.
Il prodotto ceramico può essere leggermente variabile in termini di toni. Verificare con il referente commerciale l'abbinabilità sia tra i lotti produttivi che tra i formati e i decori o i pezzi speciali. /Le produit céramique peut légèrement différer sur l'aspect de la couleur. Vérifier avec le référent commercial que l'assortiment soit entre les lots de fabrication qu'entre les formats et les décors ou les pièces spéciales | Im keramischen Produkt sind Abweichungen von Farbton möglich. Wenden Sie sich bitte an den Verkaufsleiter, um zu überprüfen, wie man die verschiedenen Posten, Formate, Dekore oder Spezialteile miteinander kombinieren kann | El producto cerámico puede variar levemente en lo que respecta a los tonos. Consulte con el representante de ventas la combinación entre los lotes producidos y entre los formatos y las decoraciones o las piezas especiales | Керамические изделия разных партий могут слегка отличаться по тону. Проверьте вместе с торговым представителем сочетаемость с изделиями других партий, а также с форматами, декоративными или специальными элементами.

The production sizes of special pieces in porcelain tiles may vary from the nominal sizes provided for in current standards (ISO 13006 – EN 14411 Annex G) for non-modular tiles.
Le dimensioni di fabbricazione dei pezzi speciali in gres porcellanato possono derogare dalle dimensioni nominali previste dalle normative vigenti (ISO 13006 - EN 14411 appendice G) per le piastrelle non modulari. / Les dimensions de fabrication des pièces spéciales en grès cérame peuvent déroger aux dimensions nominales prévues par les règlements en vigueur (ISO 13006 - EN 14411 annexe G) pour les carreaux non modulaires. | Die Produktionsmaße der Formteile aus Feinsteinzeug können für die nicht modularen Fliesenformate von den Sollmaßen der geltenden Normen (ISO 13006 - EN 14411 Anhang G) abweichen. | Los tamaños de fabricación de las piezas especiales de gres porcelánico pueden ser diferentes de las dimensiones nominales previstas por las normas vigentes (ISO 13006 - EN 14411 apéndice G) para las baldosas no modulares. | Производственные размеры специальных элементов из керамогранита могут отклоняться от номинальных размеров, предусмотренных действующими стандартами (ISO 13006 - EN 14411, Приложение G) для немодульных плиток.

The actual dimensions of the special pieces and the smaller pieces obtained by cutting porcelain tiles could deviate from the tolerances in the catalog, which instead for the rectified formats are guaranteed by Atlas Concorde.
Le dimensioni reali dei pezzi speciali e dei sottoformati ottenuti da tagli in gres porcellanato potrebbero derogare rispetto alla tolleranze presenti a catalogo garantite da Atlas Concorde sui formati rettificati. / Les dimensions réelles des pièces spéciales et des sous formats obtenus à partir des coupes en grès cérame pourraient varier par rapport aux tolérances présentes au catalogue garanties par Atlas Concorde sur les formats rectifiés. | Die tatsächlichen Abmessungen der Formstücke und der geschnittenen Unterformate aus Feinsteinzeug können von den im Katalog genannten, von Atlas Concorde für rektifizierte Formate garantierten Toleranzen abweichen. | Las dimensiones reales de las piezas especiales y de los subformatos obtenidos por cortes de gres porcelánico, podrían no cumplir con las tolerancias indicadas en el catálogo, garantizadas por Atlas Concorde para los formatos rectificados. | Фактические размеры специальных элементов и подформатов, полученных путем разрезания керамогранита, могут отклоняться от допусков, указанных в каталоге и гарантируемых компанией Atlas Concorde для ретифицированных форматов.
